# CTBC BANK (PHILIPPINES) CORPORATION

## **Annual Report Year 2021**

#### **Our Purpose**

To achieve sustainable growth and to be a trustworthy brand that provides a uniquely personal and fulfilling customer experience through differentiated products and services within our global network.

#### **Our Strategy**

We will provide a stable source of revenue for the Bank
by being the preferred financial products provider for our customers
and by optimizing the earning potential of our resources.

We will innovate products and services
that will delight our customers and address their needs.

We will promote a culture of entrepreneurship
where our employees become partners
in pursuing sustainable business growth.

We will remain committed to uplifting the lives of the people

We will remain committed to uplifting the lives of the people in our communities by sharing our resources and encouraging employee volunteerism.

#### CTBC Bank (Philippines) Corp.

CTBC Bank (Philippines) Corp. was established in 1995, when the country opened up to the entry of foreign banks. Amid an intensely competitive arena, CTBC Bank (Philippines) Corp. distinguished itself with a niche-based strategy that demonstrated its efficiency, innovativeness, and customer focus. We drew strength from the global reputation and track record of CTBC, our Parent Bank in Taiwan, and complemented these with our own unique touch of local service and innovation.

In the Philippines, our brand promise "We are Family" has gained new meaning while also holding true to the tradition set by our Parent Bank. CTBC Bank (Philippines) Corp. has achieved this balance by focusing effectively on our chosen markets and developing active partnerships with customers. The results may be seen in our Bank's solid financial performance, innovative products, and responsive services enabled by technology. More importantly, it has shown in the growth that our clients have attained with the Bank by their side.

As we chart our future, we continue to leverage on our Parent Bank franchise and reinforce our efforts to become truly global in our Bank's vision, products and services, systems, and operations. Equally significant has been our emphasis on good corporate governance, keeping pace with international standards and exercising prudence in managing our Bank's resources and risk-taking activities. We remain firmly committed to these goals toward realizing long-term growth while we build our clients' investments, develop our employees' talents and skills, and nurture the communities around us. In directing our capabilities toward these directions, we move closer to our promise of a future secured.

We are Family. We are Caring, Trustworthy, and Professional. We are CTBC Bank.

#### Item 1. Business

#### (1) Description of Business

**Business Development**. CTBC Bank (Philippines) Corp. ("Bank") is the Philippine subsidiary of CTBC Bank Co., Ltd. ("CTBC Ltd.") of Taiwan.

The Bank was incorporated on September 7, 1995 initially as Access Banking Corporation, and commenced operation on September 26, 1995 as a domestic commercial bank. The Bank has an authorized capital stock of P3.0 Billion.

On November 22, 1995, the Monetary Board approved the investment of CTBC Ltd. in sixty percent ("60%") of the voting stock of Access Banking Corporation through the outright purchase of fifty percent ("50%") or P487.5 Million of its P975.0 million outstanding voting stock and an additional subscription of P262.5 million of the P275.0 million additional voting stock issued. On January 8, 1996, the Bank's name was changed to Chinatrust (Philippines) Commercial Bank Corporation.

In line with the capital build-up program of the Bank, its Board of Directors approved in 1997 the issuance of 25 million common shares at P10.00 per share from its authorized capital stock via a stock rights offering to existing stockholders. This entitled the existing shareholders to subscribe to one (1) common share for every five (5) shares held. As of December 31, 1997, the stock rights offering was fully subscribed; partial payment to the subscription amounted to P209.99 million which resulted in the Bank's attainment of its P1.647 Billion capital, fully complying with minimum capital requirements of BSP of P1.625 billion by the end of the year. On March 31, 1998, all subscriptions to the stock rights were fully paid. On April 23, 1998, the SEC approved the stock rights offering.

On June 2, 1999, the Bank's share was listed in the Philippine Stock Exchange ("PSE") through an Initial Public Offering ("IPO") of 37,500,000 common shares from its unissued authorized capital stock. The proceeds of the IPO were utilized for branch expansion and investment in information technology.

In December 2000, CTBC Ltd. substantially increased its equity in the Bank through the acquisition of shares held by a minority group, thus controlling approximately 91% of the Bank's capital stock, compared to 57% prior to the acquisition. A further acquisition of shares held by the public representing 9% of the Bank's equity was made by CTBC Ltd. in January 2001 through a tender offer at a price of PhP19.00 per share, the same price at which the shares from the minority group was acquired. To date, CTBC Ltd. holds 99.41% of the Bank's outstanding capital stock.

On August 25, 2005, the Board of Directors of the Bank declared 15% stock dividends out of its unissued shares. It was subsequently approved by the shareholders in a special meeting called for the same purpose on December 22, 2005. The BSP later approved the 15% stock dividend on February 20, 2006. On April 4, 2006, 28,124,997 common shares representing the 15% stock dividends were issued to the Bank's shareholders and simultaneously listed with the PSE.

On March 30, 2007, the Bank's Board of Directors once again made another 15% stock dividend declaration, to be paid out of the Bank's unissued shares. The same was ratified by the shareholders during the Bank's annual shareholders' meeting held on June 28, 2007, and subsequently approved by the BSP on September 20, 2007. On

November 15, 2007, an additional 32,343,734 common shares representing 15% stock dividends were listed in the PSE and issued to the Bank's stockholders of record as of record date.

On December 23, 2011, the Bank a filed Petition for Voluntary Delisting at the Philippine Stock Exchange ("PSE"). Pursuant to the PSE Voluntary Delisting Rules, a tender offer was conducted by the Bank at a tender offer price of Php26.14. The PSE in its Memorandum No. 2012-0010 dated February 20, 2012 approved the Petition for Voluntary Delisting effective February 24, 2012.

On September 19, 2013, the SEC approved the amendment to Article FIRST of the Bank's Articles of Incorporation amending the Bank's name to CTBC Bank (Philippines) Corp. The Bank started using the new corporate name effective October 30, 2013.

On July 25, 2019, the shareholders approved the amendment to Article SEVENTH of the Articles of Incorporation increasing the authorized capital stock from 3 Billion Pesos to 4 Billion Pesos and increasing the common stock from 300,000,000 to 400,000,000, in connection with the Bank's Capital Build Up Program to comply with the Bangko Sentral Ng Pilipinas Circular No. 854 Series of 2014 on Minimum Capitalization of Banks. The shareholders also approved the issuance to Parent Bank CTBC Bank Co., Ltd. of the following shares at the share price of Php29.755: the 484,920 Treasury Shares, the remaining 51,031,269 from the unissued common shares, and 48,307,202 common shares from the increase in the authorized capital stock subject to the approval of the Securities and Exchange Commission to said amendment in the Bank's Articles of Incorporation. The Bank entered into subscription agreements dated September 12, 2019 with CTBC Bank Ltd. for the said shares. The subscriptions were fully paid. The Bank issued the Treasury Shares and the remaining unissued common shares so that the shareholdings of CTBC Bank Ltd. increased from 99.60% to 99.67% of the Bank's outstanding shares. On March 6, 2020, the Securities and Exchange Commission approved the aforestated amendment to Article Seventh of the Articles of Incorporation. The Bank thus issued the 48,307,202 common shares from the increase in its authorized capital stock so that the shareholdings of CTBC Bank Ltd., further increased from 99.67% to 99.72%.

On June 24, 2021 the shareholders elected the following as members of the Board: Wen-Hung (Jack) Lee, William B. Go, Oliver D. Jimeno, Li-Hsuan Juan, Jui-Cheng (Kevin) Huang and Alexander A. Patricio, Stephen D. Sy, and Luis Y. Benitez, Jr. as Independent Directors. On December 16, 2021 Jack Lee voluntarily resigned and the Board appointed Cheng-Hsin Wang as Chairman of the Board to serve the unexpired term of Jack Lee.

Based on the data as of December 31, 2021 issued by Business World, out of the forty six (46) universal and commercial banks operating in the Philippines, the Bank ranked 25th in terms of Total Assets; 23rd in terms of Total Loans; 25th in terms of Total Deposits; and 24th in terms of Total Capital.

From the foregoing products and services, the Bank's revenues are categorized into three (3) major segments, namely: (1) Portfolio Products; (2) Transactional Banking Products; and (3) Exposure Management Products. The remaining revenues are classified under Others. Portfolio Product revenues consist of spreads earned on loans. Transactional Banking Product revenues consist of spreads earned on deposits as well as fees earned from cash management products and trade services. Exposure Management Product revenues consist of income earned from the investment portfolio and trading activities. Other revenues consist of fees earned on trust services, gain on sales of acquired assets, service fees and charges earned on all other banking activities. The contributions of the 3 major segments in terms of percentage to the Bank's total revenues during the last two years are as follows:

Major Segment	2020	2021
Portfolio Products	48.95%	60.11%
Transactional Banking Products	21.93%	17.88%
Exposure Management Products	17.13%	11.50%

#### Status of New Products or Services.

The Bank launched its Chinese Desk team last January 2021 to cater to our existing and potential Chinese speaking clients – Mandarin and Hokkien. Our Chinese Desk team is currently stationed in our Binondo branch.

We have also launched new products and services in 2021 - VIP Courier service which was launched last March to better serve our clients who are not vet comfortable to visit our branch to submit documents due to the COVID situation and My First Saves launched last June which is our kiddie savings account for children below 18 years old to help them start saving at an early age.

Distribution Network. The Bank's products and services are made available to its clients through its offices, branch network, all automatic teller machines (ATMs), and for some services/products, thru its 43 ATMs and other ATM networks. Likewise, some products can now be accessed through internet and mobile banking channels and other electronic channels i.e. interactive voice response system, internet and short message system (SMS). In addition to its Main Office Branch in Bonifacio Global City, the Bank operates 24 branches as of end of December 2021.

Competition. The Bank faces competition from both domestic and foreign banks that operate in the Philippines. In the light of such competitive environment, the Bank

focuses on key businesses to include consumer finance, the trading of fixed-income instruments and foreign exchange, the Taiwanese business, and selective corporate lending. By being a specialist, it is able to properly concentrate its resources and capital to ensure service excellence and good risk management and corporate governance. The Bank likewise adopts applicable business models from its parent bank and custom fits these to local market conditions. These efforts make the Bank a strong player in its chosen businesses.

Sources and availability of raw materials and the names of principal supplier. - Not applicable.

Dependence upon a single/few customers. - Not applicable.

**Transactions with and/or dependence on related parties.** Except in the ordinary course of business such as DOSRI transactions and employee loans, there are no transactions with and/or dependence on related parties.

*Trademarks, Licenses, Franchises., etc.* The Bank is the owner of the marks "CTBC", "We Are Family" and "Salary Stretch". As to other licenses, the Bank is a registered Government Securities Eligible Dealer (GSED) with Broker Dealer of Securities Functions.

**Effect of existing or probable government regulations**. As a domestic commercial bank, the Bank is governed by the rules and regulations of the BSP. The Bank observes and complies with all government laws, rules and regulations that exist.

**Amount spent on research and development.** There are no major expenses on research and development activities and these are just incorporated into the ordinary business expense of the Bank.

Cost and effect of compliance with environmental laws. - Not applicable.

**Number of Employees.** As of December 31, 2021, the Bank had seven hundred twenty four (724) employees composed of 430 officers and 294 staff, with 685 regular employees and 39 probationary employees. The Bank has no existing employees' union. It has also no collective bargaining agreement.

**Major Business Risks.** The Bank's business activities are exposed to a variety of financial risks – market risk, credit risk, liquidity risk and interest rate risk. The Bank is strongly committed to judiciously managing risks. For this purpose, it has put in place the necessary processes and platforms that enable it to prudently manage all categories of risk. It is the presence of this risk infrastructure and consciousness that has made the Bank either a leader or a major player in businesses where the required core competency is astute risk management capability. The Bank's risk management programs seek to minimize potential adverse effects on its financial performance.

Market risk is the risk that the value of a currency position or financial instrument will fluctuate due to changes in foreign exchange rates and interest rates. The Bank's market risk originates from its holdings in its foreign exchange instruments, debt securities and derivatives. The Bank utilizes market risk factor sensitivities as a tool to manage market risk. Market risk factor sensitivities of a position are defined as a change in the value of a position caused by a unit shift in a given market factor. The Market Risk Management Department implements a trading risk limits that is in line with the Bank's risk appetite. The Bank also maintains a rigid system of loss limits and action triggers

that prompt management to immediately act in the event that these thresholds are breached. These actions may include, but are not limited to, the partial liquidation of existing positions in order to cut losses. The objective of these thresholds is to ensure that losses, if any, will be limited to what the Bank's earning capability can sufficiently cover.

Credit risk is the risk that a borrower /obligor, guarantor, debtor or counterparty, or issuer of a security held by the Bank will not pay the obligation when it falls due. The Bank manages its credit risk by setting limits for individual borrowers and group of borrowers. It also places a cap on exposures to top borrowers, specific products, identified market segments, selected industries and loan tenors. The Bank likewise monitors borrower-specific credit exposures, and continually assesses the creditworthiness of counterparties. In addition, the Bank obtains security where appropriate, enters into collateral arrangements with counterparties and limits the duration of the exposures.

**Liquidity risk** is the risk that the Bank will be unable to meet its obligations as they fall due at a reasonable cost within a reasonable timeframe. To effectively manage liquidity risk, the Bank diversifies its funding sources and maintains a set of prudent liquidity risk limits, liquidity indicators, maturity gap analysis, and maximum cumulated outflows per tenor bucket. In addition, the Bank maintains sufficient cash and marketable securities, ensuring the availability of funding through an adequate amount of committed credit facilities and having the ability to close out market positions.

Interest rate risk in banking book is the risk to future earnings or equity arising from the movement of interest rates. The Bank is exposed to interest rate risk as a result of mismatches of interest rate repricing of assets and liabilities. The Bank measures the impact of 1 basis point change in interest rate on net interest income (NII) and that on economic value of equity (EVE). The analysis of such impact on NII (1bp△NII) focuses on changes in interest income and expense within a year, hence, a short-term perspective. The analysis of such impact on EVE (1bp△EVE) is of a long-term perspective as it focuses on changes of economic value which will become net interest income received every year later on. Accordingly, both delta Net Interest Income and delta Economic Value of Equity limits in relation to the interest rate sensitivity of the banking book have been established by Management.

In addition to financial risks, the Bank is also exposed to operations risks. Operational risk is defined as the risk of loss arising from direct or indirect loss from inadequate or failed internal processes, people and systems, or from external events. The Direct Loss results primarily from an operational failure while the Indirect Loss relates to the impact of operational risk on other risks such as Market, Credit or Liquidity Risk. The Bank ensures that specific business policies, processes, procedures and staff are in place to manage overall operational risks by way of identifying, assessing, controlling, mitigating, monitoring and reporting risk events. The Bank manages other types of risks such as regulatory and reputational risk.

#### Item 3. Legal Proceedings

Except for cases or proceedings, which are incidental to its business such as suits for sum of money, foreclosures, writs of possession, employee relations, and other cases arising from loan transactions and operations, the Bank has no material pending legal proceedings for or against it.

#### Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of the security holders during the fourth (4<sup>th</sup>) quarter of the year covered by the report.

#### PART II - OPERATIONAL AND FINANCIAL INFORMATION

#### Item 5. Market for Issuer's Common Equity and Related Stockholder Matters

#### 1. Market Information

The PSE in its Memorandum No. 2012-0010 dated February 20, 2012 approved the Petition for Voluntary Delisting effective February 24, 2012. Market prices of the Bank's shares since 1<sup>st</sup> quarter of 2010 to 1<sup>st</sup> quarter of 2012 are as follows:

QUARTER	HIGH	LOW
1Q '12	25.50	20.00
4Q'11	28.00	19.00
3Q'11	21.00	20.00
2Q '11	22.00	21.00
1Q '11	21.00	21.00
4Q'10	23.50	21.00
3Q'10	22.00	20.00
2Q '10	22.00	15.25
1Q '10	25.00	24.00

As of February 20, 2012, which is the last trading date prior the effective date of delisting at the PSE, the information showed a closing price of P20.00.

There was no sale of any securities made by the Bank within the last three (3) years except as stated in Item 5 (4) herein.

#### 2. Holders

The number of shareholders of record as of December 31, 2021 is 111.

Common Shares outstanding as of December 31, 2021 are 348,307,202.

The Top 20 Stockholders of record as of December 31, 2021 are as follows:

#### 3. Dividends

The Bank declared 15% stock dividends last August 25, 2005, which was subsequently approved by its shareholders on December 22, 2005. The BSP later approved the 15% stock dividend on February 20, 2006. On April 4, 2006, 28,124,997 common shares representing the 15% stock dividends were paid to the Bank's shareholders and simultaneously listed with the PSE.

On March 30, 2007, the Bank's Board of Directors once again made another 15% stock dividend declaration, to be paid out of the Bank's unissued shares. The same was ratified by the shareholders during the Bank's annual shareholders' meeting held on June 28, 2007, and subsequently approved by the BSP on September 20, 2007. On November 15, 2007, an additional 32,343,734 common shares representing 15% stock dividends were listed in the PSE and issued to the Bank's stockholders of record as of record date.

Any dividend declaration to be made by the Bank is subject to approval by the BSP and SEC. At the regular meeting of the BOD held on June 23, 2015, the BOD approved the restriction of the full amount of retained earnings for the following purposes: i) to comply with minimum capital requirement set forth under BSP Circular No. 854; ii) to comply with the requirements of the ICAAP pursuant to BSP Circular No. 639; and iii) to provide for buffer in preparation for BASEL III requirements.

### 4. Recent Sales of Unregistered or Exempt Securities, Including Recent Issuance of Securities Constituting an Exempt Transaction

On July 25, 2019, the shareholders approved the amendment to Article Seventh of the Articles of Incorporation increasing the authorized capital stock from 3 Billion Pesos to 4 Billion Pesos and increasing the common stock from 300,000,000 to 400,000,000. The shareholders also approved the issuance to Parent Bank CTBC Bank Co., Ltd. of the following shares at the share price of Php29.755: the 484,920 Treasury Shares, the remaining 51,031,269 from the unissued common shares, and 48,307,202 common shares from the increase in the authorized capital stock subject to the approval of the Securities and Exchange Commission to said amendment in the Bank's Articles of Incorporation. The Bank entered into subscription agreements dated September 12, 2019 with CTBC Bank Ltd. for the said shares. The subscriptions were fully paid. The Bank issued the Treasury Shares and the remaining unissued common shares so that the shareholdings of CTBC Bank Ltd. increased from 99.60% to 99.67% of the Bank's outstanding shares. On March 6, 2020, the Securities and Exchange Commission approved the amendment to Article Seventh of the Articles of Incorporation. The Bank thus issued the 48,307,202 common shares from the increase in its authorized capital stock so that the shareholdings of CTBC Bank Ltd., further increased from 99.67% to 99.72%.

The issuance of the aforementioned shares are in accordance with the Bank's Capital Build Up Program to comply with the Bangko Sentral Ng Pilipinas Circular No. 854 Series of 2014 on Minimum Capitalization of Banks.

#### Item 6. Management's Discussion and Analysis or Plan of Operation.

#### FY 2021 Compared to FY 2020

The bank recorded Php52.9 billion total Assets as at December 31, 2021, Php1.5 billion increase year on year, primarily from Due from BSP and other Banks, and Investment Securities at Amortized Cost (AC). The growth in Investment Securities at AC amounting to Php3.5 billion resulted to Php1.1 billion increase in its average balance, which then led to Php41.8 million or 35.7% increase in the interest income for Investment Securities at AC year on year. On the contrary, the interest income for Deposit with BSP and other Banks declined by Php1.0 million despite the increase in Due from BSP and other Banks amounting to Php1.2 billion or 24.7%, this is basically due to tapering BSP rates. Interbank loans receivable, Financial Assets at Fair Value through Profit and Loss (FVTPL) and Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) all dropped by Php502.1 million, Php400.9 million and Php2.5 billion, respectively. The decrease in Interbank loans receivable by 41.9% have aligned to its reported interest income of Php11.8 million, which is lower by 43.0% year on year. The lower financial assets at FVTPL also recorded a slide in its interest income by Php7.5 million or a decrease of 29.0%. The Loans and Receivables slightly moved up by Php284.2 million, however, the average loan balance still declined by Php3.9 billion, mainly from the Middle Market segment. This caused the interest income for Loans and Receivables to also contract by 16.5% or Php442.8 million.

Total Liabilities of the Bank increased by Php1.7 billion, from Php40.5 billion to Php42.2 billion, mainly on account of higher Deposits. Total Deposits improved from Php34.3 billion to Php37.3 billion, or Php3.1 billion increase year on year, concentrating on low cost deposits, which contributed Php2.4 billion in the increase. Despite the increase in volume, the interest expense on Deposit Liabilities dropped by Php210.0 million or 56.1% due to the drop on interest rates. Financial liabilities at Fair Value through Profit or Loss (FVTPL), Outstanding Acceptances, as well as Manager's Check, contracted by Php105.6 million, Php174.6 million and Php87.2 million, respectively, year on year. Bills payable decreased from Php2.9 billion to Php2.0 billion, basically from the termination of the Bank's peso long term borrowing. The interest expense on Bills payable and other borrowings also decreased by 60.1% or Php65.2 million year on year, in line with the decrease in volume and interest rates. Total Equity of the bank declined by Php247.6 million attributable to the Net Unrealized Loss on Financial Assets at FVOCI, which recorded a net loss of Php223.7 million this year compared to a net gain of Php65.9 million last December 2020. Conversely, Net Unrealized Loss on Retirement Obligation recovered by Php27.1 million, from 119.9 million loss to Php92.9 million loss this year. Likewise, Cumulative translation adjustment (CTA) also improved by Php3.6 million year on year.

The bank posted an Php11.5 million net income after tax for the year 2021, 93.9% or Php174.9 million decrease from last year. The result was greatly affected by the Net Trading and Securities loss amounting to Php62.8 million this year compared to the gain

of Php348.4 million last year. Also, the CREATE Law resulted to a one-time adjustment in Deferred Income Tax as the Bank's Deferred Tax Assets need to be recognized at 25% from a previous rate of 30%. This caused the Provision for Income Tax to increase by Php95.3 year-on-year, causing a huge drop in the Bank's after-tax income. The Bank's performance resulted to a 0.11% Return on Equity (ROE) and 0.02% Return on Assets (ROA).

Non-performing loans (NPL) ratio – Net improved to 2.3% as of December 31, 2021 from 2.7% in December 31, 2020. The NPL coverage - Net also increased to 162.7% from 129.7% as of end of last year. The Bank's capital adequacy ratio stood at 26.92% as of year-end.

#### FY 2020 Compared to FY 2019

The Bank's total Loans and Receivables-net dropped by Php6.3 billion, from Php37.0 billion to Php30.7 billion, which majorly contributed to the decrease of the Bank's total resources by Php4.2 billion. The decrease in Loans and Receivable is mainly coming from the Institutional Banking Group, where most of the accounts have closed due maturity with no re-availment, while some are due to pre-payment as clients have been de-risking their assets. The decrease in Loans and Receivables-net was partially offset by the improvement noted in the Bank's Investment in Securities. Financial Assets at Fair Value through Profit or Loss (FVTPL), Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) and Investment Securities at Amortized Cost (AC) increased by a total of 30% or Php2.9 billion, from Php9.37 billion to Php12.22 billion at 2020 year-end. Property and Equipment-net also increased by Php574 million, from Php215.1 million to Php788.8 million, owing to the renewal of various lease contracts of branches and Head Office booked to Right of Use asset. On the other hand, Due from Other Banks decreased by 40% or Php632.3 million year on year. The total Liabilities also declined by 12% or Php5.7 billion, which is attributable to lower Deposits and Bills Payable. The reduction in Bills Payable amounting to Php1.9 billion is due to the partial payment made by the bank in its long-term borrowing. Meanwhile, the increase in low cost deposit amounting to Php1.3 billion was not able to compensate the decrease in the Bank's high cost deposit by Php4.7 billion. The bank's move to prepay its long term borrowing and let go of its high cost deposits are due to the capital injection made by the Parent Bank. Since 2018, the Bank's total Capital Stock and Additional Paid-In Capital increased by Php3 billion.

The drop in deposits and bills payable caused the interest expense to decline by Php327.4 million and Php146.4 million, respectively, which in turn resulted to the improvement of Net Interest Income by Php241.9 million. Trading and Securities gainnet jumped by 94% or Php169 million, from Php179.4 million to Php348.4 million. Aside from the improvement in the Bank's operating income, it was also able to maintain its operating expenses (excluding Provision) low, at 4% or Php77 million increase only year on year. But despite the betterment in operating income and expenses, the increase in Provision for impairment and credit losses amounting to Php319.8 million dragged the bankwide income down. The increase in Provision is one of the effects brought by the

Covid-19 pandemic. This performance translated to a 1.8% return on equity (ROE) and 0.4% return on assets (ROA).

Non-performing loans (NPL) ratio as of December 31, 2020 rose to 2.7% from 2.0% in December 2019. The NPL coverage increased to 129.7% from 92% as of end of last year. The Bank's capital adequacy ratio stood at 27.02% as of year-end.

#### FY 2019 Compared to FY 2018

Total Bank's assets grew by Php1.29 billion as of year-end as compared to Php54.37 billion last December 2018. The growth in bank's resources is mainly from Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) which increased by Php4.02 billion or 167% year on year. Loans and Receivables — net is also up by Php1.79 billion, from Php35.20 billion to Php36.99 billion this 2019. On the other hand, Interbank Loans Receivables decreased by Php4.62 billion or 75% compared last year. Bills Payable dropped by Php3.14 billion to Php4.77 billion due to partial settlement of the peso long term borrowing. Meanwhile, other liabilities grew by P1.07 billion as a portion of the capital injected by CTBC Bank co. Ltd. was still lodged under Deposit for Stock subscription classified as liability as of December 31, 2019. Please refer to Note 18 of the Audited Financial Statements for the detailed discussion.

For the year ending December 31, 2019, the Bank's audited net income improved to Php331 million from Php237 million in 2018. Total revenue increased by 19.7% owing to the significant growth in Interest Income from Loans Receivables which jumped by 23.2% to Php2.83 billion. Furthermore, trading gains increased by Php165 million from Php14 million to Php179 million. In addition, provision for income taxes decreased to Php30 million vs. Php180 million in 2018. The decrease in 2019 income tax is due to the recognition of deferred tax asset on expense accrual. This performance translated to a 3.9% return on equity (ROE) and 0.6% return on assets (ROA).

On the other hand, net income before tax dropped to Php360 million from last year's Php418 million. The lower pretax income was mainly attributed to the increase in provision for impairment and credit losses which moved up by 137% to Php509 million from Php214 million.

Non-performing loans (NPL) ratio as of December 31, 2019 increased to 2.0% from 1.36% in December 2018. The NPL coverage decreased to 92% from 110% as of end of last year. The Bank's capital adequacy ratio stood at 19.07% as of year-end.

#### **Comparison of Interim Periods**

For the first nine months of 2021, the Banks total asset was at Php56.4 billion and went down to Php52.9 billion during the last quarter of the year. The decrease were mainly coming from Due from Bangko Sentral ng Pilipinas which went down by Php2.1 billion due to lesser availment of the BSP's Overnight deposit facility and Term deposit auction facility. There was also a significant decrease of Php1.9 billion in Loans and Receivable,

particularly in the corporate loans, wherein some of the accounts have closed due to maturity with no re-availment. Moreover, Interbank Loans Receivable, net declined by Php697 million. Meanwhile, Investment Securities at Amortized cost (AC) increased by Php1.0 billion due to the reclassification of some FVOCI to AC resulting to a decrease of Php444 million in Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) during the last quarter of the year. Financial Assets at Fair Value through Profit or Loss (FVTPL) went up by Php197 million for the Bank's acquisition of additional government bonds. Due from Other Banks and Deferred income tax has also registered an increase amounting to Php330 million and Php69 million, respectively. Total liabilities decreased by Php3.3 billion owing to decrease in low cost deposit amounting to P2.5 billion. Bills payable decreased by P304 million resulting from the constant partial payments made to the Bank's long-term borrowing. Furthermore, Outstanding acceptance and Accrued Interest, taxes and other expenses also went down by Php304 million and Php110 million, respectively. Due to lower Settlements Payable, Other liabilities went down by Php221 million.

The Bank's Net Income fell to Php11 million at year end from Php151 million registered last September 2021. This is mainly attributed to the increase in the additional Provision for impairment and credit losses amounting to Php351 million. The Bank has also incurred an additional net loss in its trading and securities activities amounting to Php22 million as a result of unfavorable market condition.

#### **Key Financial Indicators**

The following ratios are used to assess the performance of the Bank presented on a comparable basis:

	December 31, 2021	December 31, 2020	December 31, 2019
Return on Average Equity (ROE)	0.1%	1.8%	3.9%
Return on Average Assets (ROA)	0.0%	0.3%	0.6%
Cost-to-Income Ratio	76.0%	67.4%	70.4%

	December 31, 2021	December 31, 2020	December 31, 2019
Non-Performing Loan Ratio (NPL)	2.3%	2.7%	2.0%
Non Performing Loan Cover	162.7%	130%	92%
Capital Adequacy Ratio	26.9%	27.02%	19.97%

The manner by which the Bank calculates the above indicators is as follows:

- Return on Average Equity ---- Net Income divided by average total capital funds for the period indicated
- Return on Average Assets ---- Net Income divided by average total resources for the period indicated
- > Cost to income ratio --- Total Operating expenses divided by the sum of net interest income plus other income
- Non-Performing Loan Ratio --- Total non-performing loans divided by gross loan portfolio
- Non-Performing Loan Cover --- Total allowance for probable loan losses divided by total non-performing loans
- Capital Adequacy Ratio --- Total capital divided by risk-weighted assets

The ratios for the years 2021 and 2020 are as follows:

	2021	2020
Net income Average total equity <sup>2</sup>	P11,458,814 10,789,079,157	P186,378,835 10,147,651,063
Return on average equity	0.1%	1.8%
Net income Average total assets <sup>2</sup>	P11,458,814 52,179,344,940	P186,378,835 53,559,217,955
Return on average assets	0.0%	0.3%
Net interest income Average interest earning assets <sup>2</sup>	P 2,389,095,722 46,598,264,039	2,520,481,927 47,998,136,064
Net interest margin on average earning assets	5.1%	5.3%

<sup>&</sup>lt;sup>1/</sup> Net liquid assets consist of cash, due from BSP, due from other banks, interbank loans, securities held for trade and available for sale less derivatives liabilities and interbank borrowings.

<sup>2/</sup> Average balances were determined as the average of the current and previous calendar balances of the respective statements of financial position accounts.

## Additional Management Discussion and Analysis (for those with variances of more than 5% December 31, 2021 vs. December 31, 2020) Balance Sheet –

Other resources of the Bank grew by Php56.3 million or 13.9% year on year, mainly attributable to the payment for the new core banking system of the bank, booked temporarily at Miscellaneous Assets awaiting to go live. Meanwhile, Deferred Income Tax moved from Php596.7 million to Php524.4 million, 12.1% or Php72.3 million decrease year on year as a result of CREATE law. Also, Investment Properties dropped by Php19.2 million compared with last year due to various sale of ROPA.

Accrued Interest, Accrued Taxes and Retirement Liability dropped by Php19.6 million, Php40.3 million and Php47.5 million, respectively, year on year. Accrued Interest and Accrued Taxes declined due to lower rates. The decrease in Retirement Liability is associated with the actuarial gain recognized for the year.

### Income Statement (variance analysis for December 31, 2021 vs. December 31, 2020)

The Bank's Net Interest Income is down by 5.2% or Php131.4 million compared with same period last year. The decrease in total Interest Expense by Php265.7 million was not able to offset the total drop in total Interest Income by Php397.1 million. On the contrary, Interest Expense on Lease Liabilities increased by Php9.4 million mainly due to the escalation of rent in Head Office.

Service fees and commission income jumped to Php218.6 million from Php184.9 million, a Php33.7 million up year on year as the BSP restriction on collection of various service charges for the greater part of 2020 have been lifted. The Foreign Exchange gain – net improved by Php33.6 million due to income from revaluation, which increased by Php75.9 million this year. But this was partly offset by the loss in derivatives, which recognized Php14.8 loss this year compared to Php26.6 gain last year. Miscellaneous Income increased by Php21.2 million mainly from the recovery from written-off accounts.

Better asset quality was noticed with the drop in Provision for impairment and credit losses, from Php828.8 million to Php528.2 million recognized this year. Occupancy and other equipment-related costs also declined by Php15.9 million year on year mostly from Rent and Repairs and Maintenance accounts. Moreover, Taxes and Licenses dropped from Php274.3 million to Php245.6 million owing to lower Gross Receipts Tax. Similarly, Miscellaneous expenses declined by Php39.0 million primarily from lower Cash Card expenses, Management and Other Professional fees and Promotional and Advertising expenses, which were lower by Php13.6 million, P13.1 million and Php8.1 million, respectively. Conversely, Amortization of software licenses were up by Php6.1 million, while Depreciation and amortization increased by Php13.7 million due to higher Depreciation of Right-of-Use (ROU) Asset.

## Additional Management Discussion and Analysis (for those with variances of more than 5% December 31, 2020 vs. December 31, 2019) Balance Sheet –

Cash and other cash items declined by 19%, from Php725.1 million to Php589.3 million, mainly due to lower foreign currency notes and coins. Due from BSP and Due from Other Banks dropped by Php496.3 million and Php632.3 million, respectively. Similarly, Interbank Loans Receivable decreasedby 21% or Php320.3 million, from Php1.5 billion

to Php1.2 billion, the decrease is attributable to foreign interbank loans. Other resources also lowered by 6% or Php27.5 million. On the other hand, Deferred Income Tax increased by 60% or Php222.8 million due to higher allowance for losses which contributed Php155 million to the said increase.

Other Liabilities decreased by Php934.9 million, from Php3.0 billion to Php2.1 billion at year end. The drop is due to the capitalization of the Deposit for Stock Subscription last March 2020 amounting to Php1.4 billion, partially offset by the increase in Lease Liabilities amounting to Php563.7 million from renewed contracts of various branches and Head Office. Financial Liabilities at Fair Value through Profit or Loss (FVTPL) shoot up by 134%, from Php99.2 million to Php231.8 million. Likewise, Outstanding Acceptances, Manager's Checks and Accrued Interest, Taxes and Other Expenses increased by Php127.0 million, Php49.4 million and Php182.8 million, respectively. No outstanding Income Tax Payable as of December 31, 2020.

The increase in Capital Stock and Additional Paid-In Capital amounting to Php483.1 million and Php949.5 million, respectively, is from the Deposit for Stock Subscription account lodged to Other Liabilities last 2019, which is part of the capital injection made by the Parent Bank. This move completed the required capital level based under BSP Circular No. 854. Similarly, Cumulative Translation Adjustment is up by Php7.3 million, from negative Php8.2 million to negative Php0.9 million. Net Unrealized Loss on Retirement Obligation recorded additional loss of Php53.5 million, from negative Php66.4 million to Php119.9 million based on the latest actuarial report. Moreover, Net Unrealized Gain on Financial Asset at FVOCI decreased by Php42.3 million, from Php108.2 million to Php65.9 million.

## Income Statement (variance analysis for December 31, 2020 vs. December 31, 2019)

The Bank's total Interest Income contracted to Php3.0 billion from last year's Php3.2 billion. This is associated with the Bank's lower average loan volume which resulted to reduced Interest Income from Loans and Receivables by Php150.2 million. Interest Income from Interbank Loans Receivable, Deposit with BSP and other Banks, and Financial Assets at FVTPL also decreased by Php70.4 million, Php7.9 million and Php24.0 million, respectively. On the other hand, Interest Income from Investment Securities increased by Php31.5 million, from Php236.5 million to Php267.9 million. Interest Expense on Lease Liabilities also increased by Php10.9 million owing to various renewal of lease contracts this year.

Due to Covid-19 pandemic, various memoranda have been issued by the BSP to defer loan payments and restrict collection of various service charges for 2020. This was reflected in the Bank's financial performance as it recorded lower Service Fees and Commission at Php184.9 million, compared with last year's Php228.3 million. Lower recovery from written off accounts had been noted also due to pandemic, despite collection efforts, from Php52.1 million to Php32.9 million this year. This contributed to the total decrease in the Bank's Miscellaneous Income by Php32.9 million, from Php122.6 million to Php89.7 million. Furthermore, Foreign Exchange Gain decreased by 73.3% or Php91.7 million year on year.

No significant increase noted in the operating expenses as the Bank continues to tighten its control on expenses. Compensation and fringe benefits, Taxes and Licenses, Occupancy and other equipment-related costs, and Depreciation increased by Php47.0 million, Php19.7 million, Php19.5 million and Php13.1 million, respectively. Amortization of software license also increased from Php41.9 million to Php54.4 million, or Php12.5

million increase, due to various systems acquired and enhanced for 2020. On the other hand, Security, Messengerial and Janitorial expenses decreased by Php26.7 million, from Php165.9 million to Php139.1 million.

Corporate income tax increased by 28.5% or Php37.1 million due to decrease in deductible expenses, while Provision for Deferred Income Tax decreased by Php49.2 million due to the increase in recognition of Deferred Tax Asset from expense accruals. This resulted to the decrease in total Provision for Income Taxes by Php9.6 million, from Php29.5 million to Php19.9 million.

## Additional Management Discussion and Analysis (for those with variances of more than 5% December 31, 2019 vs. December 31, 2018) Balance Sheet –

Cash and other cash items increased by 44% from Php505M to Php725M this year due to higher foreign currency notes and coins. Due from BSP went down by 14% from Php5.0 billion to P4.3 billion. Likewise, Interbank Loans Receivable dropped by 75% from Php6.1 billion to Php1.5 billion, the decrease is attributable to local interbank loans. Also, Financial Assets at Fair Value through Profit or Loss (FVTPL) decreased from Php127 million to Php81 million in December 2019 as compared last year.

Due from other banks increased to Php1.6 billion from Php1.3 billion. Financial Assets at Fair Value through Other comprehensive Income (FVOCI) rose to Php6.4 billion from Php2.4 billion and Loans and Receivables-net also increased to Php37.0 billion from Php35.2 billion. Moreover, Property and equipment-net is up by 89% or Php101 million due to capitalization of leases starting January 1, 2019 under PFRS 16. Deferred income tax also increased by Php173 million to Php374 million at year end.

Financial Liabilities at Fair Value through Profit or Loss (FVTPL) increased by 290% from Php25.5 million to Php99.2 million. Accrued Interest, Taxes and Other Expenses also increased by Php94.4 million, mainly coming from Retirement Liability amounting to Php59.3 million this year. Other liabilities grew by Php1.09 billion from the Deposit for Stock subscription.

Bills Payable dropped to Php4.8 billion from Php7.9 billion due to partial settlement of the peso long term borrowing. Outstanding acceptances went down by Php139.8 million from Php194.5 million. Moreover, Manager's checks and Income Tax payable also decreased by Php6.3 million and Php5.2 million, respectively.

Common Stock and Additional Paid-In Capital ended at Php3.0 billion and Php1.1 billion, respectively as at December 31, 2019. Additional capital was injected by CTBC Ltd. to meet the required capital level based under BSP Circular No. 854. Total Treasury Stocks amounting to P16.0 million were re-issued as of year-end. Cumulative Translation Adjustment is now at negative Php8.2 million from positive P8.8 million last year-end. Moreover, Net Unrealized Loss on Retirement Obligation increased by Php52.1 million, from Php14.4 million loss to Php66.4 million loss. On the other hand, Net Unrealized Gain on Available-for-Sale Investments improved by Php202.3 million, from Php94 million loss to Php108.2 million gain as at December 2019.

### Income Statement (variance analysis for December 31, 2019 vs. December 31, 2018)

Interest income on loans and receivables went up by 23% from Php2.29 billion to Php2.83 billion this year attributable to loan average volume increase of Php3.72 billion. Also, Interest income on trading and investment securities increased by Php125.6 million to Php286.3 million this period. Moreover, interest income from deposits with other banks increased by 19% this year or Php6.4 million.

Interest expenses on deposit liabilities rose by 35% or Php183.8 million owing to the higher average volume of peso deposits. Similarly, interest expense on bills payable went up by Php157.8 million from P97.2 million due to higher average volume of borrowings during the period. Interest expense relating to lease liabilities amounted to Php8.6 million were recorded this year due to the implementation of PFRS 16.

Service charges, handling fees and commission income decreased by 12% mainly due to lower bank commissions this year. Trading gains recorded a substantial increase of 1176%, from Php14.1 million to Php179.4 million. Also, Foreign exchange gain - net increased by Php38.2 million to Php125.1 million this year.

Provision for impairment and credit losses totaled to Php508.9 million as of December 31, 2019, or a 137% increase from the Php214.4 million provision last year.

Various operating expense lines registered relative increases as compared to the same period last year. Taxes and licenses rose by Php51.2 million to Php254.7 million this year. Similarly, Miscellaneous Expenses increased by 28% to Php316.1 million mainly due to higher Stationery and Supplies-Cash Card and Management and other Professional Fees. Compensation and fringe benefits jumped up to Php993.9 million from Php901.3 million last year. Security, messengerial and janitorial expenses also increased by 10% or Php14.6 million this year. Moreover, Amortization of software license went up by Php8.5 million to Php41.9 million from Php33.4 million last year. Depreciation and amortization expenses increased by Php79.2 million mainly from depreciation charges on the capitalized leases. On the other hand, occupancy and other equipment-related costs dropped by Php69.4 million due to the rental expenses now being depreciated.

Provision for income taxes went down by Php150.6 million from Php180.2 million to Php29.5 million due to the recognition of deferred tax asset on expense accrual.

#### 3. Plan of Operations

The Bank continuous to actively look for opportunities to grow its business while maintaining its prudence and vigilance in the midst of the pandemic. The Bank has also expanded its digital footprints across various products and different areas of operations. The Bank has further strengthened its risk management in order to maintain the Bank's asset quality and capital strength. With the strong support from its Parent Bank, the Bank aims to keep its overall strategy to become a Bank for Mid-and-small cap businesses and middle class customers and to be in the league of top tier foreign banks with localized approach in the Philippines. The Bank intends to improve market position and profitability by continuous expansion of its retail and corporate loan portfolio. Institutional Banking Group (IBG) aims to grow middle market business while Treasury continues to focus on the expansion of client base revenues both for corporate and retail market. In addition, Retail Banking Group will continue to expand SME market while its Mortgage loan business aims to penetrate the primary mortgage market.

#### Item 7. Financial Statements

The consolidated financial statements and schedules are filed as part of the Form 17-A.

## INFORMATION ON INDEPENDENT ACCOUNTANT (EXTERNAL AUDIT FEES (MC No. 14, Series of 2004)

Fiscal Year	Amount
RGM	
For 2019 paid in 2019	Php446,136.00
For 2019 paid in 2020	Php2,026,209.06
For 2020 paid in 2020	Php837,200.00
For 2020 paid in 2021	Php1,572,405.00
For 2021 paid in 2021	Php1,288,000.00
For 2021 paid in 2022	Php1,551,200.00

For the calendar years 2021, 2020, and 2019 RGM, the local firm of KPMG International has been appointed as the Bank's external auditor. Vanessa P. Macamos has been the certifying partner from RGM since 2017, in compliance with the 7-year rotation requirement.

To date, RGM has no remaining unbilled charges for 2021 audit.

There are no other assurance and related services by the external auditor that are reasonably related to the performance of the audit or review of the Bank's financial statements other than those described above.

#### (b) Tax & All Other Fees

There are no fees paid to tax and other related services.

#### (c) Audit Committee's Approval Policies and Procedures for the above services

The engagement of the services of the Bank's external auditor is evaluated by the Audit Committee. Consistent with the provisions of the Code of Corporate Governance and the Bank's Audit Committee Charter, the appointment of the external auditor is nominated by the Audit Committee for Board approval and subsequently for the ratification/approval by the shareholders.

The Audit Committee also evaluates and determines any non-audit service provided to the Bank by the external auditor who is handling the financial audit of the Bank and keeps under review the non-audit fees paid to the external auditor both in relation to their significance to the auditor and in relation to the Bank's total expenditure on consultancy.

The Audit Committee also reviews and recommends to the Bank's Board of Directors any appropriate action to ensure the external auditor's independence.

He started his banking career at Union Bank of the Philippines in 1999, initially as Customer Service Officer and later on as Cash Solutions Manager. In 2003, he joined Philippine National Bank (PNB) as Assistant Vice President and Head of its e-Business Solutions Division. After his three-year stint with PNB, he moved to East West Banking Corporation in 2006 where he was Head of the Product Development and Marketing Support Division. In 2007, he joined Rizal Commercial Banking Corporation (RCBC) as Assistant Vice President of Channel Management and Product Development. He left RCBC as Senior Vice President and Head of Global Transactions Services. Mr. Garrovillo is 43 years old.

**RAFAEL V. RUFINO III**, Filipino, holds a degree in Commerce from De La Salle University. Mr. Rufino was first introduced to the banking profession in 1991 when he joined the Private Development Corporation of the Philippines (PDCP) initially as an Account Analyst and later on as an e-Business Banking Unit Head. He spent the next 11 years with the institution, which was later renamed PDCP Bank, then 1st E-Bank, before joining CTBC Bank in 2003. At CTBC, Mr. Rufino further expanded and solidified his knowledge of the credit process as a result of his being assigned in various roles of increasing responsibility from Account Officer to Credit Officer to Credit Control Department Head and eventually Group Head. He is currently Senior Vice President and the Chief Risk Officer of the Bank. He is 53 years old.

**JIMMY ARSENIO Y. SAMONTE,** Filipino, obtained his Bachelor's degree in Commerce, Major in Accountancy (*cum laude*) from the University of Santo Tomas and is a Certified Public Accountant. Jimmy also attended the Banking Intermediate Industry Training School at the Center for Professional Education of Arthur Andersen and Co. in Illinois, USA. He is Senior Vice President and Head of Internal Audit. He also served as the Bank's Compliance Officer from 2000 to 2001. Prior to joining the Bank, he was Audit Manager of the Financial Services Group of Sycip, Gorres, Velayo & Co. (SGV & Co.), a member firm of Ernst & Young Global Limited. He has been with the Bank since October 1998. Jimmy is 52 years old.

MARY ANNE G. BERNAL, Filipino, obtained her Bachelor's Degree in Economics from University of Sto. Tomas. She was first exposed to the banking industry when she joined China Banking Corporation as Account Analyst in 1993 and later on in her career assumed a supervisory role. After her 9-year stint with China Banking Corporation, she moved to CTBC Bank in 2002. In her more than 18 years with CTBC Bank, she has consistently moved up the corporate ladder and assumed positions of higher responsibility. From being a Credit Officer to Liquidity Officer in 2009, she currently holds the position of Senior Vice President and Head of Liquidity and Balance Sheet Department under Treasury Group. Ms. Bernal is 48 years old.

MARIA ALICIA C. MARASIGAN, Filipino, earned her Bachelor's Degree in Commerce from St. Scholastica's College Manila and her Master's Degree in Business Administration from the Ateneo De Manila University. She joined CTBC Bank in 2021 as Senior Vice President and Head of the Banking Operations Group. Her banking career started when she joined Philippine Savings Bank as Credit Analyst. After her 10-year career with Philippine Savings Bank, she moved to Planters Development Bank in 2003 where her last role was Corporate Salary Loan Unit Head. From 2007 to 2012, she was with Premiere Bank (acquired as Security Bank) as Corporate Salary Loan Department Head and later on as Senior Assistant Vice President and Seafarers

Loan Team Head. In 2014, she served as Transformation and Strategy Head of Maybank Philippines, Inc. and later on assumed the Central Operations Group Head position before joining CTBC Bank. Ms. Marasigan is 48 years old.

MICHAEL C. ALBOTRA, Filipino, holds a degree in Bachelor of Arts Major in Economics from University of Asia and the Pacific. He is Senior Vice President and Head of Top Tier Department under Institutional Banking Group. Prior to joining the CTBC Bank in 2021, he was Senior Vice President and Co-Head of Corporate Banking Department of Mizuho Bank, LTD. He also had stints with HSBC Philippines and HSBC Savings Bank (Phil) Inc. as Vice President and Corporate and Commercial Banking Head. In 2008, he joined United Coconut Planters Bank as Assistant Vice President and Senior Relationship Manager under Corporate Wholesale Banking Group. Previous to this position in United Coconut Planters Bank, he served Bank of Commerce from 2000 to 2008 as Unit Head and later on appointed as Assistant Vice of Private Banking Group. He also worked for almost 2 years at Urban Bank as Marketing Associate which started his banking profession and soon after promoted to Marketing Officer. Mr. Albotra is 44 years old.

### 3. Legal Proceedings

None of the directors and executive officers is personally involved in any material pending legal proceedings in any court or administrative agency of the government.

### 4. Significant Employee

There is no significant employee who is not an Executive Officer and who is expected to make significant contribution to the business.

### 5. Family Relationship

No family relationship exists among the Bank's directors and executive officers.

### Item 10. Executive Compensation

### 1. Summary Compensation Table of Executive Officers

	IN M	ILLION	PESO	S
<u>Name</u>	Annual Salary	<u>Bonus</u>	<u>Others</u>	<u>Total</u>
2020				
Executives (5)	39.33	3.69	18.33	61.35
2021				
Executives (5)	42.41	30.97	1.93	75.31
2022				
Executives (5)	45.30	30.44	2.02	77.76
(Estimate)				
Officers Unnamed	40.60	19.47		60.07

In 2021, the Bank paid approximately P75.31 million as a total compensation to the following executive officers:

Oliver D. Jimeno President and CEO
Nengshih (Arthur) Wang Executive Vice President
Eriberto Luis S. Elizaga Executive Vice President

Oliver D. Jimeno Nengshih (Arthur) Wang Eriberto Luis S. Elizaga Justine Benedict G. Dela Rosa Jereven B. Adriano President and CEO
Executive Vice President
Executive Vice President
Senior Vice President
Senior Vice President

### 2. Compensation of Directors

Each director receives a monthly professional fee for attending Board and committee meetings. This is also in consideration of their valuable contributions in the formulation of the Bank's overall strategy. The total per diem and attending fee paid to the directors for their attendance in Board meetings amounted to P10.94 million, P11.17 million and P11.97 million in 2021, 2020 and 2019 respectively. This translates to an average of P182,314; P186,211; and P199,547 per month for each director in 2021, 2020 and 2019, respectively. Further, for 2021, average director's fee is P69,094.20 and per diem of 71,552.92 per director per month. For 2022, approximately P10.7 million will be paid to the directors, at an average of P222,987 per director per month. Average director's fee is at P80,318 and per diem is P90,586 per director per month. Aside from said amounts, they have no other compensation plan or arrangement with the Bank.

The named Executive Officers receive salaries, bonuses and other usual bank benefits that are also included in the amounts stated above. Aside from these, they have no other compensation plan or arrangement with the Bank.

### Warrants and Options

There are no warrants or options held by Bank's officers and directors.

### Standard Agreements

Except for the per diem for attendance in the Board and Committee meetings and the Director's Fee under Sections 9 and 10, Article III of the Bank's By-Laws, as amended, there is no other standard arrangement by which the directors are compensated, or are to be compensated, directly or indirectly, for any services provided as a director for the last completed fiscal year and the ensuing year.

### Other Arrangements

There are no other arrangement, including consultancy contracts pursuant to which any director of the registrant was compensated, or is to be compensated, directly or

indirectly, during the registrant's last completed fiscal year, and the ensuing year, for any service provided as a director.

### Item 11. Security Ownership of Certain Beneficial Owners and Management

The following is the person or entity known to the Bank as owning more than 5% of the Bank's shares:

Title of Class	Name and address of Record Owner and relationship with issuer	Name of Beneficial Owner and Relationship with Record Owner	Citizenship	No. of Shares Held	Percentage Held
Common	CTBC Bank Co., Ltd. No. 168 Jingmao 2nd Road, Taipei, Taiwan, R.O.C.	CTBC Bank Co., Ltd.	Taiwanese	347,319,203	99.72%

CTBC Bank Co., Ltd. (CTBC Ltd.) is wholly-owned by CTBC Financial Holding Co., Ltd. (CTBC Holding).

CTBC Ltd. through a resolution of its Board of Directors may authorize the Bank's Chairman, Mr. Cheng-Hsin Wang, and/or such other persons as it may deem fit to exercise the voting power over its shareholdings for and on its behalf.

### 1. Group Owning More Than 5% of Registrant's Voting Securities

Except for CTBC Ltd., there is no other person or group known to the Bank to be directly or indirectly the record or beneficial owner of more than 5% of any class of registrant's voting securities.

#### 2. Security Ownership of Management as of December 31, 2021

### a. Directors

Title of Class	Name of Beneficial Owner and Relationship with Record Owner	Citizenship	No. of Shares Held	Percent
Common	Cheng-Hsin Wang	Taiwanese	1	0.00
Common	William B. Go	Filipino	53	0.00

			60	

### b. Executive Officers as of December 31, 2021

Title of Class	Name of Beneficial Owner and Relationship with Record Owner	Citizenship	No. of Shares Held	Percent
Common	Oliver D. Jimeno	Filipino	1	0.00

#### c. Directors and Officers

The aggregate shareholding of the directors and executive officers amounted to 60 shares of the Bank's total outstanding shares.

### d. Change in Control

There is no change in control of registrant and no change in control has occurred since the beginning of the last fiscal year.

There are also no arrangements known to the Bank, which may result in a change of control of registrant.

### Item 12. Certain Relationships and Related Transactions

The Bank, in its regular course of trade and business, enters into transactions with its Directors, Officers, Stockholders, and Related Interests (DOSRI) involving mainly loans and these are disclosed to the *Bangko Sentral ng Pilipinas* (BSP) in accordance with the Manual of Regulations for Banks.

All transactions of the Bank, whether with DOSRI, related parties or non-related parties, are conducted and entered in the Bank's best interest and on "arm's length basis".

There are no parties that fall outside the definition of "Related Parties" under PAS 24 with whom the Bank or its related parties have a relationship that enables such parties to negotiate terms and material transactions that may not be available from other more clearly independent parties on an "arm's length basis".

Note 25 page 106 of the Bank's Audited Financial Statements for the fiscal year ended as of December 31, 2021, attached as Exhibit 2 of this Report, discusses the nature of such Related Party Transactions, which discussion is incorporated hereto by reference.

Disclosures required by Annex 68-J of the amended Securities Regulation Code Rule 68 and 68.1 are in Part II, Schedules A to G of said Audited Financial Statements.

#### PART IV - CORPORATE GOVERNANCE

### Item 13. Corporate Governance

The Bank has a Manual of Corporate Governance which is regularly updated to align with the industry's best and leading practices on corporate governance and comply with latest relevant regulatory issuances.

Conformably with existing rules and regulations, its Articles of Incorporation and By-Laws, the Bank's Manual on Corporate Governance has Board level committees organized to assist it in governance matters. These are the following: (1) Executive Committee; (2) Nomination, Remuneration and Governance Committee; (3) Audit Committee; (4) Risk Management Committee; and (5) Trust Committee.

- The Executive Committee is headed by Cheng-Hsin-Wang as Chairman, with William B. Go, Oliver D. Jimeno and Jui-Cheng Huang as Members. It is authorized to act on behalf of the full Board as to urgent matters that arise between its regular meetings. The committee shall have the power to direct and transact all business and affairs of the Bank which otherwise may come to the Board except as limited by the Bank's Articles of Incorporation or By-Laws or by applicable law or regulation on decisions on any matter related to mergers and acquisitions of the Bank, to issuance of debts instruments and of share capital of the Bank. It is also authorized to act immediately in order to protect the Bank or its important interests from loss or damage and these acts and decisions shall be reported and ratified at the next board meeting.
- The Nomination, Remuneration and Governance Committee is headed by Independent Director Stephen D. Sy as Chairman, with Cheng-Hsin Wang, William B. Go, Alexander Patricio, and Li-Hsuan Juan as Members. The NRGC which also functions as the Bank's "Committee on Corporate Governance" and "Compensation and Remuneration Committee". Oversee the nomination process for members of the board of directors and or positions appointed by the Board of Directors, continuing education program for the board of directors, performance evaluation process and the design and operation of the remuneration and other incentives policy.
- The Audit Committee is headed by Independent Director Luis Y. Benitez, Jr. as Chairman, with Alexander A. Patricio and, Li-Hsuan Juan as Members. The members of the Audit Committee shall have adequate understanding or competence at most of the Bank's operations, financial management systems and environment and preferably with accounting, auditing or related financial management expertise and experience. The Audit Committee shall be responsible for overseeing senior management in establishing and maintaining an adequate, effective and efficient internal control framework. It shall ensure that systems and processes are designed to provide assurance in areas including reporting, monitoring compliance with laws, regulations and internal policies, efficiencies and effectiveness of operations and safeguarding of assets. Duties and Responsibilities of the committee are as follows: (a) Oversee the financial reporting framework; (b) Monitor and evaluate the adequacy and effectiveness of the internal control system; (c) Oversee the internal and external audit function; (d) Oversee the Implementation of Corrective Actions; (e) Investigate Significant Issues/Concerns Raised and (f) Establish Whistleblowing Mechanism.

- The Risk Management Committee is headed by Alexander Patricio as Chairman, with Directors Jui-Cheng Huang, Li-Hsuan Juan, and Independent Directors Luis Benitez Jr. and Stephen Sy, as Members. Responsible for the development and oversight of the Bank's Risk Management Program, the Risk Management Committee oversees the system of limits to discretionary authority that the Board delegates to management. It is tasked to ensure that the system remains effective, that the limits are observed, and that immediate corrective actions are taken whenever limits are breached. To achieve this, the Committee takes on the critical role of identifying and evaluating the Bank's risk exposures, ensuring that the appropriate risk management strategies and plans are in place and ready to be executed as necessary, and evaluating the risk management plan to ensure its continued relevance, comprehensiveness, and effectiveness. Hand in hand with the Chief Risk Officer which functions under the auspices of the Committee, it performs oversight functions in managing credit, market, liquidity, operational risks, IT Steering Committee, and Information Security Office.
- The Trust Committee is headed by Cheng-Hsin Wang as Chairman, with William B. Go, Oliver D. Jimeno, Jui-Cheng Huang and the Trust Officer as Members. It is a special committee who reports directly to the Board of Directors and is primarily responsible for overseeing the fiduciary activities of the Bank in discharging its function, the committee ensures (1) that fiduciary activities are conducted in accordance with applicable laws, rules and regulations and prudent practices; (2) that policies and procedures that translate the Board's objectives and risk tolerance into prudent operating standards are in place and continue to be relevant, comprehensive and effective; (3) oversee the implementation of the risk management framework and ensure that internal controls are in place relative to fiduciary activities; (4) adopt an appropriate organizational structure/staffing pattern and operating budgets that shall enable the Trust Department to effectively carry out its functions; (5) oversee and evaluate the performance of the Trust Officer; (6) Conduct regular meetings at least once every quarter or more frequently as necessary, depending on the size and complexity of the fiduciary business and (7) report regularly to the Board of Directors on matters arising from fiduciary activities.

The Bank is generally in compliance with leading practices on good corporate governance. Taking into account global best practices, the Bank constantly updates its tools for monitoring the performance of the Board and individual Board members, and the process by which it determines whether a director conducts fair business transactions, devotes necessary time and attention to discharge his duties, acts judiciously, exercises independent judgment, has working legal knowledge affecting the Bank, observes confidentiality and ensures soundness, effectiveness and adequacy of the Bank's risk management system and control environment.

The Bank has no knowledge of any instance of non-compliance with its Manual of Corporate Governance by the Board of Directors or its members, nor by the Bank's officers or employees.

The Bank is committed to ensuring that the corporate governance framework supports the equitable treatment of all shareholders, including minority shareholders. All shareholders are entitled to have the opportunity to obtain effective redress for any violation of their rights.

## STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of CTBC BANK (PHILIPPINES) CORP. (the Bank) is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, for the years ended December 31, 2021, 2020 and 2019, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders.

R.G. Manabat & Co., the independent auditor, appointed by the stockholders, has audited the financial statements of the Bank in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

### REPORT OF INDEPENDENT AUDITORS

The Board of Directors and the Stockholders CTBC Bank (Philippines) Corporation Fort Legend Towers, Third Avenue corner 31st Street Bonifacio Global City, Taguig

### Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of CTBC Bank (Philippines) Corporation (the "Bank"), which comprise the statements of financial position as at December 31, 2021 and 2020, and the statements of income, statements of other comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2021, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at December 31, 2021 and 2020, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2021 in accordance with Philippine Financial Reporting Standards.

### Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Firm Regulatory Registration & Accreditation: PRC-BOA Registration No. 0003, valid until November 21, 2023
SEC Accreditation No. 0003-SEC, Group A, valid for five (5) years covering the audit of 2020 to 2024 financial statements (2019 financial statements are covered by SEC Accreditation No. 0004-FR-5) IC Accreditation No. 0003-IC, Group A, valid for five (5) years covering the audit of 2020 to 2024 financial statements (2019 financial statements are covered by IC Circular Letter (CL) No. 2019-39, Transition clause) BSP Accreditation No. 0003-BSP, Group A, valid for five (5) years covering the audit of 2020 to 2024 financial statements (2019 financial statements are covered by BSP Monetary Board Resolution No. 2161, Transition clause)

### KPMG

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Philippine Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Philippine Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

### KPMG

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Report on the Supplementary Information Required under Bangko Sentral ng Pilipinas (BSP) Circular No. 1074 and Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under BSP Circular No. 1074 in Note 29 and Revenue Regulations 15-2010 in Note 30 to the financial statements is presented for purposes of filing with the BSP and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of the Bank. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

## REPORT OF INDEPENDENT AUDITORS ON SUPPLEMENTARY INFORMATION

The Board of Directors and the Stockholders CTBC Bank (Philippines) Corporation Fort Legend Towers, Third Avenue corner 31st Street Bonifacio Global City, Taguig

We have audited, in accordance with Philippine Standards on Auditing, the accompanying financial statements of CTBC Bank (Philippines) Corporation (the "Bank") as at and for the year ended December 31, 2021, on which we have rendered our report dated April 5, 2022.

Our audit was made for the purpose of forming an opinion on the basic financial statements of the Bank taken as a whole. The following supplementary information in the Index to the Financial Statements and Supplementary Schedules is the responsibility of the Bank's management:

- Reconciliation of Retained Earnings Available for Dividend Declaration (Part I);
   and
- Schedules Required by Annex 68-J of the Revised Securities Regulation Code Rule 68 (Part II).

Firm Regulatory Registration & Accreditation:
PRC-BOA Registration No. 0003, valid until November 21, 2023
SEC Accreditation No. 0003-SEC, Group A, valid for five (5) years covering the audit of 2020 to 2024
financial statements (2019 financial statements are covered by SEC Accreditation No. 0004-FR-5)
IC Accreditation No. 0003-IC, Group A, valid for five (5) years covering the audit of 2020 to 2024
financial statements (2019 financial statements are covered by IC Circular Letter (CL) No. 2019-39, Transition clause)
BSP Accreditation No. 0003-BSP, Group A, valid for five (5) years covering the audit of 2020 to 2024
financial statements (2019 financial statements are covered by BSP Monetary Board Resolution No. 2161, Transition clause)

This supplementary information is presented for purposes of complying with the Revised SRC Rule 68 and is not a required part of the basic financial statements. Such supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

# CTBC BANK (PHILIPPINES) CORPORATION NOTES TO THE FINANCIAL STATEMENTS

## 1. Organization

CTBC Bank (Philippines) Corporation (the "Bank") is a 99.72%-owned entity of CTBC Bank Co. Ltd., formerly Chinatrust Commercial Bank Ltd. ("Parent Bank"), a Taiwan-based commercial bank. The ultimate parent of the Bank is CTBC Financial Holding Co., Limited (formerly Chinatrust Financial Holding Co., Ltd.) which was incorporated in Taiwan. The Bank was incorporated as a domestic commercial bank on September 7, 1995 under the name of Access Banking Corporation and started business operations on September 26, 1995. The term of existence of the Bank is fifty (50) years from the date of incorporation.

It was renamed as Chinatrust (Philippines) Commercial Bank Corporation in January 1996. On October 30, 2013, the Bank changed its corporate name to CTBC Bank (Philippines) Corporation.

The Bank was organized to provide commercial banking services such as deposit products, loans and trade finance, domestic and foreign fund transfers, treasury, foreign exchange, and trust services. In addition, the Bank is licensed to engage in regular financial derivatives as a means of reducing and managing the Bank's and its customers' foreign exchange exposure.

The Bank's principal place of business is located at Fort Legend Towers, Third Avenue corner 31st Street, Bonifacio Global City, Taguig City.

The Bank's common shares were listed in the Philippines Stock Exchange (PSE) in June 1999. On October 7, 2011, the Board of Directors (BOD) authorized the Bank to file a petition for voluntary delisting with the PSE and to purchase the outstanding shares through a tender offer in accordance with the rules of the PSE and Philippine Securities and Exchange Commission (SEC). On December 15, 2011, the Bank obtained approval for the delisting and share buyback through a special stockholders' meeting as required by the Bank's By-Laws. On December 19, 2011, the Bank received the approval of the Monetary Board for the delisting and share buyback. As of January 27, 2012, common shares held by minority stockholders amounting to P12.7 million were tendered to and reacquired by the Bank. On February 8, 2012, the PSE approved the Bank's petition for voluntary delisting. Official delisting of the Bank's shares from the Trading Board became effective on February 24, 2012. As at December 31, 2021 and 2020, the Bank remains as a SEC-registered issuer of securities to the public.

The Bank received its Foreign Currency Deposit Unit (FCDU) license and launched its FCDU operations on December 28, 1995. The Bank received its Expanded FCDU license on November 22, 1995. The Bank has authority to engage in trust operations as approved by Monetary Board in its Resolution No. 765 dated July 31, 1996.

# 2. Basis of Preparation and Statement of Compliance

## Statement of Compliance

The financial statements of the Bank have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Philippine Financial Reporting Standards Council (FRSC) consist of PFRSs, Philippine Accounting Standards (PAS) and Philippine Interpretations.

# **Basis of Measurement**

These financial statements have been prepared on a historical cost basis except for the following items:

Items	Measurement Bases
Financial assets and liabilities at fair value through profit or loss (FVTPL)	Fair value
Financial assets at fair value through other comprehensive income (FVOCI)	Fair value
Net retirement liability	Present value of the defined benefit obligation less fair value of plan assets
Lease liability	Present value of the lease payments not yet paid discounted using the Bank's incremental borrowing rate

The financial statements of the Bank include the accounts maintained in the Regular Banking Unit (RBU) and the FCDU. These financial statements are the combined financial information of these units after eliminating inter-unit accounts.

#### Functional and Presentation Currency

The functional currency of RBU and FCDU is the Philippine Peso (PHP) and United States Dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated into their equivalents in PHP (see Note 3 on foreign currency translation).

The financial statements of the Bank are presented in PHP. All financial information presented in PHP has been rounded off to the nearest peso, except as otherwise indicated.

## Presentation of Financial Statements

The Bank presents its statements of financial position in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 17.

## Approval of Issuance of Financial Statements

Under Section 17.2 (a) of the Securities Regulation Code (SRC), issuers of securities that have sold a class of their securities pursuant to a registration under Section 12 of the SRC are required to comply with the reportorial requirements under SRC Rule 20; provided, however, that the obligation of such issuers to file reports shall be suspended for any fiscal year after the year such registration became effective if such issuer, as of the first day of any such fiscal year, has less than one hundred (100) holders of such class of securities and it notifies the Commission of such. As of December 31, 2021 and 2020, the Bank has retained one hundred eleven (111) shareholders, which requires it to comply with the reportorial requirements under SRC Rule 20.

These financial statements have been reviewed, approved and authorized for issue by the Board of Directors (BOD) on March 3, 2022.

# 3. Summary of Significant Accounting Policies

Except for the changes explained in the foregoing, the accounting policies set out below have been applied consistently to all years presented in these financial statements.

## Adoption of Amendments to Standards and Framework

The Bank has adopted the following amendments to standards and framework starting January 1, 2021 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption did not have any significant impact on the Bank's financial statements.

Amendments to PFRS 16, COVID-19-related Rent Concessions. The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The resulting accounting will depend on the details of the rent concession.

The practical expedient will only apply if:

- the revised consideration is substantially the same or less than the original consideration;
- the reduction in lease payments relates to payments due on or before June 30, 2021; and
- no other substantive changes have been made to the terms of the lease.

These amendments are effective for periods beginning on or after June 1, 2020, with earlier application permitted.

# Foreign Currency Transactions and Translation

Transactions in foreign currencies are initially recorded at the functional rate of exchange at the date of transaction.

Foreign currency-denominated monetary assets and liabilities in the RBU and FCDU are translated into their respective functional currencies based on the Bankers Association of the Philippines (BAP) closing rate prevailing as at the reporting date and foreign currency-denominated income and expenses are translated at the BAP closing rate prevailing as at the date of transaction. Foreign exchange differences arising from foreign currency transactions and translation of foreign currency-denominated assets and liabilities are credited to or charged against the statements of income in the period in which the rates change.

Foreign currency-denominated non-monetary items that are measured at historical cost are translated using the exchange rate at the transaction date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

#### **FCDU**

As at the reporting date, the monetary assets and liabilities of the FCDU of the Bank are translated from its functional currency into its equivalent in PHP, the presentation currency, at the BAP closing rate prevailing at the reporting date. Foreign currency-denominated non-monetary items that are measured at historical cost are translated using the exchange rate at the transaction date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The income and expenses are translated using the BAP weighted average rate for the year. Foreign exchange differences arising from translation of the FCDU balances to the presentation currency are taken directly to "Cumulative translation adjustments" in the statements of other comprehensive income (OCI). Upon disposal of the FCDU or upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in the statements of OCI is recognized in the statements of income.

## Foreign Exchange Gain - net

Foreign exchange gain - net consists of gains and losses due to the differences in exchange rate from translating transaction currency to functional currency in the statements of income.

# Financial Instruments

## Recognition and Initial Measurement

The Bank recognizes a financial asset or a financial liability on the trade date when it becomes a party to the contractual provisions of the financial instrument. Purchases or sales of financial assets that require delivery of asset within the time frame established by regulation or convention in the marketplace are recognized on the trade date. Deposits, amounts due to and from BSP and other banks and loans and receivables are recognized when cash is received by the Bank or advanced to the customers.

A financial asset or financial liability is measured initially at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issuance.

#### Classification and Measurement

# **Financial Assets**

The Bank classifies its financial assets in the following categories: financial assets at amortized cost, financial assets at FVOCI or financial assets at FVTPL.

#### **Debt Instruments**

#### Financial Assets at Amortized Cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest (SPPI).

Debt financial assets meeting these criteria are measured initially at fair value plus transaction costs. These financial assets are subsequently measured at amortized cost using the effective interest method less any loss allowance. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate (EIR). The amortization is recognized under "Interest income calculated using the effective interest method" in the statements of income. The losses arising from impairment of financial assets at amortized cost are recognized in "Impairment losses" in the statements of income.

When such financial assets are sold or disposed of under specific circumstances, the gain or loss is recognized as "Trading and securities gain (loss) - net" in the statements of income.

The Bank's financial assets at amortized cost include cash and other cash items, due from BSP, due from other banks, interbank loans receivable - net, investment securities at amortized cost, loans and receivables, and returned checks and other cash items and rental deposits included under "Other assets" in the statements of financial position.

#### Financial Assets at FVOCI

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are SPPI.

Debt financial assets meeting these criteria are measured initially at fair value plus transaction costs. These instruments are subsequently measured at fair value with gains and losses due to changes in fair value recognized under "Net unrealized gain (loss) on financial assets at FVOCI" in the statements of OCI. Interest earned on these instruments is recognized under "Interest income calculated using the effective interest method" in the statements of income.

# Financial Assets at FVTPL

All other financial assets not measured at amortized cost or at FVOCI are classified as measured at FVTPL.

This category includes held-for-trading (HFT) investments and derivative assets.

#### a. HFT Investments

HFT investments are recorded in the statements of financial position at fair value. Changes in fair value relating to the held-for-trading positions are recognized in "Trading and securities gain (loss) - net" in the statements of income. Interest earned is recorded under "Interest income on financial assets at FVTPL" in the statements of income.

#### b. Derivative Assets

The Bank is counterparty to derivative contracts, such as forwards and cross-currency swaps. These derivatives are entered into as a service to customers, as a means of reducing or managing their respective foreign exchange exposures and for trading purposes. Such derivative financial instruments are initially recorded at fair value on the date at which the derivative contract is entered into and are subsequently remeasured at fair value.

Any gains or losses arising from changes in fair values of derivatives (except those accounted for as accounting cash flow hedges and hedges in net investment in foreign operation) are taken directly to "Foreign exchange gain - net" in the statements of income. Derivatives are carried as assets when the fair value is positive.

The method of recognizing fair value gains and losses depends on whether derivatives are held-for-trading or are designated as hedging instruments, and if the latter, the nature of the risks being hedged. When derivatives are designated as hedges, the Bank classifies them as either: (a) hedges of the change in fair value of recognized assets or liabilities or firm commitments ('fair value hedges'); (b) hedges of the variability in highly probable future cash flows attributable to a recognized asset or liability or a forecast transaction ('cash flow hedges'); or (c) a hedge of a net investment in a foreign operation ('net investment hedges'). Hedge accounting is applied to derivatives designated as hedging instruments in a fair value, cash flow or net investment hedge provided certain criteria are met.

The Bank does not apply hedge accounting treatment for any of its derivative transactions since the derivatives are held-for-trading and not designated as hedging instruments.

The Bank's derivative transactions include cross-currency swap and forward contracts.

The Bank may, at initial recognition, irrevocably designate financial assets that are debt instruments as measured at FVTPL, subject to the following requirements:

- The Bank has in place appropriate risk management systems including related risk management policies, procedures, and controls; and
- The Bank applies the fair value option only to instruments for which fair values can be reliably estimated.

In addition, on initial recognition, the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

## **Equity Instruments**

Financial assets that are equity instruments shall be classified under any of the following categories:

- a. Financial assets measured at FVTPL which shall include financial assets HFT; or
- b. Financial assets at FVOCI which shall consist of:
  - i. Equity instruments that are irrevocably designated at FVOCI at initial recognition that are neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which PFRS 3, *Business Combinations* applies; or
  - ii. Financial assets mandatorily measured at fair value. These include investments in equity instruments which do not have quoted price in an active market for an identical instrument.

In limited circumstances, PFRS 9 permits an entity to use the cost as an appropriate estimate of the fair value of unquoted equity investments on cases such as:

- When insufficient more recent information is available to measure fair value; or
- When there is a wide range of possible fair value measurements and cost represents the best estimate of fair value in the range.

Dividends earned from equity instruments are recognized in "Miscellaneous - net" in the statements of income when the Bank's right to receive payment has been established.

## Business Model in Managing Financial Assets

The Bank makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio operation and the operation of those policies in practice. In particular, whether management's strategy focuses in earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realizing cash flows through the sale of the assets:
- how the performance of the portfolio is evaluated and reported to the Bank's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and its strategy for how those risks are managed;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and

the frequency, volume and timing of sales in prior periods, the reason for such sales and its expectation about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank's stated objective for managing the financial assets is achieved and how cash flows are realized.

Sale of financial assets under the business model of held-to-collect is permitted under these circumstances:

- Sales of assets before maturity date is immaterial or infrequent and is due to reasons such as:
  - · Credit deterioration of obligor/issuer.
  - Change of tax treatment.
  - Switch of eligible assets that better meet the regulatory compliance objective.
  - Excess assets no longer required for meeting regulatory ratio/limit as a result of material balance sheet change.

Each sale must be pre-approved by the Treasury Group Head and the Chief Financial Officer. In consideration of market movements that may affect sales, pre-approvals must be completed within one business day.

Recurring sales under the business model of held-to-collect-and-sell are permitted as long as any of the following conditions are met:

- sale of securities sold have been held for at least 30 days to realize capital gain or loss. There is no limitation on the number or the contract size of sale;
- approval of the Treasury Group Head has been obtained for the sale of securities that have been held for less than 30 days, unless the sale is due to any of the following, in which case, the holding period requirement is not necessary:
  - credit deterioration of the issuer;
  - liquidity stress;
  - undue market risk; or
- excess assets no longer required for regulatory purposes; and
- other reasons for the approval of sale of securities that have been held for less than 30 days such as to adjust or re-balance the Bank's net risk and value realization per security should be approved by the Treasury Group Head and sale of securities do not exceed five times in a calendar year.

Assessment of Whether Contractual Cash Flows are Solely Payments of Principal and Interest

For the purposes of assessment, principal is defined as the fair value of the financial asset on initial recognition. Interest is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

In assessing whether the contractual cash flows are SPPI, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Bank considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Bank's claim to cash flows from specified assets; and
- features that modify consideration of the time value of money.

#### Financial Liabilities

The Bank classifies its financial liabilities, other than financial guarantees and loan commitments, as measured at amortized cost or at FVTPL.

Financial liabilities are classified and subsequently measured at amortized cost using the effective interest method, except for financial liabilities measured at FVTPL. Financial liabilities measured at FVTPL consist of: (a) financial liabilities HFT, including derivative liabilities that are not accounted for as hedging instruments; and (b) financial liabilities designated at fair value through profit or loss.

The Bank may, at initial recognition, irrevocably designate financial liabilities as measured at FVTPL.

The Bank's financial liabilities at amortized cost include deposit liabilities, bills payable, outstanding acceptances, manager's checks, accrued interest and other expenses (except retirement liability, accrued taxes and other non-financial accruals) and other liabilities (except withholding taxes payable, provision for liability and miscellaneous liability).

Financial liabilities at FVTPL include derivative liabilities held-for-trading arising from cross-currency swap and forward contracts. Similar to derivative assets, any gains or losses arising from changes in fair values of derivative liabilities are taken directly to "Foreign exchange gain - net" in the statements of income. Derivatives are carried as liabilities when the fair value is negative.

## Reclassification of Financial Assets and Financial Liabilities

Financial assets are reclassified when, and only when, the Bank changes its business model for managing financial assets in accordance with the provisions of PFRS 9. Reclassifications other than due to change in business model are not permitted.

A change in the Bank's business model is expected to be very infrequent and must be determined as a result of external and internal changes that are significant to the Bank's operations and demonstrable to external parties. Hence, such change in business model must be approved by the Bank's management and such fact properly documented.

A change in the objective of the Bank's business model must be effected before the reclassification date.

The Bank does not effect a reclassification within the period of change in the business model. Any reclassification of financial assets due to change in business model should take effect from the beginning of the next reporting period of the Bank's financial statements; provided, that the change in business model be disclosed in the financial statements in the period of change consistent with PFRS 7 which require among others the disclosure of objectives, policies and processes for managing the risk from financial instruments and any changes to those objectives, policies and procedures.

Financial liabilities are not reclassified.

#### Impairment of Financial Assets

At each reporting date, the Bank uses the expected credit loss (ECL) model in the assessment of the losses from financial assets such as due from BSP, due from other banks, interbank loans receivable, financial assets at FVOCI - debt securities, investment securities at amortized cost, loans and receivables and off-balance sheet credit commitments and financial guarantees not measured at FVTPL.

ECL is a forward-looking approach in measuring the difference between the cash flows that are due to the Bank in accordance with the contractual terms of a financial instrument and the cash flows that the Bank expects to receive. The Bank considers the past events, the current situation and the forecast of future economic conditions to identify whether the credit risk of financial instruments have been significantly increased since the initial recognition. The ECL model considers losses from initial recognition and at each reporting date. Three stages of impairment are used for the entire financial asset that serves as an objective basis in determining significant increase in credit risk.

The definitions of the stages are as follows:

- Stage 1 recognition of 12-month ECL when asset is originated or purchased, except for a purchased or originated credit-impaired financial asset;
- Stage 2 recognition of collective and individual lifetime ECL when credit quality of financial asset deteriorates significantly; and
- Stage 3 individual lifetime ECL when credit losses are incurred or asset is credit impaired.

Stage 3 classified assets are assessed using the specific impairment methodology for corporate loans.

The Bank uses three variables in computing the ECL:

- Probability of Default (PD) or the likelihood of a customer defaulting;
- Loss Given Default (LGD) which means how much exposure is expected to be lost if customer defaults; and
- Exposure at Default (EAD) or the outstanding amount of obligation at time of default which covers both the principal and the accrued interest.

For purchased or originated credit assets that are credit-impaired at initial recognition, the Bank calculates the credit-adjusted effective interest rate, which is calculated based on the amortized cost of the financial asset instead of its gross carrying amount and incorporates the impact of expected credit losses in estimated future cash flows.

Detailed discussions on the recognition and measurement of ECL in relation to credit risk management practices are disclosed in Note 5.

Modification of Financial Assets and Financial Liabilities

#### **Financial Assets**

If the terms of a financial asset are modified, then the Bank evaluates whether the cash flows of the modified asset are substantially different.

If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognized and a new financial asset is recognized at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in the statements of income as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximize recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Bank plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

If the modification of a financial asset measured at amortized cost or FVOCI does not result in derecognition of the financial asset, then the Bank first recalculates the gross carrying amount of the financial asset using the original EIR of the asset and recognizes the resulting adjustment as a modification gain or loss in the statements of income. For floating-rate financial assets, the original EIR used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs or fees incurred and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as "Interest income calculated using the effective interest method" in the statements of income.

On March 11, 2020, the World Health Organization declared the Coronavirus COVID-19 outbreak to be a pandemic in recognition of its rapid spread across the globe, with over 150 affected countries. On March 16, 2020, Proclamation No. 929, Series of 2020, declared a state of calamity throughout the Philippines for a period of six (6) months, unless earlier lifted or extended as circumstances may warrant. Consequently, an Enhanced Community Quarantine was imposed throughout the entire Luzon, which lasted for 75 days.

In this light, the BSP issued Memorandum No. M-2020-008 (the "Memorandum") granting temporary regulatory relief measures to BSFIs affected by COVID-19. Relief measures relevant to the Bank are as follows:

- a. Allowing BSFIs to provide financial assistance to officers who are affected even in the absence of BSP-approved purposes or even if not within the scope of the existing BSP-approved purposes, for the grant of loans, advances, or any other forms of credit accommodations to officers, subject to subsequent regularization of the BSP, as specified in the Memorandum;
- b. Upon grant by BSFIs of a temporary grace period for payment or upon approval of the restructuring, but subject to reporting to the BSP, exclusion from the computation of past due ratio of the loans of borrowers in affected areas which should have been reclassified as past due from 8 March 2020, the date of declaration of the President of the state of public health emergency under Presidential Proclamation No. 922 (the "reference date"), including those loans becoming past due six (6) months thereafter, subject to conditions specified in the Memorandum:
- c. Non-imposition of monetary penalties for delays incurred in the submission of all supervisory reports due to be submitted from the reference date up to six (6) months thereafter;
- d. Subject to prior approval of the Bangko Sentral, staggered booking of allowance for credit losses computed over a maximum period of five (5) years for all types of credits extended to individuals and businesses directly affected by COVID-19 as of the reference date; and
- e. Subject to prior approval of the Bangko Sentral, non-imposition of penalties on legal reserve deficiencies starting from reserve week following the reference date up to six (6) months thereafter.

The Bank did not avail of the abovementioned reliefs except for Item "c", which is the non-imposition of monetary penalties for delays incurred in the submission of supervisory reports.

On March 24, 2020, President Rodrigo Duterte signed Republic Act No. 11468, otherwise known as Bayanihan to Heal as One Act or "Bayanihan 1", allowing the government to institute emergency actions to fight the pandemic and safeguard the economy. One of the salient features of the law is the granting of a grace period to all loans falling due within the Enhance Community Quarantine period.

On September 11, 2020, the President signed Republic Act No. 11494, otherwise known as Bayanihan to Recover as One Act or "Bayanihan 2". The law likewise for another 60-day grace period on current and performing loans falling due from September 15 to December 31, 2020.

The granting of the grace period under Bayanihan 1 and 2, resulted to a modification of certain loans. The Bank computed for the effects of the loan modification and ascertained that such modification did not result to material difference of 10% of the outstanding balance. As such, the said loan modification did not require any derecognition of asset.

#### Financial Liabilities

The Bank derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability derecognized and consideration paid is recognized in statements of income. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortized cost of the liability is recalculated by discounting the modified cash flows at the original EIR and the resulting gain or loss is recognized in statements of income. For floating-rate financial liabilities, the original EIR used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognized as an adjustment to the carrying amount of the liability and amortized over the remaining term of the modified financial liability by re-computing the EIR on the instrument.

## Derecognition of Financial Instruments

#### **Financial Assets**

The Bank derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of the ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of: (a) the consideration received (including any new asset obtained less any new liability assumed) and (b) any cumulative gain or loss that had been recognized in the statements of income.

Any cumulative gain or loss recognized in OCI in respect of equity investment securities designated as at FVOCI is not recognized in the statements of income on derecognition of such securities. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Bank is recognized as a separate asset or liability. The Bank enters into transactions whereby it transfers assets recognized on its statements of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. In such cases, the transferred assets are not derecognized. Examples of such transactions are securities lending and sale-and-repurchase transactions.

When assets are sold to a third party with a concurrent total rate of return swap on the transferred assets, the transaction is accounted for as a secured financing transaction similar to sale-and-repurchase transactions, because the Bank retains all or substantially all of the risks and rewards of ownership of such assets.

In transactions in which the Bank neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Bank continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

In certain transactions, the Bank retains the obligation to service the transferred financial asset for a fee. The transferred asset is derecognized if it meets the derecognition criteria. An asset or liability is recognized for the servicing contract if the servicing fee is more than adequate (asset) or is less than adequate (liability) for performing the servicing.

#### Financial Liabilities

Financial liabilities are removed from the statements of financial position when, and only when, it is extinguished, that is, when the obligation specified in the contract is either discharged or cancelled or expires. Where there has been an exchange between an existing borrower and lender of debt instruments with substantially different terms, or there has been a substantial modification of the terms of an existing financial liability, this transaction is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. A gain or loss from extinguishment of the original financial liability is recognized in the statements of income.

#### Determination of Fair Value

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Bank measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Bank uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price - i.e., the fair value of the consideration given or received. If the Bank determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognized in the statements of income on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

If an asset or liability measured at fair value has a bid price and an ask price, then the Bank measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Bank on the basis of the net exposure to either market or credit risk are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) for a particular risk exposure. Those portfolio-level adjustments are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The fair value of a demand deposit is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

## Offsetting

Financial assets and financial liabilities are offset and are reported at net amount in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is generally not the case with master netting agreements, where the related assets and liabilities are presented at gross amounts in the statements of financial position.

## Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items, due from BSP, due from other banks and interbank loans receivable that are convertible to known amounts of cash with original maturities of three months or less from dates of placements and that are subject to insignificant risk of changes in value.

Cash and cash equivalents are carried at amortized cost in the statements of financial position.

## Repurchase and Reverse Repurchase Agreements

Securities purchased under resale agreement (SPURA) to resell at a specified future date ("reverse repos") are not recognized in the statements of financial position. The corresponding cash paid, including accrued interest, is recognized in the statements of financial position as securities purchased under resale agreement, and is considered as a loan to the counterparty. The Bank is not permitted to sell or re-pledge the collateral in the absence of default by the owner of the collateral. The difference between the purchase price and resale price is treated as interest income in the statements of income and is amortized over the life of the agreement using the effective interest method.

Conversely, securities sold under repurchase agreements (SSURA) at a specified future date ("repos") are not derecognized from the statements of financial position. The corresponding cash received, including accrued interest, is recognized in the statements of financial position as liability of the Bank, reflecting the economic substance of such transaction.

## Property and Equipment

Depreciable properties which include bank premises, furniture, fixtures and equipment, leasehold rights and improvements, computer and transportation equipment are stated at cost less accumulated depreciation and amortization and accumulated impairment loss, if any. Except for right-of-use assets presented under bank premises, the initial costs of property and equipment consists of purchase price, including import duties, taxes, and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Such cost includes the cost of replacing part of the equipment when the cost is incurred and if the recognition criteria are met, but excludes repairs and maintenance cost. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

Right-of-use assets are presented together with property and equipment in the statements of financial position. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability, adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, and an estimate of costs dismantle and remove any improvements made to branches or office premises, less any incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the underlying asset or to the end of lease term. The right-of-use assets are stated at cost less accumulated depreciation, less accumulated impairment loss, if any.

The Bank does not recognize right-of-use assets for leases with term of 12 months or less and leases of low-value assets. The Bank recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Depreciation and amortization of owned assets is calculated using the straight-line method over the estimated useful lives of the depreciable assets. Leasehold rights and improvements are amortized over the shorter of the term of the related lease or the estimated useful lives of the leasehold improvements.

The range of estimated useful lives of the owned depreciable assets follows:

	Number of Years
Bank premises (except right-of-use assets)	30
Right-of-use assets	3 - 10
Transportation equipment	5
Furniture, fixtures and equipment	5
Computer equipment	3
Leasehold rights and improvements	3 - 5

The depreciation and amortization method and useful life are reviewed periodically to ensure that the method and the period of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statements of income in the reporting period the asset is derecognized.

#### **Investment Properties**

Investment properties are measured initially at cost including transaction costs. An investment property acquired through an exchange transaction is measured at fair value of the asset acquired unless the fair value of the asset cannot be measured reliably, in which case the investment property acquired is measured at the carrying amount of asset given up. Foreclosed properties are classified under "Investment properties" in the statements of financial position from foreclosure date. Subsequent to initial recognition, depreciable investment properties are carried at cost less accumulated depreciation and impairment loss, if any.

Expenditures incurred after the investment properties have been put into operations, such as repairs and maintenance costs, are normally charged to operations in the period in which the costs are incurred.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation or commencement of an operating lease to another party. Transfers are made from investment properties when there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sell.

Depreciation is calculated on a straight-line basis over the estimated remaining useful life from the time of acquisition of the investment properties. The estimated useful lives of the Bank's investment properties range from 10 to 40 years. The period and method of depreciation are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of investment properties.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statements of income in the year of retirement or disposal.

## **Computer Software Costs**

Computer software costs (included under "Other assets" in the statements of financial position) are costs incurred relative to the development of the Bank's software. Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software.

Costs are amortized on a straight-line basis over five to eight years and are included under "Amortization of computer software costs" in the statements of income.

Costs associated with maintaining the computer software programs are recognized as expense when incurred.

# Impairment of Non-financial Assets

Property and Equipment, Investment Properties, and Computer Software Costs At each reporting date, the Bank assesses whether there is any indication that its property and equipment, investment properties and computer software costs are impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Bank makes a formal estimate of recoverable amount. Recoverable amount is the higher of a non-financial asset's fair value less costs to sell and its value in use and is determined for an individual non-financial asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the cash generating unit to which it belongs.

Where the carrying amount of a non-financial asset exceeds its recoverable amount, the non-financial asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is charged to "Impairment losses" in the statements of income in the year in which it arises. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statements of income. After such a reversal, any depreciation and amortization expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

# On-balance Sheet Financial Guarantees

In the ordinary course of business, the Bank gives financial guarantees consisting of letters of credit, letters of guarantees, and acceptances. Financial guarantees are initially recognized at fair value. Subsequent to initial recognition, the Bank's liabilities under such guarantees are each measured at the higher of the initial fair value less, when appropriate, cumulative amortization of the fee recognized over the term of the guarantee and the best estimate of the expenditure required to settle any financial obligation arising as a result of the guarantee.

Any increase in the liability relating to financial guarantees is recognized as expense in statements of income. When a financial guarantee liability is discharged, cancelled, or expires, the balance is recognized as income in the statements of income.

#### **Prepayments**

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to statements of income as they are consumed in operations or expire with the passage of time.

## Revenue Recognition

Interest Income

Effective Interest Rate

Interest income and expense are recognized in the statements of income using the effective interest rate method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

When calculating the effective interest rate for financial instruments other than purchased or originated credit-impaired assets, the Bank estimates future cash flows considering all the contractual terms of the financial instrument, but not ECL. For purchased or originated credit-impaired financial assets, a credit-adjusted EIR is calculated using estimated future cash flows including ECL.

The calculation of the effective interest rate includes all fees and points paid or received that are an integral part of the EIR, transactions costs and all other premiums or discounts. Transaction costs include incremental costs that are directly attributable to the acquisition or issuance of a financial asset or financial liability.

## Amortized Cost and Gross Carrying Account

The amortized cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any expected credit loss allowance.

#### Calculation of Interest Income

The effective interest rate of a financial asset is calculated on initial recognition. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to gross basis.

For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

#### Presentation

Interest income presented under "Interest income calculated using the effective interest method" in the statements of income includes interest earned on financial assets at amortized cost and at FVOCI.

Interest income on financial assets at FVTPL is presented under "Interest income on financial assets at FVTPL" in the statements of income.

## Service Fees and Commission Income

The Bank earns fee and commission income from the diverse range of services it provides to its customers. Fees arising from negotiating or participating in the negotiation of a transaction for a third party - such as the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses - are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance, such as corporate finance fees, and loan syndication fees are recognized in the statements of income as the related services are performed. Service charges and penalties relating to loan receivable and deposit transactions are recognized only upon collection or accrued when there is reasonable degree of certainty as to its collectability.

The Bank disaggregates its service fees and commission income arising from contracts with customers into major service lines and into reportable segments (see Note 24).

#### Dividend Income

Dividend income on equity investments is recognized when the Bank's right to receive payment is established.

## Trading and Securities Gain (Loss) - net

Trading and securities gain - net include all gains and losses from changes in fair value for financial assets at FVTPL and realized gains or losses on disposals of financial asset at FVTPL, debt financial assets at FVOCI and investment securities at amortized cost.

#### Other Income

Income from sale of services is recognized upon rendition of the service. Income from sale of properties is recognized when the risks and rewards of ownership of the property are transferred, the amount of revenue can be estimated reliably and the collectability is reasonably assured.

#### Expense Recognition

Expenses are recognized in the statements of income when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably. Expenses are recognized in statements of income:

- on the basis of a direct association between the costs incurred and the earning of specific items of income;
- on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or
- immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the statements of financial position as an asset.

Expenses in the statements of income are presented using the nature of expense method.

Income and expenses are presented on a net basis only when permitted by the accounting standards.

#### Leases

At inception of a contract, the Bank assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Bank uses the definition of a lease in PFRS 16.

#### Bank as Lessee

The Bank recognizes a right-of-use asset and a lease liability at the lease commencement date. The initial amount of the right-of-use asset comprises the initial amount of the lease liability, adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, and an estimate of costs to restore the underlying asset, less any incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the underlying asset or the end of the lease term. The right-of-use assets are stated at cost less accumulated depreciation and amortization, and accumulated impairment loss, if any.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or the Bank's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- (a) Fixed payments, including payments that may in form contain variability but in substance are unavoidable;
- (b) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) Amounts expected to be payable under a residual value guarantee; and
- (d) Amounts expected for the exercise price under a purchased option, lease payments under an extension option and penalties for early termination, if the Bank is reasonably certain to exercise or early terminate.

The lease liability is measured by the effective interest method to recognize the interest expense and remeasured to reflect the changes as follows:

- (a) The lease term changes;
- (b) The future lease payment changes to reflect a change in an index or rate; or
- (c) If there is a change in the estimate of the amount expected to be payable under a residual value guarantee, or if the Bank changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured to reflect the above changes, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in statements of income if the carrying amount of the right-of-use has been reduced to zero.

The Bank recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

## **Employee Benefits**

#### Short-term Employee Benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Bank has a present or legal constructive obligation to pay this amount as a result of past service provided by the employees and the obligation can be estimated reliably.

#### Retirement Benefits

The Bank's personnel are covered by a funded noncontributory defined benefit retirement plan.

The Bank's net obligation in respect of the defined benefit plans is calculated by estimating the amount of the future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed on a periodic basis by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Bank, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in the statements of OCI. The Bank determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability (asset), taking into account any changes in the net defined liability (asset) during the period as a result of contributions and benefit payments. Current service cost and other income and expenses related to defined benefit plans are recognized in the statements of income.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the statements of income.

The Bank recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### **Provisions**

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of a past event and where it is probable that an outflow of assets embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

## Income Taxes

Income tax comprises current, deferred and final taxes. Income tax is determined in accordance with Philippine tax law. Income tax is recognized in the statements of income, except to the extent that it relates to items recognized directly in equity. Tax on these items is recognized in the statements of OCI.

#### Current Income Tax

Current income tax is the expected tax payable on the taxable income for the period, using tax rates and laws that have been enacted or substantively enacted at the statements of financial position date, together with adjustments to tax payable in respect of prior years. The amount of current tax payable is the best estimate of the tax amount expected to be paid that reflects uncertainty related to income taxes, if any.

## Deferred Tax

Deferred tax is provided using the balance sheet liability method on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, including asset revaluations. Deferred tax assets are recognized for all deductible temporary differences, carry-forward benefits of unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO) to the extent that it is probable that sufficient taxable income will be available against which the deductible temporary differences and carryforward benefits of unused tax credits from MCIT and unused NOLCO can be utilized.

Deferred tax, however, is not recognized on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

The carrying amounts of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all of part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. These reflect uncertainty related to income taxes, if there is any.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred taxes related to the same taxable entity and the same taxation authority.

#### Final Tax

Final tax is a kind of withholding tax which is prescribed on certain income payments and is not creditable against the income tax due of the payee on other income subject to regular rates of tax for the taxable year. Tax withheld constitutes the full and final payment of the tax due from the payee on the particular income subjected to final withholding tax.

#### Equity

Capital stock is measured at par value for all shares issued and outstanding. When the shares are sold at a premium, the difference between the proceeds and the par value is credited to "Additional paid-in capital" account in the statements of financial position. Direct costs incurred related to equity issuance such as underwriting, accounting and legal fees, printing costs and taxes are charged to "Additional paid-in capital" account. If the additional paid-in capital is not sufficient, the excess is charged against the "Retained earnings" account.

When the Bank issues more than one class of stock, a separate account is maintained for each class of stock and the number of stocks issued.

Retained earnings represent accumulated earnings of the Bank less dividends declared, if any.

Restricted retained earnings represent the Bank's accumulated retained earnings which is not available for distribution to shareholders as dividends since it is appropriated for minimum capital requirements per BSP Circular No. 854, BASEL III requirements, and ICAAP requirements per BSP Circular No. 639.

#### **Treasury Stock**

These are own equity instruments that are reacquired which are recognized at cost and deducted from equity. No gain or loss is recognized in the statements of income on the purchase, sale, issue or cancellation of the Bank's own equity instruments. The excess of the carrying amount over the consideration, if reissued, is charged to additional paid-in-capital from treasury shares of the same class. If the additional paid-in-capital is not sufficient, the excess is charged against the "Retained earnings" account.

Voting rights related to treasury stocks are nullified for the Bank and no dividends are allocated to them.

## **Earnings Per Share**

Basic earnings per share (EPS) is computed by dividing net income for the year by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock dividends declared and stock rights exercised during the year, if any.

Diluted earnings per share is computed dividing net income for the year by the weighted average number of common shares outstanding during the year adjusted for the effects of any dilutive securities.

## Dividends on Capital Stocks

Dividends on capital stocks are recognized as a liability and deducted from retained earnings when declared and approved by the shareholders of the Bank. Dividends for the year that are approved after the statements of financial position date are dealt with as an event after the reporting date.

## Deposits for Future Stock Subscription

In accordance with Financial Reporting Bulleting No. 6 (as revised) of the SEC, a contract to deliver the Bank's own equity instrument shall be classified under equity as a separate account (i.e., Deposits for future stock subscription) from outstanding capital stock if and only if, all of the following elements are present as at end of the reporting period:

- The unissued authorized capital stock of the entity is insufficient to cover the amount of shares indicated in the contract;
- There is BOD's approval on the proposed increase in authorized capital stock (for which a deposit was received by the corporation);
- There is stockholders' approval of said proposed increase; and
- The application for the approval of the proposed increase has been presented for filing or has been filed with the SEC.

Otherwise, deposits for future stock subscription are presented under "Other liabilities".

## Contingent Liabilities and Contingent Assets

Contingent liabilities are not recognized in the financial statements but are disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

# **Events After the Reporting Date**

Any post year-end event that provides additional information about the Bank's financial position at the reporting date (adjusting event) is reflected in the financial statements. Post year-end events that are not adjusting events, if any, are disclosed in the notes to the financial statements when material.

## **Fiduciary Activities**

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Bank acts in a fiduciary capacity such as nominee, trustee or agent.

## Standards Issued But Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after January 1, 2021. However, the Bank has not early adopted the following new or amended standards in preparing these financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Bank's financial statements.

## To be Adopted on January 1, 2022

Coronavirus disease 2019 (COVID 19) Related Rent Concessions beyond 30 June 2021 (Amendment to PFRS 16 Leases). The amendment extends the practical expedient introduced in the 2020 amendment which simplified how a lessee accounts for rent concessions that are a direct consequence of COVID-19, permitting lessees to apply the practical expedient to rent concessions for which any reduction in lease payments affects only payments originally due on or before June 30, 2022.

The amendment is effective for annual reporting periods beginning on or after April 1, 2021. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate. The adoption is mandatory for lessees that chose to apply the practical expedient introduced by the 2020 amendments and may result in reversal of lease modifications that was ineligible for the practical expedient under the 2020 amendments but becomes eligible as a result of the extension.

Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16, Property, Plant and Equipment). The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2, Inventories.

The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

For the sale of items that are not part of a company's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statement of comprehensive income. This disclosure is not required if such proceeds and cost are presented separately in the statement of income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

Onerous Contracts - Cost of Fulfilling a Contract (Amendment to PAS 37 Provisions, Contingent Liabilities and Contingent Assets). The amendments clarify that the cost of fulfilling a contract when assessing whether a contract is onerous includes all costs that relate directly to a contract - i.e., it comprise both incremental costs and an allocation of other direct costs.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated. Earlier application is permitted.

- Annual Improvements to PFRS Standards 2018-2020. This cycle of improvements contains amendments to standards applicable to the Bank:
  - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (Amendment to PFRS 9 Financial Instruments). The amendment clarifies that for the purpose of performing the '10 per cent' test for derecognition of financial liabilities, the fees paid net of fees received included in the discounted cash flows include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.
  - Lease Incentives (Amendment to Illustrative Examples accompanying PFRS 16 Leases). The amendment deletes from the Illustrative Example 13 the reimbursement relating to leasehold improvements to remove the potential for confusion because the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in PFRS 16.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted.

- Reference to the Conceptual Framework (Amendment to PFRS 3 Business Combinations). The amendments:
  - updated PFRS 3 so that it now refers to the 2018 Conceptual Framework;
  - added a requirement that, for transactions and other events within the scope
    of PAS 37 Provisions, Contingent Liabilities and Contingent Assets or
    IFRIC 21 Levies, an acquirer applies PAS 37 or IFRIC 21 instead of the
    Conceptual Framework to identify the liabilities it has assumed in a business
    combination; and
  - added an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination.

The amendments are effective for business combinations occurring in reporting periods starting on or after January 1, 2022. Earlier application is permitted.

#### To be Adopted on January 1, 2023

- Classification of Liabilities as Current or Non-current (Amendments to PAS 1 Presentation of Financial Statements). To promote consistency in application and clarify the requirements on determining whether a liability is current or noncurrent, the amendments:
  - removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;

- clarified that a right to defer settlement exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date; and
- clarified that settlement of a liability includes transferring a company's own
  equity instruments to the counterparty, but conversion options that are
  classified as equity do not affect classification of the liability as current or
  non-current.

The amendments apply retrospectively for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

In November 2021, the IASB issued the Exposure Draft, Non-Current Liabilities with Covenants after considering stakeholder feedback on the December 2020 tentative agenda decision issued by the IFRS Interpretations Committee about the amendments. The exposure draft proposes to again amend IAS 1 as follows:

- Conditions which the entity must comply within twelve months after the reporting period will have no effect on the classification as current or noncurrent.
- Additional disclosure requirements will apply to non-current liabilities subject to such conditions to enable the assessment of the risk that the liability could become repayable within twelve months.
- Separate presentation in the statement of financial position will be required for non-current liabilities for which the right to defer settlement is subject to conditions within 12 months after the reporting period.

The effective date of the amendments will be deferred to no earlier than January 1, 2024.

Definition of Accounting Estimates (Amendments to PAS 8 Accounting Policies, Changes in Accounting Estimates and Errors). To clarify the distinction between changes in accounting policies and changes in accounting estimates, the amendments introduce a new definition for accounting estimates, clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that an accounting estimate is developed to achieve the objective set out by an accounting policy. Developing an accounting estimate includes both selecting a measurement technique and choosing the inputs to be used when applying the chosen measurement technique. The effects of changes in such inputs or measurement techniques are changes in accounting estimates. The definition of accounting policies remain unchanged. The amendments also provide examples on the application of the new definition.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the amendments are applied.

- Disclosure of Accounting Policies (Amendments to PAS 1 Presentation of Financial Statements and PFRS Practice Statement 2 Making Materiality Judgements). The amendments are intended to help companies provide useful accounting policy disclosures. The key amendments to PAS 1 include:
  - requiring companies to disclose their material accounting policies rather than their significant accounting policies;
  - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
  - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The amendments to PFRS Practice Statement 2 includes guidance and additional examples on the application of materiality to accounting policy disclosures. The amendments are effective from January 1, 2023. Earlier application is permitted.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to PAS 12 Income Taxes). The amendments clarify that that the initial recognition exemption does not apply to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning obligations. For leases and decommissioning liabilities, the associated deferred tax assets and liabilities will be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other appropriate component of equity at that date. For all other transactions, the amendments apply to transactions that occur after the beginning of the earliest period presented.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

## 4. Significant Accounting Judgments and Estimates

The preparation of the financial statements requires the Bank to make judgments and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as they become reasonably determinable.

The most significant areas where judgments and estimates have been made are set out below:

## Judgments

Business Model Assessment

Debt securities held are classified based on the Bank's business models for managing the debt securities which are determined and assessed at the portfolio level that reflects how groups of debt securities are managed together to achieve the particular business objectives (e.g. to collect contractual cash flows or to trade to realize fair value changes) of the respective business model.

The Bank's business models for managing debt securities held determine the nature and source of the cash flows resulting from the investments. As such, the assessment of the business models for managing the debt securities is subject to judgment that is not determined by a single factor or activity. Instead, the Bank must consider all relevant evidence that is available at the date of the assessment.

Assessment of Whether Contractual Cash Flows are Solely Payments of Principal and Interest

The classification of a financial asset is based on whether, on specified dates, the contractual terms of the financial asset give rise to cash flows are SPPI on the principal amount outstanding. This involves assessment of whether the contractual cash flows that are SPPI are consistent with a basic lending arrangement. In a basic lending arrangement, consideration for the time value of money and credit risk are typically the most significant elements of interest.

As such, the Bank applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, the period for which the interest rate is set and the contractual terms that change the timing or amount of the cash flows.

#### Significant Increase in Credit Risk

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Bank considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Bank's historical experience and credit assessment, including forward-looking information.

The Bank's qualitative and quantitative factors modelling in the determination of whether credit risk of a particular exposure is deemed to have increased significantly since initial recognition is disclosed in Note 5.

# Determining Loan Modification Loss

In certain circumstances, the Bank modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments and accrual of interest and charges.

On March 25, 2020, Republic Act No. 11469, otherwise known as the Bayanihan to Heal as One Act ("Bayanihan 1") was enacted. Bayanihan 1 provides that all covered institutions shall implement a 30-day grace period for all loans with principal and/or interest falling due within the enhanced community quarantine period without incurring interest on interest, penalties, fees and other charges. Subsequently, on September 11, 2020, Republic Act No. 11494, otherwise known as the Bayanihan to Recover as One Act ("Bayanihan 2"), was enacted. Under Bayanihan 2, a one-time 60-day grace period is granted for the payment of all existing, current and outstanding loans falling due, or any part thereof, on or before December 31, 2020, without incurring interest on interest, penalties, fees and other charges, thereby extending the maturity of the said loans.

As of December 31, 2020, the Bank estimated a loan modification loss amounting to Php19.8 million. Per Bank's assessment, the amount did not breach its internal threshold of 10% of net income before tax, thus, the said loss was not recognized during the year.

#### Determining Functional Currency

PAS 21 The Effects of Changes in Foreign Exchange Rates requires management to use its judgment to determine the entity's functional currency such that it most faithfully represents the economic effects of the underlying transactions, events and conditions that are relevant to the entity. In making this judgment, the Bank considers the following:

- the currency that mainly influences sales prices for financial instruments and services (this will often be the currency in which sales prices for its financial instruments and services are denominated and settled);
- the currency in which funds from financing activities are generated; and
- the currency in which receipts from operating activities are usually retained.

#### Leases - Bank as Lessee

The Bank leases properties, land and buildings for the premises it uses for its operations.

In determining whether the Bank is a party to a lease contract as a lessee, the Bank assesses whether all of the three elements below are present:

- The contract has an identified asset;
- The Bank has the right to obtain substantially all of the economic benefits from the use of the identified asset; and
- The Bank has the right to direct the use of the identified asset.

## **Estimates**

#### Incremental Borrowing Rate

The Bank estimates its discount rate on leases based on incremental borrowing rate. Incremental borrowing rate is the interest rate the Bank would have to pay over a similar term, and with a similar security, the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment.

Determining the incremental borrowing rate is a challenge to the Bank considering its limited debt arrangements with other banks. As such, an estimate of appropriate incremental borrowing rate is derived by averaging long-term negotiable certificate of deposit rates issued by peer banks from 12 months prior to the lease commencement date. Such estimate is determined by the Bank on a lease-by-lease basis.

In 2021 and 2020, new lease contracts were individually assessed for the determination of an appropriate incremental borrowing rate.

## Impairment Losses on Financial Instruments

The Bank reviews its financial instruments monthly for the assessment of the sufficiency of the loss allowances recorded in the statements of financial position.

In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of qualitative and quantitative factors where different results may result in future changes to the loss allowances.

In addition to specific allowance against individually significant loans and receivables, the Bank also provides a collective impairment allowance against exposures which, although not specifically identified as requiring a specific allowance, have a greater risk of default than when originally granted. This collective allowance is done by considering information that is indicative of significant increases in credit risk on a group or sub-group of financial instruments.

Considering the COVID-19 pandemic that started in 2020, the Bank needed to apply certain adjustments on the estimation of parameters and assumptions in order to account for the impact of this unforeseen event. The Bank revisited its loan risk rating and downgraded loans affected by the COVID-19 pandemic. This resulted to an increase in the probability of default of certain accounts, and consequently, increased the required allowance as of year-end. The general methodology for the ECL calculation remains the same. However, the projection of the forward-looking components was updated. The Bank used the most recent supportable and available information to establish probable effects of the pandemic to the performance of the bank's exposures. Furthermore, the Bank utilized both historical and updated customer risk ratings for unsecured and considered industry risk on the SME portfolio to account for the uncertainties. The Bank also identified accounts that are vulnerable to the impact of COVID-19 and these were subjected to individual impairment assessment. These accounts are closely monitored paying more attention to their actual performance during the year.

The loss allowance on financial instruments remained at P1.4 billion as at December 31, 2021 and 2020 (see Note 12). This includes loss allowance on loans and receivables, interbank loans receivable, debt financial assets at FVOCI, investment securities at amortized cost and off-balance sheet commitments and contingencies.

As at December 31, 2021 and 2020, the carrying value of loans and receivables and interbank loans receivable, net of loss allowance, amounted to P31.0 billion and P30.7 billion (see Notes 8 and 27); P696.0 million and P1.2 billion, respectively (see Note 27).

As at December 31, 2021 and 2020, the loss allowance on off-balance sheet commitments and contingencies, debt financial assets at FVOCI and investment securities at amortized cost amounted to P21.0 million and P5.5 million; P2.2 million and P1.9 million; and P1.3 million and P0.6 million, respectively (see Note 12).

#### Determining Inputs into ECL Measurement Model

In computing the ECL, the Bank uses three variables: (a) PD; (b) LGD; and (c) EAD. The determination of the amounts of the variables involves identifying and documenting key drivers of credit risk and credit losses for each portfolio of financial instruments and using an analysis of historical data to estimate relationships between macro-economic variables and credit risk and credit losses. Identified drivers for credit risk include GDP growth, inflation and unemployment rate.

Detailed discussions on the Bank's inputs to the ECL model are disclosed in Note 5.

## Determining Fair Value of Financial Instruments

Where the fair values of financial assets and financial liabilities recorded on the statements of financial position or disclosed in the notes cannot be derived from active markets, they are determined using a variety of valuation techniques acceptable to the market as alternative valuation approaches that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in estimating fair values.

The evaluation includes considerations of liquidity and model inputs such as correlation and volatility.

Moreover, the Bank measures its unquoted equity securities at their carrying amounts since there were no readily available information sufficient to determine their fair values at the measurement date considering that these are not significantly affected by the changes in market conditions and passage of time.

## Recognition of Deferred Tax Assets

Deferred tax assets are recognized for all unused tax losses and future tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

As the COVID-19 pandemic affected the Bank's normal operations, the Bank reassessed its business plan, as well as tax strategies, in the next three to five years, considering various economic scenarios including recovery outlook, effect of the pandemic on specific industries and trade, travel restrictions, and government relief efforts.

The Bank did not recognize deferred tax assets as at December 31, 2021 and 2020 amounting to P19.0 million and P21.4 million, respectively (see Note 21).

# Present Value of Defined Benefit Retirement Obligation

The present value of the defined benefit retirement obligation depends on a number of factors and assumptions such as discount rate and salary increase rate. These assumptions are described in Note 19 to the financial statements.

The Bank determines the appropriate discount rate at the end of each reporting period. It is the interest rate that should be used to determine the present value of estimated future cash outflows to settle the retirement obligations. In determining the appropriate discount rate, the Bank considers the interest rates on government bonds that are denominated in the currency in which the benefits will be paid. The terms to maturity of these bonds should approximate the terms of the related retirement obligation.

Other key assumptions for the defined benefit retirement obligation are based in part on current market conditions. While it is believed that the Bank's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Bank's defined benefit retirement obligation.

The present value of the Bank's defined benefit retirement obligation amounted to P296.6 million and P337.8 million as at December 31, 2021 and 2020, respectively (see Note 19).

The net retirement liability of the Bank amounted to P88.2 million and P135.7 million as at December 31, 2021 and 2020, respectively (see Notes 15 and 19).

## Impairment of Non-financial Assets

At each reporting date, the Bank assesses whether there is any indication of impairment on property and equipment and investment properties or whether there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Bank makes a formal estimate of the net recoverable amount.

The net recoverable amount is the higher of an asset's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the net recoverable amount is assessed as part of the cash-generating unit to which it belongs. Value in use is the present value of future cash flows expected to be derived from an asset or cash-generating unit while fair value less cost to sell is the amount obtainable from the sale of an asset or cash-generating unit in an arm's length transaction between knowledgeable and willing parties less any costs of disposal. Where the carrying amount of an asset exceeds its net recoverable amount, the asset is considered impaired and is writtendown to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or cash-generating unit).

An impairment loss is charged against operations in the period in which it arises.

An assessment is made at each reporting date as to whether there is any indication that the previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the net recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's net recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its net recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in the statements of income.

After such a reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

## 5. Financial Risk and Capital Management Objectives and Policies

The Bank is in the business of creating value out of taking risks. The Bank's major risks consist of Credit Risk, Market Risk, Liquidity Risk, Interest Risk, and Operational Risk. Other risks monitored include strategic and legal risks.

The major objective of the risk management of the Bank is to control the risk under the scope approved by the board of directors by using effective management methods to utilize resource and create maximum economic profit.

#### Risk Management Structure

The BOD is ultimately responsible for oversight of the Bank's risk management process. It created the Risk Management Committee (RMC), a board-level independent committee with explicit authority and responsibility for managing and monitoring risks.

# Risk Management Committee - Powers, Duties and Functions

The RMC shall be responsible for the development and oversight of the Bank's Risk Management Program. It shall provide general direction and define the risk philosophy of the Bank.

It shall oversee the system of limits to discretionary authority that the Board delegates to management, will ensure that the system remains effective, that the limits are observed and that immediate corrective actions are taken whenever limits are breached.

The RMC shall review and approve the Bank's Internal Capital Adequacy Assessment Process (ICAAP). This also includes the review of the Bank's Risk Capital Framework (e.g. credit, market, liquidity and operational risks), including significant inputs and assumptions.

The following principles summarize the Bank's overall approach to risk management:

- The BOD provides the overall direction and supervision of the Bank's risk management;
- The key risks faced by the Bank both financial and non-financial are managed by appropriate functional levels within the Bank;
- The risk management functions are independent from the businesses and provide check-and-balance for risk taking units;
- Risk management involves managing the balance between risk and reward, to enable the Bank to fulfill its commitment to protect shareholder interest, as well as deliver value to the banking public, and comply with relevant regulations; and
- Risk management process is done via four steps: (1) Risk Identification involves selecting the method for risk identification and describing the characteristics of risks; (2) Risk Measurement refers to the establishing/maintenance of tools or methods to measure risk and identifying the responsible units that will ensure the effectiveness or appropriateness of the risk measurement tools or methods; (3) Risk monitoring pertains to the setting up of assessment frequency, reviewing of risk status, and proposing and implementing of action plans; and (4) Risk Reporting includes clearly defining the reporting mechanism, necessary content and relevant assessment mechanism.

## Credit Risk

Credit risk is the risk that one party to a financial transaction will fail to honor an obligation and cause the Bank to incur a financial loss. Credit risk arises primarily from the Bank's corporate and retail loans (customer credit risk) and investment securities (counterparty credit risk).

With respect to corporate credit risk for Institutional Banking, the Institutional Credit Management Group (ICMG) is mainly responsible for the following:

- (a) safeguard the quality of the Bank's institutional loan portfolio; and
- (b) provide support services to the lending units of the Bank.

To safeguard the quality of the loan portfolio of the Bank, ICMG performs the following functions:

- (a) conduct pre-approval review of credit proposals of lending units;
- (b) assist in structuring appropriate credit facilities;
- (c) provide policy guidelines to the lending units in order to standardize the credit process;

- (d) coordinate with the lending units on the required post-approval requirements (i.e., Loan Review Report, Account Planning, etc.) in the management of existing accounts;
- (e) conduct regular meetings to discuss problem accounts;
- (f) review/endorse loan loss provisions for problematic accounts; and
- (g) provide senior management with reports pertaining to the quality of the loan portfolio.

Each credit proposal undergoes an evaluation process in order to determine its acceptability. The evaluation process involves the identification of credit risks after having assessed key factors including, target market/industry, management, appropriateness of credit facilities, terms and conditions, financial performance and condition, collateral and others.

The credit risk identification framework also consists of an internal risk rating system for corporate accounts that has a blend of both quantitative and qualitative factors. The Obligor's Risk Rating (ORR) ranges from ORR 0 to 17, with ORR 0 being the lowest credit risk and 14 to 17 representing the Watch-List and Default Accounts.

One of the Bank's risk monitoring exercises is its semi-annual review of corporate accounts via annual review and interim review. For Early Warning (EW) accounts, review should be conducted at least once every three (3) months. Interim review with an interval of 12 months are only allowed for accounts fully-secured by cash or government securities, accounts whose sole credit facility with the Bank is fully-secured by unconditional and irrevocable Sovereign Guarantee, or under a specific credit/product program. Interim review serves the purpose of monitoring the borrower's usage of fund, relationship with the Bank, updated financial performance, repayment capability, identification of major risks, outlook, etc. It also assesses account classification and/or ORR.

If deterioration in credit is identified Institutional Banking Group (IBG) has the responsibility to include it in any of the Early Warning (EW) buckets. This calls for the submission of a Notification report, quarterly or more frequent interim review (for EW1a accounts), and Account Planning reports (APR) for EW1b, EW2, and EW3 accounts. If deemed appropriate, EW2 and EW3 accounts may be transferred to the Special Accounts Managers of Enterprise Wide Risk Management Group (SAM) for handling. Apart from these, the Relationship Manager (RM) who is responsible to improve business relationships with the Bank's clients and the Special Accounts manager (for accounts that have been transferred) are required to provide updates during Credit Committee meetings. On December 31, 2021, the Early Warning Management Guidelines have been updated to reflect that EW1a has been renamed to EW1, EW1b is removed and accounts were reclassified to either EW1 or EW2 based on exhibited characteristics, and NPL has been separated from EW3.

The IBG or ARMD RM (depending on the classified account owner) and Litigation Head of the Legal Department are also required to report to the Credit Committee the status of the classified accounts at least twice a month and once a month for an EW account. Depending on the outstanding exposure of an EW2/EW3 account, the RM regularly prepares the Account Planning reports for approval either of the Senior Credit Officer (SCO), the Credit Committee or the Executive Committee. The APR covers the loan details of the account including the outstanding principal, loan loss provision, the action plan and present status of the account which includes the progress diary enumerating the series of events that took place covering the account planning period and financial/operation analysis. The same APR is referenced for the corresponding BSP classification.

Monthly classified accounts are also being prepared by the Credit Administration Department (CAD) for senior management guidance covering the list of classified accounts and its corresponding loan loss provision.

The Head of the ICMG reports regularly to the Credit Committee to discuss the corporate credit risk profile including but not limited to the past due loan, non-performing loan, concentration risk, action plan for each non performing account and their corresponding timeline.

On the Retail Banking side, the RCMG is responsible in managing retail credit risk that mainly arises from granting of loans for the personal consumption of the individual borrowers such as public loans, salary loans for employees of accredited corporate entities and housing or mortgage loans. In addition, the RCMG is also responsible for managing credit risk of small and medium enterprise (SME) loans starting in October 2015 considering the similarity of SME loans and retail credits in terms of program lending-based credit risk underwriting and portfolio risk management process.

For retail loans, risk is firstly assessed and managed by the design of product or testing programs. For public personal loans, the risk assessment is accomplished through the use of Application and Behavioral credit scorecards. For corporate personal loans and mortgage/housing loans, the risk assessment is performed through the implementation of risk caps (program and deviation) and execution of a risk criteria review process (rule-based criterion or eligibility criteria). Aside from the above, risk assessment through due diligence and comprehensive underwriting review of financial statements is conducted for SME loans.

The Bank's internal risk rating for its retail accounts, referred to as Credit Risk Rating (CRR), ranges from CRR 1 to 20, with CRR 1 being the lowest credit risk.

In line with this approach, risk identification is performed through the following process workflow stages:

Process	Public Personal Loan	Corporate Personal Loan	Housing/ Mortgage Loan	SME Loan
Pre-screening	Υ	Υ	Υ	Υ
Duplicate check	Υ	Υ	Υ	Y
Policy check	Υ	Υ	Υ	Y
Credit Risk Scoring/Rating	Y	Ν	Y	Y
Credit verification	Υ	Υ	Υ	Υ
Appraisal	N	N	Υ	Υ
Deviation review	Υ	Υ	Υ	Υ
Approval/reject	Υ	Υ	Υ	Υ

In the execution of the above processes, functional segregation of processor, evaluator and approver responsibilities are observed. Approving authorities are granted based on qualification, competence and capacity. The approving authority hierarchy follows retail core credit policy set by the Parent Bank such that credit delegation is defined by credit officer and senior credit officer levels, by amounts and by risk level in evaluation and approval of its loan applications by product.

In addition, the RCMG also handles retail loan portfolio performance reviews and reporting through preparation of monthly asset quality reports, loan portfolio analyses and scorecard performance monitoring reports. Included in these periodic reports are through-the-door analysis, delinquency performance review, industry performance review, risk classification review, scorecard measurement benchmarks review as well as tracking of risk caps.

The Bank had carried out sensitivity analysis of key economic variables used in forward-looking measurement. As at December 31, 2021 and 2020, when the key economic indicators move up or down by 10%, the Bank estimated that the ECL will not change by 5%.

These functions enable the RCMG in the crafting of new and enhanced credit policies and processes that mitigates possible losses due to retail credit risk.

In response to COVID-19, the Bank extended debt relief to borrowers in compliance with regulatory requirements. To mitigate the risk, the Bank implemented strict monitoring of accounts and preemptively included accounts in the early warning list (EW1a COVID).

This enabled the Bank to observe accounts which have availed of the debt relief programs or showed signs of weakening of financial conditions. These accounts were then re-assessed and timely classified thereby allowing the Bank to determine specific provisions for classified accounts based on probability of collection assumptions which takes into account the circumstances of the borrower, the industry, and the economy as a whole.

## Counterparty Credit Risk

Credit risk with respect to investment securities, including derivative financial instruments, is generally limited to the carrying values (positive fair values for derivatives) reported in the statements of financial position. Counterparty credit risk could arise as a result of counterparties defaulting on their obligations to pay the principal and coupon (positive fair value at maturity for derivatives).

Maximum Exposure to Credit Risk after Collateral Held or Other Credit Enhancements

An analysis of the maximum exposure to credit risk after taking into account any, collateral held or other credit enhancements is shown below (in thousands):

		2021

		50,292,804	7,342,985	42,949,819	7,342,985
Credit Risk Exposures Relating to Off-balance Sheet Items are as Follows Credit commitments and other credit					
related liabilities	29	1,901,908	<u>-</u>	1,901,908	<u>-</u>
Total		P52,194,712	P7,342,985	P44,851,727	P7,342,985

<sup>\*</sup>Includes returned checks and other cash items and rental deposit.

Other receivables include loans granted to employees, sales contract receivable and due from Integrated Credit and Corporate Services (ICCS) and Philippine Veterans Bank (PVB). Other assets in the table above exclude non-financial assets such as computer software costs - net, prepaid expenses and other charges, net retirement asset and miscellaneous.

Contingent liabilities consist primarily of standby letters of credit, while commitments pertain to undrawn loan commitments for which the Bank is contractually obliged to extend once the borrowers draw on such commitments.

For financial instruments that are recorded at fair value, the amounts shown above represent the current credit risk exposure but not the credit risk that could arise in the future as a result of changes in values.

For financial instruments that are measured at amortized cost, the carrying amount represents the maximum exposure to credit risk as at December 31, 2021 and 2020.

The table below sets out the principal types of collateral held against loans and receivables (in thousands):

	2021	2020
Property	P3,746,785	P4,049,854
Cash	2,785,667	2,774,007
Others	18,350	519,124
	P6,550,802	P7,342,985

### Credit-related Commitments Risks

The Bank extends guarantees, commitment facilities, letters of credit and other off-balance sheet credit-related commitments that may require the Bank to make payments on the borrower's behalf. Such transactions expose the Bank to credit risks similar to loans and receivables and are monitored and managed by the Bank using the same credit risk control and management processes and policies.

Some consumer asset products under this nature are covered by documentations and drafts that are reviewed and prepared by Bank's lawyers and compliance officers to ensure that it is within acceptable risk and standards. Guarantees carry clauses that are all with reference to applicable laws, regulations, and approved guidelines and policies with some carrying expiry periods or validity to ensure that it is time bound and flexible enough to control losses from changes in external environment to include, among others, changing market conditions such as interest rates or pricing, and monetary policies.

Further details on these commitments are disclosed in Note 29.

## Risk Concentrations of the Maximum Exposure to Credit Risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Bank's performance to developments affecting a particular industry or geographic location.

Concentrations of risk are managed by counterparty and by industry sector.

An industry sector analysis of both the on- and off-balance sheet exposures, before taking into account collateral held or other credit enhancements, is as follows (in thousands):

	2021							
			•		Off-Bal	ance	•

<sup>\*</sup>Others include the following sectors - Other community, social and personal services, private household, hotel and restaurant, education, mining and quarrying, and health and social work.

Other financial assets include due from BSP, due from other banks, interbank loans receivable and non-equity investment securities.

The Bank generally considers concentration risk as excessive when the ratio of a particular segment's exposure (e.g., this may be an industry demographic attribute, or a program) to the total portfolio exceeds predetermined limits.

The BSP considers that credit concentration risk exists when the total loan exposure to a particular industry or economic sector exceeds 30.0% of the total loan portfolio or 10.0% of Tier 1 capital.

As at December 31, 2021, 10% of Tier 1 capital amounted to P993.8 million and the table above includes the 7 groups exceeding this level as of that date. As at December 31, 2020, 10% of Tier I capital amounted to P1.0 billion and the table above includes 6 groups exceeding this level as of that date. The Credit Committee constantly monitors the credit concentration risk of the Bank.

To manage the Bank's concentration of credit as to industry/economic sector, three (3) industry categories has been established with specific credit exposure limits. The inclusion of Bankwide industry concentration limit enables the Bank to take a more proactive approach, in order to prevent the Bank from unknowingly overextending loans to identified industries.

- a. Monitored risk category consists of industries (e.g. agriculture, mining and quarrying, construction, land/water/air transport, real estate activities, education, etc) that are deemed to be of high risk. The combined credit exposures of industries tagged under "Monitored risk category" shall not exceed the 100.0% of the Bank's networth limit.
- b. Restricted category consists of industries (e.g. manufacturing of weapons and ammunition, night clubs, public administration and defense, gambling and betting activities, etc.) that, given the nature and risk, are considered as higher risk than the Monitored risk category, thus, extending credit facilities to this category is not allowed.
- c. Standard category are those industries, not tagged under monitored risk or restricted categories, are considered "low risk" and shall have no limit on credit exposures.

CATEGORY	CREDIT EXPOSURE LIMIT
Standard	No limit per industry
Monitored risk	Limited to 100.0% of the Bank's net worth
Restricted	No exposures allowed

The Bank will continue to observe the regulatory limit of 30.0% of Total Loan Portfolio (TLP) excluding interbank loans receivable or 10.0% of Tier 1 capital.

The Bank manages concentration risk by gearing policies towards regular monitoring and periodic review of the set limits per predetermined segments. Annual updates to the policy include a review of the industry concentration limits and other segmental concentrations within the portfolio. Business intelligence reports sourced from internal and external parties are used as guide in setting up the limits annually. Industries covered under the industry concentration limits are similarly reviewed to update classifications and coverage.

## Credit Quality Per Class of Financial Assets

The credit quality of financial assets is monitored and managed using external and internal ratings. The credit quality of investment securities is generally monitored by reference to the internal ratings except otherwise when given tools do not apply to the issuing entity, external ratings provided by accredited external credit assessment rating institutions are used.

In cognizance of the requirements of the BSP, the ORR was implemented to all applicable corporate accounts of the IBG of the Bank. The objectives of the system are the following:

- (a) to have a standard system of credit rating;
- (b) to be able to objectively quantify the credit quality of an account;
- (c) to have a "benchmark" for credit/loan review; and
- (d) to train and instill discipline in assessing credit risk among account officers and credit officers.

The rating system is an amalgamation of quantitative and qualitative factors. The quantitative factors include, among others, financial indicators on liquidity, leverage and cash flows. The qualitative factors include among others the quality of management, market standing, reliability of financial statements, etc.

The ORR of each account is recorded together with other information such as the date the ORR is conducted, and the account officer who conducted the ORR. These data combined with other historical and future ORR data on the loan portfolio are used to estimate the loan default rates associated with each rating grade.

It is the Bank's policy to maintain accurate and consistent risk ratings across the credit portfolio. This facilitates focused management of major potential risk and the comparison of credit exposures across all lines of business, demographic and products.

The table below shows the credit risk rating comprising each category of credit quality and the equivalent external grades for each internal credit risk rating applied for comparison purposes only.

	ORR Internal Credit Risk Ratings (Institutional Banking)	Moody's Equivalent Grades**
Investment grade	0	Applicable to only the central government, central bank and their agencies of the Republic of China and sovereign states with S&P medium- and long-term ratings at AA- or higher, or multilateral development banks with risk weights at 0.0% approved by the Basel Committee on Banking Supervision.

<sup>\*</sup>already equivalent to substandard status

Investment grade (ORR 0-5) financial assets are judged to have upper medium to highest quality, with low to moderate credit risk. It includes:

- government, central bank, central government or their related bureaus and entities whose S&P ratings are higher than or equal to AA-;
- multilateral development banks risk weighted at 0.0% by Basel Committee;
- superior multinational banks;
- top multinational corporations;
- above average to exceptionally high quality jumbo firms; and
- exceptionally good middle market and small and medium enterprises.

Sub-Investment grades (ORR 6-9) financial assets are judged to have speculative elements are subject to substantial credit risk. It includes:

- below to typically above average jumbo firms,
- below average to very high quality middle market firms, and
- average to very high quality small and medium enterprises.

High Risk Grades (ORR 10-13) financial assets are considered speculative or judged to be of poor standing and are subject to high to very high credit risk. It represents counterparties that include poor, weak, far below average jumbo firms, middle market, and small and medium enterprises. Obligors demonstrating initial warning signals and credit concerns also fall under this category.

Watchlist to default grade financial assets are considered highly speculative to lowest-rated class, with some to little prospect of recovery of principal and interest. These are classified loans by the BSP.

<sup>\*\*</sup>equivalent Standard and Poor's ratings apply

For Retail Banking, credit quality is monitored using internal ratings. For public personal loans, risk differentiation or risk rating is established by scorecard models. Scorecard variables are assigned scores based on their discriminative power to differentiate good-bad factors. Higher scores assigned to a loan applicant denote better risk and therefore lower propensity to default. For corporate personal loans, the employer's repayment management and performance within its defined default ratio caps is salient to measuring risk.

For mortgage portfolio, risk differentiation is tied to income classification. Performance review of the mortgage portfolio identifies income as a good risk indicator, such that, higher income segment denotes better risk as manifested in the risk-ranking of customers by income bands.

For SME loans, the Bank's internal credit rating is composed of a numeric rating which provides an assessment of the creditworthiness and outlook of the account. According to different size of loan amount, either Credit Scoring Rating (CSR) or ORR is used to measure the risk level. CSR is designed for the evaluation of lower loan amount, and considers factors such as character and management assessment, business consideration and conditions, and financial performance and repayment indicators to differentiate the risk.

The table below shows the credit score rating comprising each category of credit quality.

CSR	Credit Scoring Rating	Credit Quality Description
57 - 62	1	Excellent
51 - 56	2	Strong
45 - 50	3	Good
39 - 44	4	Satisfactory
31 - 38	5	Acceptable
Below 31	6	Risky/Watchlist
	7	Special Mention
	8	Substandard
	9	Doubtful
	10	Loss

For SME loans with higher loan amount, ORR, the model used by Institutional Banking is adopted to adequately measure the risk.

The credit quality of trading and financial investment securities is generally monitored through the internal and external ratings which are provided by eligible external credit rating agencies.

### Impairment Assessment

With the implementation of PFRS 9 alongside BSP Circular 1011, the Bank adopted the ECL methodology to estimate provisions for loans and other credit accommodations.

The ECL model considers losses from initial recognition and at each reporting date. Three stages of impairment are used for the entire financial asset that serves as an objective basis in determining significant increase in credit risk (SIICR).

The ECL model factors in forward-looking macro-economic risk inputs (common to both Corporate and Retail Credits) such as Gross Domestic Product (GDP), Price to Earnings Ratio (PER) and Unemployment Rate (UR). The ECL model parameters are updated on an annual basis. Adjustments are based on forecasted performance of next 3 years, benchmarked to the past 5-year average. PD parameters can be adjusted based on data from reliable source agencies (e.g., Moody's, IMF).

In order to capture the impact of the pandemic on the Bank's loan portfolio, the forward-looking model implemented in 2021 takes into account the impact of the macro-economic variables on a country perspective and not on a portfolio level, thus, the model was changed to a scenario driven approach (good, baseline, bad scenarios). This considers GDP, UR and PER (derived from short-term interest rate (STIR), and US long-term interest rate (LTIR) spread) as these macro-economic variables are highly correlated to the Bank's default rate.

The table below lists the macroeconomic assumptions used in the bad, baseline, and good scenarios. The assumptions represent the absolute percentage for GDP change, IR, PER, and UR.

	Ma	2021 cro-economic Factors	·
Condition	Gross Domestic Product (GDP) Change	Price to Earnings Ratio (PER)	Unemployment Rate (UR)
Bad	3.37%	22.08%	8.02%
Baseline	5.60%	22.08%	7.94%
Good	6.31%	22.08%	6.75%
<u>.</u>		2020	
	Ma	acro-economic Factors	
Condition	Gross Domestic Product (GDP) Change	Interest Rate (IR)	Unemployment Rate (UR)
Bad	4.16%	4.69%	9.36%
Baseline	5.60%	2.64%	7.06%
Good	6.66%	1.53%	6.26%

The impact of COVID-19 has been incorporated in the 2021 update of parameters where the 5-year baseline period covers third quarter of 2015 to second quarter of 2020 while the 3-year forecast period includes 2021, 2022, and 2023. This was implemented starting with the January 2021 provisions.

## Definition of Stages

### Institutional Banking

	DETERIORATION IN CREDIT QUALITY						
	Stage 1	Stage 2	Stage 3				
Impairment Stage	No significant increase in credit risk	Significant increase in credit risk	Credit impaired				
Recognition of Expected Credit Losses	Collective 12-month ECL when credit risk is low or risk of default has not increased significantly	Collective or Individual Lifetime ECL when credit quality deteriorates significantly but not credit impaired	Individual Lifetime ECL when credit losses are incurred or asset is credit impaired				
Staging Criteria*	Early Warning (EW) tagging = EW1a	Collective = ∆Annualized PD variance >=2%	EW tagging = EW3 (ORR 15 to 17)				
	ORR 1 to 13 (normal)	Individual = EW tagging = EWb or EW2 (ORR 14)					

<sup>\*</sup>Based on the updated Guideline on Collective Impairment made effective on December 31, 2021, Stage 1 for EW is EW1, Stage 2 is EW2 and Stage 3 is NPL

The qualitative and quantitative definitions of stages for ECL assessment above apply to institutional banking items which include loans and advances, accounts receivables, unused portion of committed and uncommitted facilities, off-balance sheet credit commitments and contingencies, and to treasury items which include interbank loans receivables, debt investment securities at FVOCI and investment securities at amortized cost.

Collective impairment is applied for assets classified into Stage 1. Assets classified under Stage 2 (with SIICR) are assessed either for collective or individual impairment.

Under the Stage 2 concept, lifetime expected credit losses shall be recognized when there are significant increases in credit risk since initial recognition. Expected credit losses are updated at each reporting date for new information and changes in expectations even if there has not been a significant increase in credit risk.

The three variables under the ECL structure: PD, LGD, and EAD assume the following for the ECL computation:

		PD 2	X LGD	X EAD = ECL
Collective	Stage 1	1-Year PD	1-Discounted Recovery	<ul> <li>Principal</li> <li>Accrued Interest</li> <li>Contingencies</li> <li>Unused FAC</li> </ul>
Col	Stage 2.1 SIICR	Lifetime PD	1-Discounted Recovery	<ul> <li>Principal</li> <li>Accrued Interest</li> <li>Contingencies</li> <li>Unused FAC</li> </ul>
idual	Stage 2.2 SIICR	100%	Individual Estimation	Individual Lifetime Estimation ECL
Individua	Stage 3 Objective Impairment	100%	Individual Estimation	Individual Lifetime Estimation ECL

Stage 3 classified assets will be individually assessed under the Individual Impairment methodology.

Similar to previous model definitions, individual impairment is recognized when (1) an objective evidence of a specific loss event has been observed and (2) the financial asset's carrying value exceeds the present value of the asset's estimated cash flow.

## Retail Banking

For Retail, impairment losses are recognized depending on type of impairment applicable, as follows:

# a. Specific Impairment

Specific provision shall be applied to accounts with objective evidence that a specific impairment is applicable (e.g., behavior is different from the rest of the portfolio, etc.). Such accounts will no longer be assessed as part of collective impairment. Qualifications are defined on a per product basis, and are reflected accordingly in respective Product Guidelines.

Depending on applicability, specifically impaired accounts shall be subject to either: (1) full provisioning (100% provision), or (2) discounting of cash flow methodology (with provision less than 100% of OB).

### b. Collective Impairment

All retail loans accounts not subject to specific impairment shall be subject to collective impairment.

Collectively impaired accounts shall be subject to the ECL Model applicable to Retail Loans portfolio. ECL Model is a function of the PD, LGD, and EAD computed as follows:

## $ECL = PD \times LGD \times EAD$

Similar to corporate loans, three stages of impairment are used for the entire financial asset of retail loans that serve as an objective basis in determining significant increase in credit risk as shown below. Further, one-year ECL is applied among exposures with no significant increase in credit risk (stage 1); otherwise, lifetime ECL shall be applied.

Definition of stages for retail loans are as follows:

	Retail Credit Stage Definition							
	Impairment Stage	Staging Criteria	Loss Period					
Stage 1	No significant increase in credit risk	Low credit risk	12- month ECL					
Stage 2	Significant increase in credit risk	<ul> <li>Minimum requirement: 31 to 90 days past due</li> <li>High risk indicator:         <ul> <li>Quantitative</li> <li>∆PD&gt;(product interest -funding cost)</li> <li>PD equivalent to overdue (CRR of 20)</li> </ul> </li> <li>Qualitative         <ul> <li>OLTV&gt;90.0% and ∆CLTV&gt;10.0%</li> <li>OLTV&lt;=90.0% and CLTV&gt;100.0%</li> </ul> </li> <li>Stage 2 standard         <ul> <li>hit minimum requirement; or</li> <li>hit 2 high risk indicators</li> </ul> </li> </ul>	Lifetime ECL					
Stage 3	Credit impaired	<ul> <li>91+ days past due</li> <li>items in litigation</li> <li>Charge-off unsecured accounts</li> <li>Restructured</li> <li>Covid 19 Rescheduled Stage 3 without 6 months consecutive payments</li> </ul>	Lifetime ECL					

OLTV is the original loan-to-value. CLTV is the current loan-to-value.

To test the sensitivity of the ECL variables to macro-economic factors for both corporate and retail loans the forward-looking methodology is adopted where:

- probability of default uses the Bank's internal default data adjusted by macroeconomic factors such as GDP growth, interest and unemployment rate; and
- loss given default (LGD) applies the two-stage adjustment approach.

There is a rebuttable presumption that default does not occur even when the financial asset is 90 days past due as defined above provided that the Bank has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

For credit losses from other financial assets not assessed using the ECL model, the Bank uses a simplified approach where loss allowance always equals to lifetime ECL.

The tables below show the credit quality by class of the Bank's financial assets, including loans and receivables (gross of loss allowance and unearned interest discount, in thousands):

### Corporate Loans

For corporate loans, obligors are considered non-performing even without any missed contractual payments once there are objective indicators of impairment (per MORB Section 304). However, for revolving lines, all other loan accounts of an obligor are considered non-performing if any principal and/or interest remains unpaid for more than thirty (30) days from contractual due date while for term loans, all other loan accounts are considered non-performing if any principal and/or interest remains unpaid in accordance with the following schedule:

Mode of Payment	Classification to NPL
Monthly	91 days after 1 <sup>st</sup> installment in arrears
Quarterly	31 days after 1 <sup>st</sup> installment in arrears
Semi-annual	31 days after 1 <sup>st</sup> installment in arrears

### Retail Loans

In the case of retail loans, the total outstanding balance thereof shall be considered nonperforming if any principal/interest are unpaid for more than ninety (90) days from contractual due date for Personal Loans and Mortgage Loans, or if any principal/interest are unpaid for more than thirty (30) days from contractual due date for retail SME.

For both corporate and retail loans, non-performing loans, investments, receivables, or any financial asset, shall remain classified as such until: (a) there is sufficient evidence to support that full collection of principal and interests is probable and payments of interest and/or principal are received for at least 6 months; or (b) written-off.

The table below shows the aging analysis of past due but not specifically impaired loans and discounts by class (in thousands).

		2021			2020	
	Up to	31 to 90		Up to	31 to 90	
	30 Days	Days	Total	30 Days	Days	Total
Loans and Discounts						
Institutional banking	P50,952	P259,743	P310,695	P218,003	Р-	P218,003
Retail banking	-	91,317	91,317	473	145,075	145,548
Mortgage banking	-	53,567	53,567	-	41,747	41,747
Small business loans	-	-	-	-	-	-
Other receivables	-	-	-	-	-	-
Accrued interest receivable	353	16,114	16,467	762	5,718	6,480
Total	P51,305	P420,741	P472,046	P219,238	P192,540	P411,778

The above aging analysis already excludes accounts that have been assessed to be specifically impaired.

For Institutional Banking, loan accounts or receivables shall be considered past due when any principal and/or interest or installment due, or portions of which, are not paid on the seventh (7th) day from contractual due date in which case, the total outstanding balance of the loan account or receivable shall be considered as past due. As such, a cure period based on verifiable collection experience and reasonable judgment that support tolerance of occasional payment delays of up to six (6) days is given to provide leeway for obligors to work on their late payment without being considered as past due. Said cure period, however, shall not prevent the timely adverse classification of an account that has already exhibited material credit weakness/es. The table below further illustrates and differentiates each status on a per product basis (for purposes of these illustrations, "dpd" shall mean "days past due" in calendar days):

Normal Account		Corporate Loans: (1) Revolving Lines (2) Term Loans (IBG)	Trade Loans (IBG)	IPF (IBG)	Domestic Bills Purchase (IBG)	<ul><li>Revolving Lines</li><li>Term Loans (RBG-SME)</li></ul>
	Current	0 dpd	0 dpd	0 dpd	0 dpd	0 dpd
Loan	Cure Period					
Status	(Overdue)	1-6 dpd	1-6 dpd	1-6 dpd	1-6 dpd	1-6 dpd
	Past Due	≥ 7 dpd	≥ 7 dpd	≥ 7 dpd	≥ 7 dpd	≥ 7 dpd

The detailed information with respect to the Bank's loss allowance on loans and receivables is disclosed in Note 12.

Included in specifically impaired financial assets are the Bank's restructured loan receivables. The table below shows the carrying amounts of restructured loan receivables by class (in thousands):

	2021	2020
Institutional banking:		
Performing	P799,518	Р-
Non-performing	25,161	136,045
Personal loans:		
Performing	-	-
Non-performing	21,528	17,362
Mortgage banking:		
Non-performing	-	-
Performing	-	-
	P846,207	P153,407

Restructured performing and non-performing loans (NPLs) of the Bank, net of specific impairment allowances as at December 31, 2021 and 2020 amounted to P846.2 million and P153.4 million, respectively.

# Non-performing Loans

The Bank monitors its NPLs ratio as part of its credit risk monitoring and reporting to the BSP. Shown below are the Bank's NPL:

	2021	2020
Secured	P115,704,893	P118,472,659
Unsecured	737,258,340	952,987,270
	P852,963,233	P1,071,459,929

Collateral and Credit Risk Mitigation Techniques

The amount and type of collateral required depends on the assessment of the credit risk of the borrower or counterparty. The Bank follows guidelines on the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained for loans and receivables are as follows:

- For Institutional Lending cash, guarantees, securities, physical collaterals (e.g., real estate, chattels, inventory, etc.); and
- For Retail Lending cash, securities, mortgages on residential and commercial properties.

Management regularly monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement. The existing market value of collateral is considered during the review of the adequacy of the loss allowance. For unsecured lending, the Bank performs comprehensive credit evaluation process before each loan is approved.

The following table shows information relating to loans and receivables (at gross amounts) broken down into secured and unsecured, with types of collateral being shown for the secured portion:

	2021			2020
	Amount % Amoun			
Secured by:				
Hold-out on deposits	P2,775,703,224	8.6	P2,858,537,434	8.9
Real estate	2,737,734,818	8.4	3,190,820,209	9.9
Mortgage trust indenture	497,335,005	1.5	492,335,005	1.5
Government bonds	18,349,650	0.1	28,333,570	0.1
Chattel	40,452,496	0.1	58,287,348	0.2
Stand by letter of credit (LC)	9,995,804	0.1	9,412,508	0.1
	6,079,570,997	18.8	6,637,726,074	20.7
Unsecured	26,333,375,761	81.2	25,472,811,964	79.3
	P32,412,946,758	100.0	P32,110,538,038	100.0

As at December 31, 2021 and 2020, the fair values of real estate collaterals held for past due and impaired loans and discounts, amounted to P747.7 million and P498.8 million, respectively. There were no other types of collaterals held during 2021 and 2020.

Fair values were determined by the Bank's internal appraisers, or by accredited external appraisers. Normally, there are three approaches available to the Bank in arriving at the fair value of collateral (i.e., real estate and chattel). These are the cost approach, market data approach and income approach.

The cost approach takes into consideration the current cost of reproducing a property less depreciation from all sources (i.e., deterioration, functional and economic obsolescence). On the other hand, the market data approach takes into consideration the value indicated by recent sales of comparable properties in the market. Lastly, income approach takes into consideration the value which the property's net earning power will support based upon a capitalization of net income.

The Bank utilizes all three approaches to determine the fair values of the collateral and chooses the appropriate valuation approach on a case-to-case basis.

As at December 31, 2021 and 2020, no collaterals were subjected to repurchase and reverse repurchase agreements with BSP.

### Liquidity Risk

Liquidity risk is the risk of loss to earnings or capital due to the inability to meet funding requirements within a reasonable period of time at a reasonable price.

The Bank applies a liquidity risk management strategy of maintaining sufficient cash and marketable securities, ensuring the availability of funding through an adequate amount of committed credit facilities and having the ability to close out market positions.

The MRMD is responsible in managing liquidity risk. The MRMD is independent of the risk-taking unit and in charge of formulating Asset and Liability Management Policy and establishing implementation guidelines as needed; developing the methods of identification, measurement, monitoring and reporting of risk and pushing for the implementation; and studying asset and liability management related issues.

In view of the COVID-19 and its impact to both on a market-wide and institution specific liquidity, the Bank instituted the following pre-emptive controls:

- COVID-19 monitoring assessment report that covers the following:
  - COVID-19 Development & Government Control Measures
  - Economic Changes
  - Government Relief Measures
  - Internal Assessment for Liquidity and Credit Risk and Action Plan
  - Other Relevant Information, if any.
- Two weeks assets and liabilities cash flow projection and its corresponding compliance to internal liquidity ratios (LDR, LCR, NSFR) being discussed in ALCO

The table below shows the maturity profile of the Bank's financial liabilities, based on undiscounted contractual cash flows (in millions):

	2021

<sup>\*</sup>Excludes retirement liability, accrued taxes and other non-financial accruals.

The above maturity table shows the undiscounted cash flows whose expected maturities are not the same as the asset-liability gap. The Bank does not expect all time depositors to require repayment on the earliest date the Bank could be required to pay. Further, the maturity table does not reflect expected cash flows based on deposit behavior and historical retention rate.

Accrued interest and other expenses exclude taxes, payroll-related balances and other non-financial items. Other liabilities exclude non-financial liabilities such as withholding taxes payable.

Financial liabilities at FVTPL pertain to the notional amounts of the outstanding forward contract as at year end.

The table below shows the contractual expiry by maturity of the Bank's off-balance sheet commitments (in thousands).

			2	021		
	Up to 1 Month	1 to 3 Months	3 to 6 Months	6 to 12 Months	Beyond 1 Year	Total

Total	P109.211	P1.091.850	P402.994	P9.715	P288.138	P1.901.908

As required by the BSP, the Bank sets aside funds in due from BSP as liquidity reserves. These funds are withdrawable on demand and are used as financial assets held for managing liquidity risk (see Note 13).

<sup>\*\*</sup> Excludes withholding taxes payable, provision liability and lease liabilities.

To ensure that adequate liquidity is maintained at all times, the Bank's Liquidity and Balance Sheet Management Unit diversifies funding sources and evaluates cash flows and future funding needs on a daily basis. This involves projecting the Bank's liquidity position under current market conditions. MRMD, in close coordination with Treasury, also conduct liquidity stress testing to evaluate the potential effects of a set of specified changes in liquidity risk factors on the Bank's financial position under a severe but plausible scenario to assist the Board and senior management in decision making.

In addition to its core deposit base, the Bank maintains a portfolio of marketable assets that can be readily liquidated in the event of an unforeseen interruption of cash flows. Additional funding may be secured from the interbank market by tapping the Bank's credit facilities. Further, the Bank maintains with the BSP statutory reserves on its non-FCDU deposits.

Liquidity risk control entails primarily the setting of risk limits, which define management's tolerance for liquidity risk. Specifically, limits are set on the maximum cumulative outflow and level of interbank borrowings. Liquidity risk is also monitored through the use of liquidity ratios. One of the more important liquidity ratios is the ratio of net liquid assets to total deposits. Net liquid assets consist of the sum of cash, due from BSP, due from other banks, interbank loans receivable, financial assets at FVTPL, financial assets at FVOCI, and investment securities at amortized cost with remaining maturities of less than one month, less derivative liabilities and interbank borrowings. The ratios for the year 2021 and 2020 were as follows:

	2021	2020
December 31	29.6%	40.0%
Average during the year	34.6%	30.8%
Highest	40.7%	40.0%
Lowest	29.6%	18.6%

The analysis on net liquidity using undiscounted contractual cash flows (in thousands) is as follows:

	2021									
	Carrying Value	Up to 1 Month	1 to 3 Months	3 to 6 Months	6 to 12 Months	2 Years	3 Years	4 Years	Greater than 5 Years	Total
Assets Financial assets at amortized cost:

# Liquidity Coverage Ratio (LCR)

The ratios for 2021 and 2020 are as follows:

	2021	2020
High-quality liquid assets	P18,145,905,593	P16,250,790,540
Net cash outflows	13,646,220,393	8,486,169,321
Liquidity coverage ratio	132.97%	191.50%

High-quality liquid assets consist of cash or assets that can be converted into cash at little or no loss of value in private markets. LCR is being measured in accordance with BSP Circular 905 and 996. The LCR in single currency shall not be less than the minimum required level of 100%.

During the year 2021 and 2020, the Bank is compliant with the LCR requirements.

# Net Stable Funding Ratio (NSFR)

The ratios for the years 2021 and 2020 are as follows:

	2021	2020
Available stable funding (ASF)	P33,914,351,204	P34,197,227,264
Required stable funding (RSF)	25,892,649,932	26,084,060,752
Ratio of ASF to RSF	130.98%	131.10%

NSFR is being measured in accordance with BSP Circular 1007. The covered bank shall maintain a NSFR of at least 100% at all times.

During the year 2021 and 2020, the Bank is compliant with the NSFR requirements.

<sup>\*</sup>Includes returned checks and other cash items and rent deposit.
\*\*Excludes retirement liability, accrued taxes and other non-financial accruals.
\*\*\* Excludes withholding taxes payable and provision liability.

#### Market Risk

Market risk is the risk that the Bank's earnings or capital or its ability to meet business objectives will be adversely affected by changes in the level, volatility or correlation of market risk factors, such as interest rates (including credit spread), foreign exchange, equities and commodities. The Bank's market risk originates from its holdings in its foreign exchange instruments, debt securities, and derivatives.

MRMD is responsible in managing market risk. MRMD performs the second line of defense. It is responsible for designing and executing appropriate identification, measurement, monitoring, control and reporting of market risk; and developing the market risk management policy and relevant procedures; and monitoring and reporting overall market risk profile and limit utilization.

The Bank classifies exposures to market risk into either trading or non-trading portfolios.

It is exposed to the potential loss in its trading portfolio because the values of its trading positions are sensitive to changes in the market prices and rates. Similarly, it is also exposed to market risk in its non-trading portfolio.

The Bank sets its market risk limits by considering market predictions, capital and annual budgets. It takes into account the correlation among different market risk factors to estimate potential loss using Value-at-Risk (VaR) approach and also determines if this potential loss is appropriate in light of the size of its annual budget. The Bank also determines its market risk limits by considering the experience of its risk-taking units and its risk appetite.

The Bank utilizes market risk factor sensitivities as a tool to manage market risk. Market risk factor sensitivities of a position are defined as a change in the value of a position caused by a unit shift in a given market factor. Market risk factor sensitivities include interest rate and foreign exchange factor sensitivities. The calculation of the factor sensitivities is obtained by measuring the effect of a one (1) unit increase in current interest rates or current foreign exchange rates upon various product types.

The Bank uses the VaR methodology in managing probable losses arising from potential changes in the market price of underlying assets. In deriving the VaR, the Bank employs the historical simulation approach, which estimates potential losses by assuming that future price movements will mimic historical trends.

The VaR methodology is a statistical estimate based on a historical simulation approach and generated from a historical database. It is important to note that VaR is only an estimate of maximum potential loss given a level of confidence. It can be based on historical data, which may not necessarily replicate itself in the future, or be computed from randomly generated numbers. As such, VaR cannot predict losses with 100.0% confidence.

The VaR will be based on a 1-day holding period, a level of confidence of 99.0% and a time series equivalent to 500 days (or two years). The level of confidence can be adjusted in response to heightened volatility in the market.

The following are the VaR statistics (in millions):

		2021			
	Foreign	Fixed	Total		
	Exchange	Income	VaR		
December 31	P2.354	P4.115	P5.125		
Average daily	4.879	4.604	7.399		
Highest	13.222	14.723	17.077		
Lowest	0.575	0.023	1.310		

		2020				
	Foreign	Fixed	Total			
	Exchange	Income	VaR			
December 31	P1.652	P3.264	P3.574			
Average daily	5.108	6.388	9.366			
Highest	11.518	23.471	24.408			
Lowest	0.469	0.021	1.109			

The fixed income column comprises both Peso and Dollar bonds.

The highs and lows of the total portfolio may not equal the sum of the individual components as the highs and lows of the individual portfolios may have occurred on different trading days. The VaR for foreign exchange is the foreign exchange risk throughout the Bank. The Bank, when aggregating the foreign exchange VaR and interest VaR, considers the correlation effects between the two risks. Annually, the BOD sets the VaR limit for the trading books to which compliance is reviewed daily by Risk Management.

The model's validity is assessed daily via back-testing. The back testing is an ex-post comparison of the VaR generated by the model against actual daily changes in portfolio value over longer periods of time. Based on 99.0% coverage with 250 observations, the number of times that the daily losses exceed the VaR estimates is the number of "exceptions". The higher the exception number suggests a more significant problem with the quality or accuracy of the model, and hence more regulatory capital is required.

Market risk positions are also subjected to daily stress tests to ensure that the Bank could withstand an extreme event. Historical events considered for stress testing represent crises - political or economic - which impacted greatly and adversely the financial markets.

In view of COVID-19 and its impact to market-wide prices and volatilities, the Bank took a risk aversion position to preemptively manage possible price uncertainties brought about by changes in quarantine classification and sudden limitation in economic activities. Likewise, risk limits for VaR and Management Action Trigger (MAT) took into consideration the impact of pandemic in market volatilities.

## Equity Price Risk

Equity price risk is the risk that the fair values of equity investments decrease as a result of changes in the levels of equity indices and the value of individual stocks (whether traded or not). The Bank has no significant exposure to equity price risk.

### Interest Rate Risk

The table below summarizes the Bank's exposure to interest rate risk as at December 31, 2021 and 2020.

HFT Summary	2021	2020
USD (PVBP) PHP	(P1,758)	(P190,099)
PHP (PVBP) PHP	(262,528)	(208,979)

### Foreign Exchange Risk

The table below summarizes the Bank's exposure to foreign exchange risk as of December 31, 2021 and 2020. Included in the tables are the Bank's assets and liabilities at carrying amounts, categorized by currency (in thousands):

	2021			2020		
	USD	Others	Total	USD	Others	Total
Assets						
Financial assets at amortized cost:						
Cash and other cash items	P142,758	P12,789	P155,547	P160,172	P13,304	P173,476

Accrued interest and other	,	•	•			
expenses	1,386	-	1,386	4,177	-	4,177
Other liabilities	519,673	(13,086)	506,587	160,714	1,079	161,793
Financial liabilities at FVTPL	126,239		126,239	231,792	· -	231,792
	14,641,375	105,845	14,747,220	14,563,826	125,990	14,689,816
Net Exposure	P231,418	P46,462	P277,880	P449,169	P28,125	P477,294

The table below indicates the third currencies which the FCDU of the Bank has significant exposure to as at December 31, 2021 and 2020 based on its foreign currency denominated assets and liabilities and its forecasted cash flows. The analysis calculates the effect of a reasonably possible movement of other currency rates against the USD, with all other variables held constant on the results of operations (due to the fair value of currency sensitive monetary assets and liabilities) and OCI. A negative amount in the table reflects a potential net reduction of net income or OCI while positive amount reflects a net potential increase. Change in currency rates are based on the historical movements of each currency for the same period:

	Foreign Currency Appreciates by	Effects on Profit before Tax (in Thousands)	Foreign Currency Depreciates by	Effects on Profit before Tax (in Thousands)
2021 Currency USD Others	50% 40%	115.71 18.58	-50% -40%	-115.71 -18.58
2020 Currency USD Others	50% 40%	224.58 11.25	-50% -40%	-224.58 -11.25

Information relating to the Bank's currency derivatives is contained in Note 26. The Bank has outstanding foreign currency spot transactions (in equivalent peso amounts) of P0.6 billion (sold) and P0.4 billion (bought) as at December 31, 2021 and P0.9 billion (sold) and none (bought) as at December 31, 2020.

Foreign exchange factor sensitivities ("FX Delta") represent the change in the net present value of the foreign exchange portfolios caused by a unit shift of 100.0% of the underlying currency's exchange rate. The FX Delta risk comes from the FX exposure of derivatives, the hedging of foreign exchange positions and foreign currency cash positions.

The Bank's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines.

Foreign currency liabilities generally consist of foreign currency deposits in the Bank's FCDU. Foreign currency deposits are generally used to fund the Bank's foreign currency-denominated loan and investment portfolio in the FCDU. Effective January 1, 2018, the BSP, through Circular 946, no longer required FCDU liabilities to be covered by liquid assets.

Outside the FCDU, the Bank has additional foreign currency assets and liabilities in the RBU representing trade assets and corresponding foreign currency borrowings.

### Interest Rate Risk in Banking Book

Interest rate risk is the risk to future earnings or equity arising from the movement of interest rates. Changes in interest rates affect: (1) the Bank's earnings by changing its net interest income (NII) and the level of other interest rate-sensitive income; and (2) the underlying economic value of the Bank's assets, liabilities and off-balance sheet instruments by means of reducing the present value of future cash flows (and in some cases, the cash flows themselves).

As the primary interest rate risk management unit, the Liquidity and Balance Sheet Management Unit adjusts the repricing structure of assets and liabilities to ensure that interest rate risk exposure stays within a controllable range. Limits on the change in one-year earnings (delta NII) and economic value of equity (EVE) given a one basis point change in interest rates are also established.

The following are the Delta NII and EVE statistics (in thousands):

	1bp Delta NII		1bp EVE	
	2021	2020	2021	2020
December 31	US\$ 4.96	US\$ 3.12	(US\$70.95)	(US\$84.67)
Average monthly	7.94	4.89	(66.28)	(74.43)
Highest	13.21	10.55	(50.90)	(55.56)
Lowest	0.59	(3.69)	(83.19)	(89.56)

The Bank is exposed to interest rate risk as a result of mismatches of interest rate repricing of assets and liabilities. Accordingly, limits on interest rate gaps for stipulated periods have been established by management.

## Risk Monitoring and Control

The interest rate risk limits are monitored on monthly or daily basis. The MRMD is responsible for independent monitoring of the business units' compliance with the established limit framework as well as distributing monthly re-pricing gap report and advisory summary to the Asset and Liability Committee (ALCO), RMC and BOD for their review periodically. These reports are appropriately tailored to include, according to the requirements of the intended recipient, the limit utilizations, trend and limit excess information.

The Liquidity and Balance Sheet Management Unit is allowed to apply for hedge supported by duly approved hedge plan for the purpose of reducing risks. Financial instruments may be used to hedge for the purpose of reducing exposure or stabilizing profits. This can be achieved through conducting financial markets transactions with external counterparties to mitigate interest rate risk for non-trading purpose position.

As part of the internal control, the IRRBB reports are subjected to a regular and independent audit - internal or external - to ensure accuracy and validity of data and practice. Likewise, risk model development and regular review of assumptions and methodologies are conducted by the MRMD in close coordination with Parent Bank and Treasury Group. Risk model validation relating to methodology and quantification is conducted by a banking unit independent to the MRMD and Treasury Group. Risk model validation except for methodology and quantification is conducted by the internal audit as part of their regular audit program.

#### Risk Measurement

The Bank's exposure to IRRBB is being measured by the following tools:

- a. Re-pricing Gap Report measures the re-pricing gap between asset and liability by various time buckets in order to understand interest rate mismatch; and
- b. Risk Sensitivity measures the impact of 1 basis point change in interest rate on NII and that on EVE. The analysis of such impact on NII (1bp△NII) focuses on changes in interest income and expense within a year, hence, a short-term perspective. The analysis of such impact on EVE (1bp△EVE) is of a long-term perspective as it focuses on changes of economic value which will become net interest income received every year later on.

Measurement of 1bp△NII and 1bp△EVE stems from the Repricing Gap Report. The Repricing Gap Report considers rate-sensitive assets and liabilities such as due from other banks, interbank loans receivable, debt investment securities, loans and receivables, deposit liabilities and bills payable, and equity. For those rate-sensitive assets and liabilities with no available repricing dates, the repricing assumption is based on the two years historical repricing behavior. The longest repricing maturity assigned to non-maturity deposits is the checking and demand deposit products of the Bank. The repricing assumption is a function of estimated decay rate, established cap on core deposit, and established cap on repricing tenor.

Likewise, regular stress-testing is performed to approximate the effect of extreme interest rate fluctuation on the economic value of equity. Stress-testing can be done in the form of pre-defined parallel shifts in interest rate curve or on the basis of ad hoc projected interest rate scenario. MRMD monthly monitored the stress test result of IRRBB and report to ALCO possible economic value decline of capital.

IRRBB stress testing is performed to evaluate the appropriateness of exposure to comprehend the Bank's interest rate risk profile and its impact to the capital through NII or EVE and its corresponding impact to Capital Adequacy Ratio (CAR). Stress testing starts with the collective evaluation of the degree of interest rate movement under stress condition being determined during the Internal Capital Adequacy Assessment Process (ICAAP) with primary consideration of the key economic variables in the future to establish IRRBB stress shocks.

In 2021 and 2020, the Bank uses the same +350 basis point movement for Peso Book and +250 and +300 basis point movement for FCY book as a stress scenario, respectively.

The tables below show the sensitivity of the Bank's economic value of equity to possible changes in interest rates as at December 31, 2021 and 2020. The sensitivity of equity to interest rate movements is the present value of future cash flows discounted at the market rate.

	2021									
					Sensi	tivity of Equi	ty

# Prepayment Risk

Prepayment risk is the risk that the Bank will incur a financial loss because its customers and counterparties repay or request repayment earlier than expected, such as fixed rate mortgages when interest rates fall. The Bank has exposures in consumer, e.g., salary loans, mortgage loans. These activities generate market risk since these loan products are inherently sensitive to changes in the level of market interest rates.

The impact on the Bank's profitability of mortgage loan prepayment risk is deemed negligible as actual prepayments were small relative to the loan portfolio.

#### Operational Risk

Operational risk is defined as the risk of loss arising from direct or indirect loss from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk but excludes strategic and reputational risk.

Direct Loss is a result primarily from an operational failure while an Indirect Loss relates to the impact of operational risk on other risks such as Market, Credit or Liquidity Risk.

The Operational and Reputational Risk Management Department (ORRMD) is responsible for establishing, overseeing and supporting CTBC's Operational Risk Management ("ORM") framework. Specific responsibilities include:

 Recommend to the BOD and Senior Management appropriate policies and procedures relating to ORM.

- Design and implement Bank's operational risk assessment methodology, tools, and risk reporting system.
- Coordinate risk management activities across the organization.
- Consolidated all relevant operational risk information and reports to be elevated and reported to the BOD and Senior Management.
- Provide ORM training and advice to BU's on ORM issues.
- Coordinate with Compliance function, Internal Audit, and External Audit on ORM matters.
- Monitoring and reporting of Operational Risk incidents.
- Manage the stress testing activities for the Bank's operational risk.

# Operational Risk Process

The Bank implements the Risk and Control Assessment Framework to ensure that all operational risks of the different Business and Functional Units are reported and properly managed.

The Risk and Control Assessment (RCA) Framework is composed of 3 main activities namely:

- Annual Risk Assessment (ARA) refers to the process of assessing key risks to be faced by the Bank in the upcoming year and mapping key controls and/or indicators for each identified key risk.
- Management Control Assessment (MCA) refers to the year-long process of assessing the effectiveness of key control through self-inspection, monitoring trend/s of risk indicators, and taking action on any identified vulnerability or gap.
- Business Risk, Compliance, and Control (BRCC) Forum refers to the integrated review on internal controls across first, second, and third lines of defense. Its main objective is to enable Senior Management to supervise the overall status of key risk trend, weakness in controls, and correction on major events and audit issues.

The Bank's Operational Risk Process is as follows:

## Key Risk and Control Identification Process

This involves the review of existing business processes, products and services with the aim of identifying vulnerabilities and assessing the extent of damage that can happen should breaches occur. The RCA Framework is followed.

## Review and Document Policies and Procedures

In reviewing and documenting policies and procedures, each business and operating unit ensures clear and complete documentation of the following:

- Processes Include all functions that are being done to ensure complete delivery of the transaction. This covers both client interface processes and internal control.
- People Identify everyone involved in the process, their duties and responsibilities and required competencies.
- Reports Identify those that would be needed to assess risk management effectiveness.
- Methodologies Detail the tools and activities that would support decision making for critical areas of the process.
- Systems and Data Cite the system and data requirement for the business unit to efficiently manage reports and methodologies employed.

All Business and Operating Units shall ensure that actual practices are consistent with documented policies and procedures.

## Monitor and Formulate Action Plan

Monitoring and formulating action plans against established standards, via the KRIs is an important component in ensuring that these standards are met. There are three units involved in the over-all formulation and monitoring of action plans for all Business and Functional Units.

- Business and Functional Units They are expected to report the operational exceptions, deviations on the policies and procedures and deficiencies on the documentations and process.
- ORRMD Collates and consolidates the reports from different business and functional units. They are also responsible for monitoring, analyzing and reporting operational risk losses and exposures to Management.
- Internal Audit Department (IAD) Primarily responsible for ensuring that all Operations Units are in compliance with the set of policies and procedures. They should be able to provide an independent opinion on the effectiveness of established internal controls.

### Management Oversight

On a monthly basis, the Operations Committee convenes to discuss operational risk issues. This is presided by the President/CEO with the following members: Deputy CEO, CRO, CFO, Information Security Officer, and Heads of ORRMD, ICMG, RCMG, IBG, RBG, Trust Department, Treasury Group, ITG, BOG, HRAG, Marketing Communications Services Department, Internal Audit and Compliance.

### Strategic Risk

Strategic risk is the risk that the current and prospective earnings or capital will be adversely impacted because of business decisions, improper implementation of decisions or lack of responsiveness to industry changes. This definition gives importance to business planning, where business decisions and its implementation are derived from.

The strategic risk of the Bank is a function of the compatibility of its strategic goals, the quality of carrying out its implementation, and building the infrastructure to meet such goals.

Strategic risk is managed throughout the Bank and is primarily monitored by Finance and Corporate Affairs Group through budget analysis and variances.

#### Legal Risk

Legal risks belong to non-quantifiable risks that are not subject to specific numerical measurements but likewise require similar management attention. While unpredictable, non-quantifiable risks may cause severe impact of the Bank's statements of income. These risks are mitigated by developing a strong control culture, an organizational structure that is risk-aware, and an effective internal control system that continually monitors and updates processes and procedures. Legal risks include the potential for the Bank to suffer a financial loss due to non- existent, incomplete, incorrect and/or unenforceable documentation used by the Bank to protect and enforce its rights under contracts and obligations. This risk is closely related to credit risk as it most often involves legal problems with counterparties to the Bank's transactions. It is also closely related to other non-quantifiable risks that have to be assessed: fiduciary, reputational risk and regulatory risk.

A legal review process is the primary control mechanism for legal risks and shall be part of every product program or process of the Bank. The review aims to validate the existence, propriety and enforceability of documents, and verify the capacity and authority of counterparties and customers to enter into transactions.

The Bank's Legal Department is the primary unit assigned to identify, assess, manage and monitor the Bank's legal risk.

## Capital Management

The primary objectives of the Bank's capital management are to ensure that the Bank complies with externally imposed capital requirements and that the Bank maintains a strong credit standing and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Bank considers its paid-in capital and retained earnings as its core economic capital.

The Bank manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Bank may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

# Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Bank's compliance with regulatory requirements and ratios is based on the amount of the Bank's "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of Regulatory Accounting Principles (RAP) which differ from PFRSs in some respects.

The BSP sets and monitors compliance with minimum capital requirements for the Bank. In implementing current capital requirements, BSP issued Circular 781 which implemented the Revised Risk-Based Capital Adequacy Framework under Basel III effective January 1, 2014. It requires the Bank to maintain a prescribed risk-based capital adequacy ratio (expressed as a percentage of qualifying capital to risk-weighted assets) of not less than 10.0% for both solo and consolidated basis. The Bank is also required to maintain a minimum Common Equity Tier 1 and Tier 1 capital ratio of 6.0% and 7.5%, respectively. A capital conservation buffer of 2.5% comprised of CET1 capital was likewise imposed through BSP Circular 1024.

Shown below are the Bank's minimum capital-to-risk assets ratios as reported to the BSP as of December 31, 2021 and 2020 (in millions except for percentages).

	2021	2020
CET 1 capital	P9,938	P10,107
Tier 1 capital Tier 2 capital	9,938 328	10,107 335
Gross qualifying capital Less: Required deductions	10,266	10,442
Total Qualifying Capital	P10,266	P10,442
Risk-weighted Assets	P38,135	P38,652
CET 1 ratio	26.0%	26.2%
Tier 1 capital ratio	26.0%	26.2%
Tier 2 capital ratio	0.9%	0.9%
Risk-based capital adequacy ratio	26.9%	27.0%

The regulatory qualifying capital of the Bank consists of Tier 1 (core) and Tier 2 (supplementary) capital. Tier 1 capital comprise of common stock, additional paid-in capital and surplus. Tier 2 comprises upper Tier 2 and lower Tier 2. Upper Tier 2 consists of preferred stock, revaluation increment reserve, general loan loss provision, and deposit for common stock subscription. Lower Tier 2 consists of unsecured subordinated debt.

BSP Circular 560 dated January 31, 2007, which took effect on February 22, 2007, requires the deduction of unsecured loans, other credit accommodations and guarantees granted to subsidiaries and affiliates from capital accounts for purposes of computing CAR.

Moreover, BSP Circular 1027 dated December 14, 2018, provides the guidelines on the computation of the required capital for banks to ensure that capital is only composed of instruments that are of highest quality to absorb losses.

The Bank complied with the minimum Capital Adequacy Ratio (CAR) of 10.0% throughout 2021 and 2020.

#### **BASEL III**

On December 13, 2013, the BSP issued Circular 822 on amendments to the capital framework of foreign bank. It provides that the minimum capital required for locally incorporated subsidiaries of foreign banks shall be the same as that prescribed by the Monetary Board for domestic banks of the same category under Circular 781 issued last January 15, 2013.

The following are the revised minimum capital requirements:

- 6.0% Common Equity Tier 1 (CET1)/Risk-Weighted Assets (RWAs);
- 7.5% Tier 1 Capital/RWAs; and
- 100% Total Qualifying Capital (Tier 1 plus Tier 2)/RWAs.

The Qualifying Capital must consist of the sum of the following elements, net of required deductions: Tier 1-'going concern' [CET1 plus Additional Tier 1] and Tier 2-'gone concern.' A bank/quasi-bank must ensure that any component of capital included in qualifying capital complies with all the eligibility criteria for the particular category of capital in which it is included. The Circular further describes the elements/criteria that a bank should meet for each capital category. Regulatory adjustments and calculation guidelines for each capital category are also discussed.

In conformity with the Basel III standards, a Capital Conservation Buffer of 2.5% of RWAs, comprised of CET1 capital, has been required. This buffer is meant to promote the conservation of capital and build-up of adequate cushion that can be drawn down by banks to absorb losses during financial and economic stress. The restrictions on distribution that a bank must meet at various levels of CET1 capital ratios are established, as shown in below table. Restrictions will be imposed if a bank has no positive earnings, has CET1 of not more than 8.5% (CET Ratio of 6.0% plus conservation buffer of 2.5%) and has not complied with the minimum 10.0% CAR.

Level of CET 1 Capital Restriction on Distributions			
<6.0%	No distribution		
6.0% - 7.2%	No distribution until more than 7.2% CET1 capital is met		
>7.2% - 8.5%	50.0% of earnings may be distributed		
>8.5%	No restriction on the distribution		

Under Section 129 of the MORB Basel III, leverage ratio is designed to act as supplementary measure to the risk-based capital requirements. It is defined as the capital measure (numerator) divided by the exposure measure (denominator). The leverage ratio shall not be less than 5.0% computed on both solo (head office plus branches) and consolidated bases (parent bank plus subsidiary financial allied undertakings but excluding insurance companies).

The Bank exceeded the minimum leverage ratio of 5.0% in 2021 and 2020 as presented below (amounts in thousands):

	2021	2020
Capital measure	P9,937,588	P10,106,977
Exposure measure	54,535,287	52,804,741
Leverage ratio	18.22%	19.14%

# 6. Fair Value Measurement

The methods and assumptions used by the Bank in estimating the fair value of the financial assets and financial liabilities are:

Cash and Other Cash Items, Due from BSP and Other Banks, and Interbank Loans Receivable

Carrying amounts approximate fair values due to their short-term nature.

# Quoted Debt and Equity Securities

Fair values are based on quoted prices published in markets.

### Unquoted Equity Securities

The unquoted equity securities of the Bank are measured at fair value. However, due to the lack of suitable methods of arriving at a reliable fair value, the cost is determined to be an appropriate estimate of fair value. The unquoted equity securities are instead measured at their carrying amounts. These are interests in BancNet, Philippine Clearing House Corporation and Bankers Association of the Philippines held as per membership requirement.

### Derivative Instruments

Derivative products are valued using valuation techniques with market observable inputs including foreign exchange rates and interest rate curves prevailing at the statements of financial position date. For cross-currency swaps and foreign exchange contracts, discounted cash flow model is applied. This valuation method discounts each cash flow of the derivatives at a rate that is dependent on the tenor of the cash flow.

#### Loans and Receivables

Fair values of loans subject to periodic interest repricing of more than one year are estimated based on the discounted cash flow methodology using the loan's latest interest rate. Carrying values of loans subject to periodic interest repricing of one year or less approximate fair value because of recent and regular repricing based on market conditions.

#### Investment Properties

Fair value is determined based on valuations performed by external and in-house appraisers using the market data approach. The fair values of the Bank's investment properties are based on recent sales of similar properties in the same areas, taking into account the economic conditions prevailing at the time the valuations were made. Significant unobservable inputs in determining the fair values include the following:

Location

Location of comparative properties whether on a main road or secondary road. Road width could also be a consideration if data is available. As a rule, properties along a main road are superior to properties along a secondary road.

Size

Size of lot in terms of area. Evaluate if the lot size of property or comparable confirms to the average cut of the lots in the area and estimate the impact of lot size differences on land value.

Time Element An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investor's perceptions of the market over time, in which case, the current date is superior to historic data.

Discount

Generally, asking prices in ads posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent.

#### Deposit Liabilities

Carrying amounts of demand and savings deposit approximate fair values considering that these are currently due and demandable. Fair values of time deposits are estimated based on discounted cash flow methodology using the Bank's latest interest rates due to lack of suitable methods of arriving at reliable fair value.

### Other Financial Liabilities

Carrying values of liabilities, other than deposit liabilities approximates fair values due to their short-term nature.

The following table provides the fair value hierarchy of the Bank's assets and liabilities measured at fair value and those for which fair values should be disclosed:

	2021

The following ranges of discount rates were used in estimating the fair values unquoted fixed-rate and floating-rate debt instruments:

		PHP	•		
	2021		2	2020	
	High	Low	High	Low	
Loans and discounts:					
Retail banking	23.22%	8.27%	18.6%	4.96%	
Mortgage banking	10.40%	5.00%	11.5%	5.3%	

The following table shows financial instruments recognized at fair value, analyzed by bases of fair value (in thousands):

- Level 1 quoted market prices in active markets for identical assets or liabilities; when fair values of listed equity and debt securities, as well as publicly traded derivatives at the reporting date are based on quoted market prices or binding dealer price quotations, without any deduction for transaction costs, the instruments are included within Level 1 of the hierarchy.
- Level 2 those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); for all other financial instruments, fair value is determined using valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist and other revaluation models; and
- Level 3 those with inputs for the asset or liability that are not based on observable market data (unobservable inputs). Instruments included in Level 3 are those for which there are currently no active market.

The fair values of Level 1 instruments are based on the Bloomberg Valuation Service (BVAL) reference rates as used as the benchmark of PHP government securities in the active market of which comprise the quoted debt securities at FVTPL at reporting date. These BVAL reference rates are based on accumulated market data and realtime market observations on actively traded identical fixed income securities.

The fair values of Level 2 instruments are based on broker quotes from similar contracts that are traded in an active market. These quotes reflect the actual transactions in similar instruments.

<sup>\*\*</sup>Excludes retirement liability, accrued taxes and other non-financial accruals.
\*\*\*Excludes withholding taxes payable, and provision liability

In 2021, there we no transfers into and out of Level 1 to 3 of fair value measurements. In 2020, there were transfers between Level 1 to Level 2 category since the Bank established that markets are no longer active and therefore quoted prices no longer provide reliable pricing information. Conversely, there we no transfers into and out of Level 3 fair value measurements.

The COVID-19 situation does not have material impact on the manner how the Bank conducts its fair valuation practices. The securities position remains to be valued based on its reference rates (e.g., Bloomberg BVAL for PHP government securities) similar in the pre-COVID 19 situation. This might be attributable to the fact that the financial market was allowed to operate despite the government-imposed quarantine lockdown.

#### 7. Investment Securities

The effective interest rates of the Bank's debt securities range from 0.0% to 5.2%, 0.1% to 7.7% and 1.4% to 7.4% in 2021, 2020 and 2019, respectively.

# Financial Assets at FVTPL

Financial assets at FVTPL consist of the following:

	Note	2021	2020
Government debt securities		P558,644,860	P918,792,082
Derivative assets	26	140,951,014	181,666,073
		P699,595,874	P1,100,458,155

The Bank's debt securities and derivative assets are mandatorily classified as at FVTPL on initial recognition.

Net unrealized gain (loss) on revaluation to market of financial assets at FVTPL amounting to (P13.3) million, P4.9 million and P0.4 million in 2021, 2020 and 2019, respectively are included under "Trading and securities gain (loss) - net" in the statements of income.

#### Financial Assets at FVOCI

Financial assets at FVOCI consist of the following:

	2021	2020
Government debt securities	P5,191,869,775	P7,730,965,342
Private debt securities	231,586,015	229,999,080
Unquoted equity securities	12,440,817	12,440,817
Quoted equity securities	1,097,500	650,000
	P5,436,994,107	P7,974,055,239

Quoted equity securities pertain to club shares from Orchard Golf and Country Club and Subic Bay Yacht Club Corporation which were irrevocably designated at FVOCI as at January 1, 2018.

Unquoted equity securities are held as local requirement (PCHC), consortium for ATM networks and on-line banking (Bancnet) and membership with the BAP.

The movements of net unrealized gain (loss) on financial assets at FVOCI are as follows:

	2021	2020
Balance at beginning of the year	P65,917,610	P108,233,872
Net change in fair value recognized in OCI: Unrealized gain (loss) on debt financial		
assets at FVOCI recognized in OCI	(290,390,049)	299,679,506
Amount realized in the statements of		
income	2,282,200	(341,965,768)
	(290,107,849)	(42,286,262)
Unrealized gain (loss) on equity financial		
assets at FVOCI recognized in OCI	447,500	(30,000)
	(289,660,349)	(42,316,262)
Balance at end of year	(P223,742,739)	P65,917,610

In 2021, effective interest rates of FVOCI debt securities ranged from 0.2% to 4.6% for peso-denominated and 0.0% to 3.4% for foreign currency-denominated FVOCI debt securities. In 2020, effective interest rates of FVOCI debt securities ranged from 1.7% to 5.1% for peso-denominated and 0.1% to 3.3% for foreign currency-denominated FVOCI debt securities. In 2019, effective interest rates ranged from 3.6% to 6.3% for peso-denominated and 1.5% to 3.9% for foreign currency-denominated FVOCI debt securities.

As at December 31, 2021 and 2020, loss allowance on financial assets at FVOCI amounted to P2.2 million and P1.9 million, respectively (see Note 12).

#### Investment Securities at Amortized Cost

Investment securities at amortized cost consist of Philippine government treasury notes that bear nominal annual interest rates ranging from 0.0% to 10.6% in 2021 and 2020 and 3.7% to 9.5% 2019.

As at December 31, 2021 and 2020, the carrying value of investment securities at amortized cost amounted to P6.6 billion and P3.1 billion, respectively. Loss allowance on investment securities at amortized cost amounted to P1.3 million and P0.6 million as at December 31, 2021 and 2020, respectively (see Note 12).

Interest income on investment securities consists of:

	2021	2020	2019
Financial assets at FVOCI Investment securities at	P172,030,435	P150,816,169	P116,528,627
amortized cost	158,922,652	117,095,167	119,923,663
Financial assets at FVTPL	18,341,606	25,827,878	49,805,270
	P349,294,693	P293,739,214	P286,257,560

Trading and securities gain (loss) - net consists of:

	2021	2020	2019
Financial assets at FVTPL Financial assets at	(P61,186,881)	P5,807,790	P103,038,010
FVOCI - debt securities Investment securities at	(1,651,363)	342,604,393	38,210,299
amortized cost	-	-	38,146,181
	(P62,838,244)	P348,412,093	P179,394,490

Net gain (loss) on derivative transactions amounting to P134.8 million, (P26.6 million) and P125.0 million in 2021, 2020 and 2019, respectively, is included under "Foreign exchange gain - net" in the statements of income.

#### 8. Loans and Receivables

This account consists of:

	Note	2021	2020
Loans and discounts:			
Institutional banking	Р	24,204,058,122	P23,326,851,888
Retail banking		3,965,933,909	4,559,369,194
Mortgage banking		2,703,072,579	2,379,830,905
Small business loans		846,968,607	1,026,136,905
Accrued interest receivable		501,626,002	593,722,050
Other receivables		191,287,539	224,627,096
		32,412,946,758	32,110,538,038
Unearned interest discount and			
capitalized interest		(1,644,586)	(2,404,407)
		32,411,302,172	32,108,133,631
Loss allowance	12	(1,398,791,912)	(1,379,791,511)
	Р	31,012,510,260	P30,728,342,120

Institutional banking loans and Small business loans include domestic bills purchased amounting to P35.2 million and P80.3 million as at December 31, 2021 and 2020, respectively (see Note 16).

Other receivables include due from ICCS and PVB representing impaired loans amounting to P105.0 million and P112.4 million as at December 31, 2021 and 2020, respectively, which are secured by real properties transferred to ICCS and PVB.

Other receivables also include sales contract receivables amounting to P27.5 million and P22.5 million as at December 31, 2021 and 2020, respectively. Sales contract receivables bear fixed interest rates per annum ranging from 10.0% to 10.5% in 2021, 10.0% to 11.0% in 2020 and 9.0% to 11.4% in 2019.

Interest income on loans and receivables consists of:

	2021	2020	2019
Retail banking	P1,032,344,367	P1,174,925,253	P1,240,649,185
Institutional banking	970,960,942	1,267,123,452	1,376,844,813
Mortgage banking	184,474,276	176,273,206	147,190,631
Small business loans	43,272,303	55,426,776	58,644,875
Other receivables	2,192,114	2,333,030	2,986,432
	P2,233,244,002	P2,676,081,717	P2,826,315,936

The effective interest rates of loans and discounts, and sales contract receivables ranged from 1.8% to 2.3%, 2.2% to 3.2% and 2.0% to 3.8% for foreign currency-denominated receivables in 2021, 2020 and 2019, respectively while for peso-denominated receivables, the effective interest rates ranged from 8.9% to 10.0%, 9.0% to 10.4% and 10.0% to 11.2% in 2021, 2020 and 2019, respectively.

As at December 31, 2021 and 2020, the Bank's loan portfolio includes non-risk loans, as defined under BSP regulations, totaling P2.8 billion and P2.9 billion, respectively.

As of December 31, 2021, 54.5% of the total loans of the Bank are subject to periodic interest repricing (2020: 85.4%; 2019: 86.4%). Remaining loans earn annual fixed interest rates ranging from 5.00% to 21.48% in 2021, from 4.13% to 21.48% in 2020 and from 4.13% to 21.48% in 2019, for peso-denominated.

There is no interest income accrued on loans and receivables which includes unwinding of the loss allowance as of December 31, 2021 and 2020.

### Breakdown of Total Loans as to Status

The following table shows the breakdown of receivable from customers, gross of loss allowance and unearned interest and discount, as to performing and non-performing as of December 31, 2021 and 2020:

	2021	2020
Performing loans		
Institutional banking	P23,704,435,494	P22,820,203,303
Retail banking	3,643,577,466	4,052,589,706
Mortgage banking	2,672,088,417	2,321,799,050
Small business loans	846,968,607	1,026,136,904
	30,867,069,984	30,220,728,963
Non-performing loans		
Institutional banking	499,622,628	506,648,585

As at December 31, 2021 and 2020, bank premises account includes right-of-use assets with carrying value amounting to P664.2 million and P660.0 million, respectively pertaining to leased branches and office premises (see Note 20).

As at December 31, 2021 and 2020, there were no property and equipment pledged as collateral for liabilities.

### 10. Investment Properties

The Bank's investment properties consist of house and lot and condominium units. Movements in this account are as follows:

	2021	2020
Cost Balance at beginning of year Additions Disposals	P202,328,719 16,808,149 (27,228,414)	P195,208,709 16,759,010 (9,639,000)
Balance at end of year	191,908,454	202,328,719
Accumulated Depreciation Balance at beginning of year Depreciation Disposals	18,324,232 5,478,149 (1,377,957)	13,231,864 5,437,607 (345,239)
Balance at end of year	22,424,424	18,324,232
Allowance for Impairment Losses Balance at beginning of year Impairment losses (reversal)	2,049,950 4,672,954	3,096,835 (1,046,885)
Balance at end of year	6,722,904	2,049,950
Net Book Value at End of Year	P162,761,126	P181,954,537

The Bank does not occupy repossessed properties for business use. As at December 31, 2021 and 2020, the fair value of investment properties amounted to P183.8 million and P193.07 million, respectively.

### 11. Other Assets

This account consists of:

	2021	2020
Computer software costs - net	P222,077,054	P273,051,189
Prepaid expenses and other charges	65,769,598	42,898,876
Rental deposits	51,146,161	32,452,178
Returned checks and other cash items	1,936,471	349,901
Miscellaneous	119,997,715	55,903,309
	P460,926,999	P404,655,453

Prepaid expenses and other charges include prepayments for medical insurance, rent relating to short-term and low value assets, and software maintenance, and deferred charges.

Miscellaneous assets include hardware and software items under installation process, documentary stamps on hand, and stationery and office supplies. As at December 31, 2021 and 2020, hardware and software items related to the Bank's new core banking system which is under development amounted to P91.4 million and P14.0 million, respectively.

The movements in computer software costs are as follows:

	2021	2020
Cost		
Balance at beginning of year	P703,279,950	P625,624,555
Additions	9,546,309	77,937,423
Disposals	(12,955,886)	(282,028)
Balance at end of year	699,870,373	703,279,950
Accumulated Amortization		
Balance at beginning of year	430,228,761	375,846,064
Amortization	60,520,444	54,382,697
Disposals	(12,955,886)	(28,000)
Balance at end of year	477,793,319	430,228,761
	P222,077,054	P273,051,189

As at December 31, 2021 and 2020, there were no other assets pledged as collateral for liabilities.

#### 12. Loss Allowance on Financial Instruments

Composition and movements in loss allowance on financial instruments are as follows:

	2021					
	Loans and Receivables (Note 8)	Interbank Loans Receivable	Debt Financial Assets at FVOCI (Note 7)	Investment Securities at Amortized Cost (Note 7)	Off-balance Sheet Commitments and Contingencies (Note 16)	Total

movements	3,518,385	2,062	21,755	28,029	456,364	4,026,595
Balance at end of year	P1,398,791,912	P6,803	P2,248,215	P1,267,787	P21,008,433	P1,423,323,150

	2020					
	Loans and Receivables (Note 8)	Interbank Loans Receivable	Debt Financial Assets at FVOCI (Note 7)	Investment Securities at Amortized Cost (Note 7)	Off-balance Sheet Commitments and Contingencies (Note 16)	Total
Balance at beginning of year Impairment losses (reversals)	P863,611,179 827,208,701	P162,611 (73,960)	P1,199,374 749,224	P544,624 82,801	P3,828,488 1,843,110	P869,346,276 829,809,876
Accounts charged off and others  Foreign exchange and other	(307,190,143)	-	-	-	-	(307,190,143)
movements	(3,838,226)	(5,155)	(20,208)	(23,369)	(129,261)	(4,016,219)
Balance at end of year	P1,379,791,511	P83,496	P1,928,390	P604,056	P5,542,337	P1,387,949,790

The loss allowance on loans and receivables includes the loss allowances for sales contract receivables and accounts receivables amounting to P2.3 million and P4.4 million in 2021 and 2020, respectively.

The loss allowance on debt financial assets at FVOCI is not recognized in the statements of financial position because the carrying amounts of these assets are their fair values. The loss allowance is recognized as part of the "Net unrealized gain (loss) on financial assets at FVOCI" in the statements of OCI.

The loss allowance on off-balance sheet commitments and contingencies is recognized by the Bank as an additional provision under "Other liabilities" in the statements of financial position (see Note 16).

Movements in the loss allowance on loans and receivables are as follows:

	2021					
	Institutional Banking	Mortgage Banking	Small Business Loans	Retail Banking	Other Receivables	Total
Balance at beginning of year Impairment losses Accounts charged off and others Foreign exchange and other	P672,801,723 228,007,303 (52,182,819)	P12,463,105 5,412,151 -	P1,983,325 (518,669)	P646,306,723 196,863,057 (393,555,363)	P46,236,635 76,990,804 (46,434,443)	P1,379,791,511 506,754,646 (492,172,625)

#### BSP Reporting

Loan provisioning under BSP regulations hinges on the qualitative appraisal and classification of the loan. Aside from classifying loans to past due and current, these are also grouped as unclassified or classified.

These classified loans are further grouped depending on the likelihood of losses the Bank will incur. Definitions of each classification are as follows:

- I. Pass These are loans or other credit accommodations that do not have a greater-than-normal credit risk. The borrower has the apparent ability and willingness to satisfy his obligations in full and therefore no loss in ultimate collection is anticipated.
- II. Especially Mentioned (EM) These are loans or other credit accommodations that have potential weaknesses that deserve management's close attention. If left uncorrected, these make affect the repayment of the loan.
- III. Substandard These are loans or other credit accommodations that have well-defined weakness/(es), that may jeopardize repayment/liquidation in full, either in respect of the business, cash flow or financial position, which may include adverse trends or developments that affect willingness or repayment ability of the borrower.
- IV. Doubtful These are loans and other credit accommodations that exhibit more severe weaknesses than those classified as "Substandard", whose characteristics on the basis of currently known facts, conditions and values make collection or liquidation highly improbable, however the exact amount remains undeterminable.

Under Regulatory reporting, effective August 29, 2018, BSP Circular 1011 requires a general loan loss provision equivalent to one percent (1.0%) of the outstanding balance of collectively and individually assessed loans when estimated/computed provisions are less than one percent (<1.0%) and/or no specific provisions are made, excluding loans which are considered non-risk under existing laws, rules, and regulations.

	2021	2020
NPLs	P852,963,233	P1,071,459,929
Less NPLs fully provided with loss allowance	229,341,173	197,611,634
	P623,622,060	P873,848,295

# 13. Deposit Liabilities

As of December 31, 2021 and 2020, non-interest bearing deposits are 0.4% and 0.5% of the total deposits, respectively.

The remaining deposit liabilities earn annual fixed interest rates ranging from 0.01% to 2.13%, 0.1% to 3.3% and 0.1% to 3.3% in 2021, 2020 and 2019, respectively.

On March 31, 2020, the BSP issued Circular No. 1082 which reduced the reserve requirement from 14% to 12% effective on the reserve week starting on April 3, 2020. No further reduction was made by BSP in 2021, reserve requirement is still at 12% as of December 31, 2021.

In 2021 and 2020, the Bank is in compliance with such reserve requirements regulations.

The total liquidity and statutory reserves, as reported to the BSP, are as follows:

	2021	2020
Due from BSP	P2,822,005,945	P2,675,761,393

Interest expense on deposit liabilities consists of:

	2021	2020	2019
Time	P140,193,538	P341,842,719	P665,289,875
Demand	21,013,241	15,848,067	14,217,235
Savings	3,323,487	16,786,436	22,411,515
	P164,530,266	P374,477,222	P701,918,625

Accrued interest payable on deposit liabilities amounted to P14.6 million and P28.9 million as at December 31, 2021 and December 31, 2020, respectively (see Note 15).

### 14. Bills Payable

This account consists of short-term and long-term borrowings from banks and other financial institutions.

The Bank is an accredited Participating Financial Institution, as a conduit bank for Official Development Assistance Wholesale Lending Facilities managed by various government or sovereign lending institutions.

As at December 31, 2021 and 2020, the Bank's bills payable amounted to P2.0 billion and P2.9 billion, respectively.

Foreign currency denominated interbank borrowings are subject to interest rates ranging from 1.08% to 1.15%, 1.1% to 2.8% and 1.6% to 3.5% in 2021, 2020 and 2019, respectively.

Interest expense on bills payable amounted to P43.3 million, P108.6 million and P255.0 million in 2021, 2020 and 2019, respectively.

Accrued interest payable on bills payable amounted to P0.2 million and P5.4 million as at December 31, 2021 and December 31, 2020, respectively (see Note 15).

### 15. Accrued Interest, Taxes and Other Expenses

This account consists of:

	Note	2021	2020
Accrued taxes and other expenses		P513,110,124	P553,363,489
Net retirement liability	19	88,162,831	135,676,468
Accrued interest payable	13, 14	14,773,554	34,354,709
		P616,046,509	P723,394,666

Accrued taxes and other expenses refer to various payables for taxes and licenses, payroll, utilities and other expenses.

### 16. Other Liabilities

This account consists of:

	Note	2021	2020
Accounts payable		P1,214,293,606	P1,256,568,491
Lease liabilities	20	709,062,230	678,975,886
Bills purchased - contra	8	35,183,127	80,269,561
Withholding taxes payable		27,269,144	26,046,778
Provision for liability	12	21,008,433	5,542,337
Payment order payable		167,454	303,266
Miscellaneous		63,955,079	53,656,109
		P2,070,939,073	P2,101,362,428

The majority of the accounts payable as at year-end represent monies to be credited to customer deposit accounts for payroll and inward remittances and amounts owed to government agencies for statutory deductions and taxes and other creditors for normal expenditures. These are non-interest bearing and are payable on demand.

Bills purchased account is a contra-account to domestic bills purchase transactions as part of Loans and receivables account. This represents accommodations given to Bank customers with approved bills purchase line of credit which enables the customer to encash checks with one day clearing instead of the usual three days clearing time.

Provision for liability pertains to loss allowance on the Bank's off-balance sheet commitments and contingencies.

Miscellaneous includes unclaimed manager's check for more than one year and unclaimed balances of credit or deposits with the Bank as defined by the Revised Unclaimed Balances Act of 2013.

## 17. Maturity Analysis of Assets and Liabilities

The following table presents the maturity profile of the assets and liabilities of the Bank based on the amounts to be recovered or settled with and/or after more than one year after the reporting period (in thousands):

		2021			2020

### 18. Equity

For two consecutive years, Capital stock and related additional paid-in capital (APIC) consists of the following (in thousands):

	2021		2020	
	Shares	Amount	Shares	Amount
Common stock - P10 par value: Issued and fully paid, beginning Additional shares, Treasury shares	348,307 - -	P3,483,072 - -	300,000 48,307	P3,000,000 483,072
Issued and fully paid, ending	348,307	P3,483,072	348,307	P3,483,072
Authorized	400,000	P4,000,000	400,000	P4,000,000
Additional paid-in capital	-	P2,022,762	-	P2,022,762

The number of holders of the Bank's outstanding common shares is 111 for both December 31, 2021 and 2020.

The shares of the Bank were listed in the PSE since June 1999. In December 2000, the Parent Bank substantially increased its equity in the Bank through the acquisition of shares held by a minority group. As a result of this acquisition, the Parent Bank controlled approximately 91.0% of the Bank's capital stock compared to 57.0% prior to the acquisition. The General Banking Law of 2000 allows foreign banks to own up to 100.0% of Philippine incorporated banks, compared to 60.0% under the previous law. A further acquisition of shares held by the public representing approximately 4.0% of the Bank's equity was made by the Parent Bank in January 2001 through a tender offer at a price of P19.0 per share, the same price at which the shares from the minority group was acquired. In May 2001, the Parent Bank purchased another 4.0% of the outstanding shares at a price of P18.3 per share.

### Revised Minimum Capitalization of Banks

On October 29, 2014, the BSP issued Circular No. 854, which became effective on November 19, 2014, prescribing the revised minimum capitalization of banks operating in the Philippines. Existing banks not meeting the requirement shall be given a period of five years from effectivity of the circular within which to meet the minimum capital. In addition, these banks must submit an acceptable capital build-up program within one year from date of effectivity of the circular. The Bank, falling under the category of commercial banks with total number of branches ranging from ten to one hundred, must have a minimum capital of P10.0 billion by November 2019.

On April 28, 2016, the Bank submitted its capital build up program (CBUP) to the BSP detailing the Bank's strategic plans in order to meet the required capital level. On June 16, 2016, the Monetary Board approved the Bank's CBUP. As at December 31, 2018, the Bank's unimpaired capital amount to P6.9 billion. Thus, the Bank needed additional P3.0 billion capital in order to comply with BSP Circular 854 by November 2019.

In accordance with the Bank's CBUP, the Bank's stockholders, during their annual meeting held on July 25, 2019, approved the increase of authorized shares from 300 million to 400 million shares in order to have sufficient unissued shares to be purchased by Parent Bank.

On September 27, 2019, in compliance with BSP Circular No. 854, Parent Bank purchased the remaining 52,031,269 unissued shares of the Bank and the 484,920 treasury shares at a price of P29.755 per share. The issuance resulted to the following movements:

	Increase (Decrease)
Additional paid-in capital	P1,019,770,021
Capital stock	520,312,690
Treasury stock	(15,951,674)
Retained earnings	(1,571,372)

The decrease in Retained earnings pertains to (a) the excess of the carrying amount of the treasury stock over the consideration; and (b) stock issuance costs amounting to P0.05 million.

In addition, Parent Bank subscribed to 48,307,202 new shares at the same price of P29.755 per share and paid the entire subscribed amount in cash. Consequently, the Bank paid for documentary stamp taxes (DST) amounting to P4.8 million, which was charged against APIC.

The Bank filed its application for the amendment of its articles of incorporation with the BSP for the increase in authorized capital on October 11, 2019.

Based on Section 123 of the MORB, deposits for stock subscription shall be recognized as part of equity for prudential reporting purposes when all of the following conditions are met:

- a. The deposit for stock subscription meets the definition of an equity instrument under PAS 32 *Financial Instruments: Presentation* such that the deposit for stock subscription shall not be interest-bearing nor withdrawable by the subscriber;
- b. The bank's existing authorized capital is already fully subscribed;
- c. The bank's stockholders and board of directors have approved the proposed increase in authorized capital;
- d. The bank has filed an application for the amendment of its articles of incorporation for the increase in authorized capital with the appropriate supervising department of the BSP, duly supported by complete documents as prescribed by the BSP: Provided, That the approval of the SEC on the same application shall be obtained within the period prescribed under the SEC Financial Reporting Bulletin (FRB) on Deposits for future Subscription.
  - In case the applications for the amendment of articles of incorporation for the increase in authorized capital have been returned due to insufficiency of supporting documents, the deposit for stock subscription shall not qualify for recognition as an equity instrument; and
- e. The bank must have obtained approval of the Monetary Board on transactions involving significant ownership of voting shares of stock by any person, natural or juridical, or by one group of persons as provided in Sec. 122 (Transactions involving voting shares of stocks, Item "b"), if applicable.

Considering the status of the Bank's application for the increase in capital stock as at December 31, 2019, the deposits for stock subscription, did not meet conditions (d) and (e).

As at December 31, 2019, the said subscription amounting to P1.4 billion is lodged under the "Deposits for future stock subscription" account in "Other liabilities" in the statements of financial position. The said deposit was reclassified by the Bank as capital on February 10, 2020 for prudential reporting purposes and on March 6, 2020 for financial reporting purposes.

The Bank's application for the increase in authorized capital stock was approved by the Monetary Board of the BSP on February 10, 2020 and was later approved by SEC on March 6, 2020.

The reclassification resulted to additional 48,307,202 shares issued and outstanding and reflected the following movements:

	Increase
Additional paid-in capital	P949,478,054
Capital stock	483,072,020

As at December 31, 2021 and 2020, Parent Bank owns 99.72% of the Bank's capital stock.

### Voluntary Share Delisting

As discussed in Note 1, the Bank has filed voluntary delisting of its shares in PSE on October 7, 2011 and has officially delisted from the trading Board effective on February 24, 2012.

On November 28, 2012, the BSP issued Circular No. 775 requiring banks, which are majority-owned by foreign banks and are established in the Philippines, to list on the local stock exchange within three years from the effectivity of the circular (which was 15 days after it was published in a newspaper of general circulation).

Circular No. 775 cited as basis the provisions of Republic Act (RA) No. 7721 or "An Act Liberalizing the Entry and Scope of Operations of Foreign Banks in the Philippines and for other purposes".

Section 2 of RA No. 7721 cited the listing requirement for foreign banks that entered the country by buying as much as 60.0% of an existing bank or investing in up to 60.0% of the voting stock of a new subsidiary incorporated in the country.

On July 15, 2014, Republic Act No. 10641 entitled "An Act Allowing the Full Entry of Foreign Banks in the Philippines, Amending for the Purpose Republic Act 7721" was signed into a law by the President of the Philippines. Under the new law, foreign banks may now own up to 100.0% of domestic subsidiary banks. On November 21, 2014, the BSP issued Circular No. 858 implementing R.A. 10641. The said circular effectively removed the listing requirement for foreign banks.

#### Restricted Retained Earnings

At the regular meeting of the BOD held on June 23, 2015, the BOD approved the restriction of the full amount of retained earnings for the following purposes:

- i.) to comply with minimum capital requirement set forth under BSP Circular No. 854;
- ii.) to comply with the requirements of the ICAAP pursuant to BSP Circular No. 639;
- iii.) to provide for buffer in preparation for BASEL III requirements.

The restriction on retained earnings relating to ICAAP and BASEL III ensure that the Bank has adequate, available qualified capital at all times to reasonably manage the significant risks identified and assessed in the ICAAP and BASEL III. The guidelines on bank's ICAAP under Section 130 and Appendices 94, 95 and 96 of the MORB supplements the BSP's risk-based capital adequacy framework.

Appropriation for the Deficiency on General Loan Loss Provision (GLLP)

BSP Circular 1011 requires the Bank to set up GLLP equivalent to 1.0% of all outstanding Stage 1 on-balance sheet loans, except for accounts considered as credit risk-free under existing regulations. In cases when the computed loss allowance on such Stage 1 accounts is less than the 1.0% percent general provision required, the deficiency shall be recognized by appropriating the Retained Earnings account.

As at December 31, 2021 and 2020, the loss allowance computed in accordance with PFRS 9 is more than the required GLLP by P88.1 million and P63.9 million, respectively. As such, appropriation is not necessary.

### Statutory Reserve

As at December 31, 2021 and 2020, statutory reserves amounting to P4.98 million pertains to reserves for trust business.

In compliance with BSP regulations, 10.0% of the Bank's profit from trust business is appropriated to surplus reserve. This yearly appropriation is required until the retained earnings amount to 20.0% of the Bank's authorized capital stock.

During 2021 and 2020, the Bank did not appropriate additional reserves since the Bank's retained earnings already amounted to at least 20.0% of the authorized capital stock.

### 19. Compensation and Fringe Benefits

The account consists of:

	2021	2020	2019
Employee benefits:			
Salaries and wages	P663,827,427	P613,663,751	P589,324,565
Fringe benefits	254,929,262	328,113,860	322,697,886
Medical allowance	41,232,355	40,048,403	36,761,142
Retirement benefit expense	41,657,798	31,669,155	19,062,925
Statutory employer			
contributions	23,365,061	19,025,777	16,125,187
	1,025,011,903	1,032,520,946	983,971,705
Directors' fees	8,423,812	8,336,643	9,903,591
	P1,033,435,715	P1,040,857,589	P993,875,296

The Bank has a funded, noncontributory, defined benefit retirement plan covering all of its permanent employees. Contributions and costs are determined in accordance with the actuarial studies made for the plan. Annual cost is determined using the projected unit credit method and valuations are obtained on a periodic basis. The Bank's latest actuarial valuation date is December 31, 2021.

The plan is registered with the Bureau of Internal Revenue (BIR) as tax-qualified plan under Republic Act No. 4917, as amended. The control and administration of the retirement plan is vested in the Board of Trustees (BOT). The BOT of the retirement plan exercises voting rights over the shares and approve material transactions. The retirement plan's accounting and administrative functions are undertaken by the Bank's Trust Operations Department.

The following table shows reconciliation from the opening balances to the closing balances for net retirement benefit liability and its components:

					-	Net Retirement
	Defined Benefits Obligation			of Plan Assets	Benefit Liability	
	2021	2020	2021	2020	2021	2020
Balance at January 1	P337,758,953	P250,531,769	P202,082,485	P191,219,452	P135,676,468	P59,312,317

	(44,450,054)	(29,409,540)	(2,772,420)	2,305,313	(41,677,634)	(31,714,853)
Balance at December 31	P296,563,108	P337,758,953	P208,400,277	P202,082,485	P88,162,831	P135,676,468

Retirement benefit expense is recognized under "Compensation and fringe benefits" in the statements of income. Net remeasurement loss (gain) on retirement liability, net of tax, is recognized in statements of OCI.

The actual return on plan assets amounted to P9.1 million and P8.6 million in 2021 and 2020, respectively.

The net retirement liability is included under "Accrued Interest, Taxes and Other Expenses" account in the statements of financial position (see Note 15).

The movements in net remeasurement loss on retirement liability are as follows:

	Note	2021	2020
Net remeasurement loss on retirement liability at beginning of year		(P119,922,604)	(P66,435,710)
Net remeasurement loss recognized in OCI: Change in remeasurement gain (loss) on retirement liability during the year		47,493,801	(76,409,849)
Deferred tax: Change in deferred tax on remeasurement losses on retirement liability during the year Impact of CREATE Law		(14,248,140) (6,191,211)	22,922,955
	21	(20,439,351)	22,922,955
		27,054,450	(53,486,894)
		(P92,868,154) (	P119,922,604)

The Bank's plan assets consist of the following (in thousands):

	2021	2020
Debt securities	67.7%	67.4%
Equity investments	17.1%	15.3%
Loans	12.1%	10.9%
Due from banks	2.4%	5.7%
Accrued interest receivables	0.6%	0.6%
Dividends receivable	0.1%	0.1%
	100.0%	100.0%

The Bank expects to contribute P37.3 million to its defined benefits retirement plan in 2022 (2021: P41.7 million).

The principal actuarial assumptions used to determine retirement benefits are as follows:

	In Perce	In Percentages	
	2021	2020	
Discount rate	5.4%	3.8%	
Salary increase rate	4.0%	4.0%	

Assumptions for mortality and disability rate are based on the adjusted 1985 Unisex Annuity Table and the Adjusted 1952 Disability Table reflecting experience improvement and Philippine experience.

As at December 31, 2021 and 2020, the weighted average duration of defined benefit obligation is 14 years.

#### Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

		20	21		
	Disc	ount Rate	Salary	Salary Increase Rate	
	+0.5%	-0.5%	+0.5%	-0.5%	
Defined benefit obligation Retirement liability	(P15,066,772) (15,066,772)	P16,275,070 16,275,070	P15,506,502 15,506,502	(P14,501,373) (P14,501,373)	
	2020				
	Disc	ount Rate	Salary	Increase Rate	
	+0.5%	-0.5%	+0.5%	-0.5%	
Defined benefit obligation Retirement liability	(P18,706,347) (18,706,347)	P20,327,692 20,327,692	P19,142,172 19,142,172	(P17,818,452) (17,818,452)	

Although the analysis does not take into account of the full distribution of cashflows expected under the plan, it does provide an appropriation of the sensitivity of the assumptions shown.

Transactions with the retirement plan are made at normal market prices and terms. Outstanding balances as at December 31, 2021 and 2020 are unsecured and settlements are made in cash. There have been no guarantees provided for any retirement plan receivables. The Bank has no impairment losses relating to the receivables from retirement plan in 2021 and 2020.

The plan exposes the Bank to interest rate risk and market (investment) risk.

The BOT reviews the level of funding required for the retirement fund. This includes the asset-liability matching (ALM) strategy and investment risk management policy. The Bank's ALM objective is to match maturities of the plan assets to the retirement benefit obligation as they fall due. The Bank monitors how the duration and expected yield of the investments are matching the expected cash outflows arising from the retirement benefit obligation.

The BOT approves the percentage of asset to be allocated for fixed income instruments and equities. The retirement plan has set maximum exposure limits for each type of permissible investments in marketable securities and deposit instruments. The BOT may, from time to time, in the exercise of its reasonable discretion and taking into account existing investment opportunities, review and revise such allocation and limits.

#### 20. Leases

Rent, utilities and equipment maintenance expenses recognized under "Occupancy and other equipment-related costs" in the statements of income are presented below:

	2021	2020	2019
Repairs and maintenance Rent relating to short-term and	P117,873,630	P126,681,128	P100,496,720
low value assets	22,074,279	28,538,840	34,428,918
Power, light and water	19,067,986	19,701,105	20,522,790
	P159,015,895	P174,921,073	P155,448,428

Right-of-use assets relate to leased branches and office premises that are presented within property and equipment (see Note 9).

	2021	2020
Balance at January 1	P659,961,016	P104,908,756
Additions	114,487,542	655,760,174
Depreciation charge for the year	(110,294,821)	(99,828,240)
Adjustments	-	(879,674)
Balance at December 31	P664,153,737	P659,961,016

Lease liabilities relate to the present value of the remaining lease payments on the Bank's lease contracts presented within Other liabilities (see Note 16).

	2021	2020
Balance at January 1	P678,975,886	P115,279,980
Additions	114,487,542	647,920,151
Accretion of interest	28,939,620	19,493,134
Payment of lease liabilities	(113,340,818)	(103,717,379)
Balance at December 31	P709,062,230	P678,975,886

Amounts recognized in the statements of income:

	2021	2020
Depreciation charge for the year	P110,294,821	P99,828,240
Interest on lease liabilities	28,939,620	19,493,134
Expenses relating to leases of low-value assets	11,231,663	11,623,811
Expenses relating to short-term leases	9,314,652	15,290,021
	P159,780,756	P146,235,206

Expenses relating to short-term leases and low-value assets are recognized as rent expense under "Occupancy and other equipment-related costs" in the statements of income.

Amounts recognized in statement of cash flows:

	2021	2020
Total cash outflow for leases	P133,887,133	P130,631,211

#### 21. Income and Other Taxes

Under Philippine tax laws, the RBU of the Bank is subject to percentage and other taxes (presented as "Taxes and licenses" account in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax (GRT) and DST. Income taxes include the corporate income tax, as discussed below, and final taxes paid at the rate of 20.0%, which is a final withholding tax on gross interest income from government securities and other deposit substitutes. Taxes and licenses incurred by the Bank amounted to P245.6 million and P274.3 million in 2021 and 2020, respectively.

On March 26, 2021, the President of the Philippines has approved the Republic Act No. 11534 or the Corporate Recovery and Tax Incentives for Enterprises Act (CREATE Act), provisions vetoed by the President. Below are the salient features of the Act that are relevant to the Bank:

- Corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding P5.00 million and with total assets not exceeding P100.00 million. All other domestic corporations and resident foreign corporations will be subject to 25% income tax. Said reductions are effective July 1, 2020.
- MCIT rate is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.
- The imposition of improperly accumulated earnings tax has been repealed.

The measure took effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation.

On April 8, 2021, the BIR issued the following implementing revenue regulations that are effective immediately upon publication:

BIR RR No. 2-2021, Amending Certain Provisions of Revenue Regulations No. 2-98, As Amended, to Implement the Amendments Introduced by Republic Act No. 11534, or the "Corporate Recovery and Tax Incentives for Enterprises Act" (CREATE), to the National Revenue Code of 1997, as Amended, Relative to the Final Tax on Certain Passive Income

- BIR RR No. 3-2021, Rules and Regulations Implementing Section 3 of Republic Act (RA). No. 11534, Otherwise Known as the "Corporate Recovery and Tax Incentives for Enterprises Act" or "CREATE", Amending Section 20 of the National Internal Revenue Code of 1997, As Amended
- BIR RR No. 4-2021, Implementing the Provisions on Value-Added Tax (VAT) and Percentage Tax Under Republic Act (RA) No. 11534, Otherwise Known as the "Corporate Recovery and Tax Incentives for Enterprises Act" (CREATE) Which Further Amended the National Revenue Code of 1997, as Amended, as Implemented by Revenue Regulations (RR) No. 16-2005 (Consolidated Value-Added Tax Regulations of 2005), As Amended
- BIR RR No. 5-2021, Implementing the New Income Tax Rates on the Regular Income of Corporations, on Certain Passive Incomes, Including Additional Allowable Deductions from Gross Income of Persons Engaged in Business or Practice of Profession Pursuant to Republic Act (RA) No. 11534 or the "Corporate Recovery and Tax Incentives for Enterprises Act" (CREATE), Which Further Amended the National Revenue Code (NIRC) of 1997

With the effectivity of the CREATE Law, the Bank adjusted its net deferred tax assets (DTA) to reflect the future tax benefits from 30% to 25%. Consequently, the Bank reduced its net DTA resulting to a one-time tax expense amounting to P99.4 million.

In addition, current tax regulations provide for the ceiling on the amount of entertainment and representation (EAR) that can be claimed as a deduction against taxable income. Under the regulation, EAR allowed as deductible expense for a service bank like the Bank is limited to the actual EAR paid or incurred but not to exceed 1.0% of net revenue. EAR of the Bank amounted to P0.2 million and P0.5 million (included under "Miscellaneous expenses" account in the statements of income) in 2021 and 2020, respectively (see Note 22).

The regulations also provide for MCIT of 1.0% on modified gross income and allow a Net Operating Loss Carry Over (NOLCO). The Bank's MCIT and NOLCO may be applied against the Bank's income tax liability and taxable income, respectively, over a three-year period from the year of inception/incurrence, except for MCIT and NOLCO incurred in 2020 and 2021, which may be applied over five (5) years pursuant to Section 4 (bbbb) of Bayanihan II.

According to Section 4 (bbbb) of Bayanihan II and as implemented under RR No. 25-2020, the net operating loss of a business or enterprise incurred for the taxable years 2020 and 2021 can be carried over as a deduction from gross income for the next five (5) consecutive taxable years following the year of such loss. Ordinarily, NOLCO can be carried over as deduction from gross income for the next three (3) consecutive years only.

FCDU offshore income (income from non-residents) is tax-exempt while gross onshore income (income from residents) is subject to 10.0% income tax. The FCDU's other income, those that are not classified as onshore or offshore under R.A. 11534, is subject to 25.0% RCIT based on net taxable income (or 1.0% MCIT based on gross income, if applicable). In addition, interest income on deposit placements with other FCDUs and offshore banking units (OBUs) is taxed at 15%. RA No. 9294, which became effective in May 2004, provides that the income derived by the FCDU from foreign currency transactions with non-residents, OBUs, local commercial banks including branches of foreign banks is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.0% income tax.

#### Income taxes consist of:

Unrealized mark-to-market gain on derivatives	5,289,557	9,758,936	-	15,048,493	15,048,493	-	
Unrealized gain on non-financial asset	(17,502,041)	2,279,674	-	(15,222,367)	-	(15,222,367)	
Revaluation gain AR trustee	(6,887,884)	234,554	-	(6,653,330)	-	(6,653,330)	
Deferred tax assets (liabilities)	P373,931,669	P199,884,798	P22,922,955	P596,739,422	P618,615,119	(P21,875,697)	

The Bank did not recognize deferred tax assets on the following:

		2021		
	Tax Base	DTA	Tax Base	DTA
Loss allowance Excess of MCIT over	P76,199,093	P19,049,773	P71,014,500	P21,304,350
RCIT	-	-	75,761	75,761
	P76,199,093	P19,049,773	P71,090,261	P21,380,111

The unrecognized deferred tax assets on loss allowance and excess of MCIT over RCIT pertain to FCDU books to which management believes that it is not likely that sufficient taxable profits will be available to allow the related deferred tax benefits to be realized in the future.

The reconciliation between the statutory income tax and income taxes follows:

	2021	2020	2019
Income tax expense at			
statutory rate	P31,671,604	P61,691,218	P108,063,498

The details of the Bank's NOLCO and MCIT are as follows:

# NOLCO:

Inception Year	Amount	Used/Expired	Balance	Expiry Year
2021	P103,527,600	Р-	P103,527,600	2026

### Excess MCIT over RCIT:

Inception Year	Amount	Used/Expired	Balance	Expiry Year
2021	P16,727,758	Р-	P16,727,758	2026

# 22. Income and Expenses

In the following table, service fees and commission income from contracts with customers in the scope of PFRS 15 is disaggregated by major type of service. The table also includes a reconciliation of the disaggregated service fees and commission income with the Bank's reportable segments (see Note 24).

	Treasury	Institutional Banking	2021 Retail Banking	Others	Total

Other expenses	44,176,511	49,546,906	51,455,848
	P269,003,133	P308,042,129	P316,108,405

Other expenses consist of fees paid for periodicals, VISA and check processing.

The following table shows the disaggregation of other expense by the reportable segments of the Bank.

	2021	2020	2019
Retail banking	P33,477,364	P35,628,003	P38,085,489
Treasury	2,249,302	2,947,966	6,228,757
Institutional banking	(1,479,479)	1,546,070	2,474,133
Others	9,929,324	9,424,867	4,667,469
	P44,176,511	P49,546,906	P51,455,848

### 23. Basic/Diluted Earnings Per Share

Earnings per share is computed as follows:

-	2021	2020	2019
Net income Weighted number of shares	P11,458,814	P186,378,835	P330,683,222
outstanding	348,307,202	339,596,067	261,653,668
Basic/diluted earnings per share	P0.03	P0.55	P1.26

There are no potentially dilutive shares as at December 31, 2021, 2020 and 2019. Accordingly, diluted EPS is the same as basic EPS.

### 24. Operating Segment Information

The Bank is organized based on the products and services that it offers and operates three principal areas namely: Treasury, Institutional Banking and Retail Banking.

Treasury - principally provides money market, trading and treasury services, as well as the management of the Bank's funding operations by use of government securities and placements and acceptances with other banks.

Institutional Banking - principally handles loans, trade finance and other credit facilities and deposit and current accounts for institutional customers.

Retail Banking - addresses the individual and retail markets. It covers deposit taking and servicing, consumer lending such as home mortgages and personal loans.

Others - principally handling supportive roles which are performed by Operations, Finance Group, Institutional Credit Risk Management Group and Retail Credit Management Group and other divisions under the direct stewardship of the Office of the President.

Segment assets are those operating assets that are employed by a segment in its operating activities and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Segment liabilities are those operating liabilities that result from the operating activities of a segment and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Interest income is reported at the net as management primarily relies on the net interest income as performance measure, not the gross income and expense.

The Bank has no significant customers which contributes 10.0% or more of the total revenue, net of interest expense.

Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to business segments based on a pool rate which approximates the cost of funds.

The following table presents revenue and income information of operating segments presented in accordance with PFRS as of and for the years ended December 31, 2021, 2020 and 2019 (amount in thousands):

	2021					
	Treasury	Institutional Banking	Retail Banking	Others	Total

### 25. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subjected to common control or common significant influence. Related parties may be individuals or corporate entities. Transactions between related parties are based on terms similar to those offered to non-related parties.

The Bank treats other subsidiaries and branch offices of the Parent Bank as related parties (collectively referred to as "entities under common control").

The Bank has loan transactions with investees and with certain DOSRI. Existing banking regulations limit the amount of individual loans to DOSRI, 70.0% of which must be secured, to the total of their respective deposits and book value of their respective investments in the Bank. In the aggregate, loans to DOSRI generally should not exceed the respective total regulatory capital or 15.0% of total loan portfolio, whichever is lower.

On March 15, 2004, the BSP issued Circular 423 which provides for the amended definition of DOSRI accounts. It clarifies that loans granted to officers and employees under an approved fringe benefit program is excluded from the individual ceiling but is subject to 5.0% aggregate ceiling.

The following table shows information relating to DOSRI/Related Party loans (in thousands):

_	2021		2020		
·		Related Party		Related Party	
	DOSRI Loans	Loans	DOSRI Loans	Loans	
Total outstanding loans	Р-	Р-	Р-	Р-	
Percent of					
DOSRI/Related					
Party loans to total					
loan portfolio	0.0%	0.0%	0.0%	0.0%	
Percent of unsecured					
DOSRI/Related					
Party loans to total					
loans	Nil	Nil	Nil	Nil	
Percent of past due					
DOSRI/Related					
Party loans to total					
loans	Nil	Nil	Nil	Nil	

None of the Bank's Directors have any self-dealing/related party transactions with the Bank directly by themselves in 2021 and 2020.

On January 31, 2007, BSP Circular No. 560 was issued providing the rules and regulations that govern loans, other credit accommodations and guarantees granted to subsidiaries and affiliates of banks and quasi-banks. Under the said Circular, total outstanding exposures to each of the bank's subsidiaries and affiliates shall not exceed 10.0% of bank's net worth, the unsecured portion of which shall not exceed 5.0% of such net worth. Further, the total outstanding exposures to subsidiaries and affiliates shall not exceed 20.0% of the net worth of the lending bank. BSP Circular No. 560 is effective on February 15, 2007.

The significant account balances with respect to related parties included in the financial statements (after appropriate eliminations have been made) are as follows:

			Outstan	ding Balance		Conditions
Category/Transaction	Year	Amount of the Transaction	Due from Related Parties	Due to Related Parties	Terms	
Parent						
Current Deposits Deposits Withdrawals Deposits Withdrawals	<b>2021</b> 2020	P - (13,815,968) 7,597,865,432 7,536,220,955	P - - 13,815,968 -	P - - - -	Demandable; non-interest bearing Demandable; non-interest bearing	Unsecured; no impairment Unsecured; no impairment

All transactions with related parties are to be settled in cash.

Impairment losses recognized on loans and receivables from key management personnel is P0.1 million for the year ended December 31, 2021 (2020: P1.4 million; 2019: P0.3 million).

The remuneration of directors and other members of key management personnel are as follows:

	2021	2020	2019
Short-term benefits	P119,034,654	P99,796,246	P91,591,501
Post-employment benefits	12,859,913	5,179,931	-
Other long-term benefits	2,363,311	1,929,633	1,929,633
	P134,257,878	P106,905,810	P93,521,134

In accordance with the Bank's By-Laws, profit share of officers and employees is computed at 10.0% of net income after tax.

The Bank's compensation to Key Management Personnel is shown as part of "Compensation and fringe benefits" in the statements of income.

Furthermore, the Bank has a separate funded noncontributory defined benefit plans covering substantially all its officers and regular employees. Under this retirement plan, all covered officers and employees are entitled to cash benefits after satisfying certain age and service requirements. The Bank's employee benefit fund (or "retirement plan asset") is in the form of a trust account being maintained by the Bank's Trust Operations Department.

As discussed in Note 19, the Bank's retirement plan assets are invested in various debt and equity instruments, such as government securities, corporate papers, equity securities traded in PSE, as well as investments in BSP's special deposit account and placements with the Bank. The Bank's retirement plan assets do not have investments in real properties.

Other than placements with the Bank, the Bank's retirement plan assets do not have investments in securities, whether debt or equity, issued by the Bank as at December 31, 2021 and 2020.

As at December 31, 2021 and 2020, the carrying values of the Bank's retirement plan assets, which approximate its fair value, amounted to P208.4 million and P202.1 million, respectively (see Note 19).

### 26. Derivative Financial Instruments

The table below shows the fair values of derivative financial instruments entered into by the Bank, recorded as derivative assets or derivative liabilities, together with the notional amounts. The notional amount is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding as at December 31, 2021 and 2020 and are not indicative of either market risk or credit risk (in thousands).

		2021	
		1.1.1.11111	Notional

Sell:		•	·
USD/PHP	181,031	42	USD160,715
	P181,666	P231,792	

The Bank entered into currency forwards and swap contracts to manage its foreign exchange risks. Currency forwards are contractual agreements to buy or sell a specified currency at a specific price and date in the future. Currency swaps are contractual agreements to exchange principal and interest payments at fixed intervals denominated in two different currencies.

The net movements in fair value changes of derivatives are as follows (amount in thousands):

	2021	2020
Net derivative asset at beginning of year	(P50,125)	(P22,159)
Net changes in fair value of derivatives	64,868	(32,526)
Fair value of settled contracts	(31)	4,560
Net derivative asset at end of year	P14,712	(P50,125)

## 27. Classification and Measurement of Financial Instruments under PFRS 9

The following table provides a reconciliation between line items in the statements of financial position and categories of financial instruments:

		2021

## 28. Other Matter - Continuing Impact of Corona Virus Disease 2019 (COVID-19)

As of December 31, 2021, the effects of the COVID-19 pandemic and the Alert Levels set on National Capital Region and nearby cities, has not resulted to material impact on the Bank's liquidity. In addition, year on year comparison of provision for probable losses has shown significant improvement in the Bank's default rate. Notwithstanding this, the Bank remains cognizant of the risks and uncertainties brought about by the pandemic, thus, the Bank maintains its prudent and proactive approach towards maintaining its asset quality.

Other than this, there are no known trends, events, uncertainties that had or reasonably expected to have a material favorable or unfavorable impact on income from continuing operations. There are also no known material commitments for capital expenditures as of reporting date. There are no significant elements of income or loss that arose from the Bank's continuing operations. Likewise, there are no seasonal aspects that had material effect on the financial condition or results of operations.

There are no known events that will trigger direct or contingent financial obligation that is material to the Bank, including any default or acceleration of an obligation. Also, there are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Bank with unconsolidated entities or other persons created as of the reporting date.

### 29. Supplementary Information Required under BSP Circular No. 1074

The following supplementary information is required by Appendix 55 - Disclosure Requirements to the Audited Financial Statements (AFS) to Section 174 of the MORB of the BSP, amended by BSP Circular No. 1074, *Amendments to Regulations on Financial Audit of Banks*.

#### A. Financial Performance Indicators

The following basic ratios measure the financial performance of the Bank:

		2021	2020	2019
a. b.	Net income Average total equity	P11,458,814 10,789,079,157	P186,378,835 10,147,651,063	P330,683,222 8,373,211,275
	Return on average equity (a/b)	0.1%	1.8%	3.9%
c. d.	Net income Average total assets	P11,458,814 52,179,344,940	P186,378,835 53,559,217,955	P330,683,222 55,020,839,232
	Return on average assets (c/d)	0.0%	0.3%	0.6%
e. f.	Net interest income Average interest earning	P2,389,095,722	P2,520,481,927	P2,278,588,945
	assets	46,598,264,039	47,836,566,232	49,915,579,319
	Net interest margin on average earning assets (e/f)	5.1%	5.3%	4.6%

Note: Average balances were determined as the average of the current and previous calendar balances of the respective statements of financial position accounts.

### **B.** Commitments and Contingencies

In the normal course of business, the Bank enters into various commitments and incurs contingent liabilities that are not presented in the accompanying financial statements. The Bank does not anticipate any material losses as a result of these commitments and contingent liabilities.

For regulatory reporting purposes, the following is a summary of the commitments and contingent liabilities at their equivalent peso contractual amounts (amount in thousands):

	2021	2020
Standby letters of credit	P848,026	P1,265,506
Trust department accounts	1,470,063	1,773,541
Credit commitments	618,192	288,138
Sight/usance import letters of credit	1,329,142	348,264
Outward bills for collection	34,647	1,436,503
Others	3,394	4,331

Securities and other properties held by the Bank in a fiduciary or agency capacity for its customers are not included in the Bank's statements of financial position since these items are not assets of the Bank. As at December 31, 2021 and 2020, total assets held by the Bank's Trust Department amounted to P1.5 billion and P1.8 billion, respectively.

In connection with the trust operations of the Bank, government securities with carrying value of P1.36 billion (face value of P1.38 billion) and P19.8 million (face value of P20.0 million) as of December 31, 2021 and 2020 are deposited with the BSP in compliance with existing banking regulations relative to the trust functions of the Bank.

In compliance with existing BSP regulations, 10.0% of the Bank's income from trust business is appropriated to retained earnings. This yearly appropriation is required until the retained earnings for trust functions equals 20.0% of the Bank's regulatory net worth. No part of such retained earnings shall at any time be paid out as dividends, but losses accruing in the course of business may be charged against such surplus. As at December 31, 2021 and 2020, the reserve for trust functions recorded under "Statutory reserve" in the statements of financial position amounted to P5.0 million.

As at December 31, 2021 and 2020, off-balance sheet commitments and contingent liabilities with credit risk exposure amounted to P2.8 million and P1.9 million. These include unused commercial letters of credit and credit commitments which are subject to ECL.

No sale and repurchase agreements were not recognized in the balance sheet asset as at December 31, 2021 and 2020.

## Other Commitments

The assets pledged by the Bank are strictly for the purpose of providing collateral for the counterparty. To the extent that the counterparty is permitted to sell and/or re-pledge the assets, they are classified in the statements of financial position as pledged collateral. The pledged assets will be returned to the Bank when the underlying transaction is terminated but, in the event of the Bank's default, the counterparty is entitled to apply the collateral in order to settle the liability.

No asset is being pledged by the Bank to secure outstanding liabilities as at December 31, 2021 and 2020.

Other relevant disclosures required by BSP Circular No. 1074 are in Notes 3, 5 and 18.

### 30. Supplementary Information Required Under Revenue Regulations 15-2010

On November 25, 2010, the BIR issued Revenue Regulations (RR) No. 15-2010 for the amendments in certain provisions of RR No. 21-2002, as Amended, Implementing Section 6(H) of the Tax Code of 1997, Authorizing the Commissioner of Internal Revenue to Prescribe Additional Procedural and/or Documentary Requirements in Connection with the Preparation and Submission of Financial Statements Accompanying the Bank's Tax Returns.

In compliance with the above RR, the Bank presents information on taxes, duties and license fees paid or accrued during the taxable years.

The details of taxes and licenses account in 2021 are as follows:

Gross receipt tax (GRT)	P147,648,898
Documentary stamp tax	92,179,272
Business licenses	5,275,923
Bank car registration	209,389
Real property tax	172,533
Business taxes	68,002
Annual registration fee	18,000
Community tax certificate	13,000
	P245,585,017

The NIRC of 1997 provides for the imposition of GRT on gross receipts derived by banks from sources within the Philippines. Accordingly, the Bank's gross receipts are subject to GRT as re-imposed in RA No. 9238 beginning January 1, 2004.

Details of the GRT remitted in 2021 are as follows:

		Total	
	Tax Base	Remittances	Balance
Income subject to 5.0%	P2,455,824,100	P112,478,735	P10,312,470
Income subject to 1.0%	22,625,356	217,408	8,846
Other income subject to 7.0%	351,877,712	22,588,089	2,043,351
	P2,830,327,168	P135,284,232	P12,364,667

#### **Documentary Stamp Tax**

Movement in documentary stamp tax as follows:

	Balance
Documentary stamps on hand, December 31, 2020	P25,581,473
Purchases (BIR Form 2000)	280,000,000
Documentary stamps used	(286,084,385)
Documentary stamps on hand, December 31, 2021	P19,497,088

#### Withholding Taxes

Details of total remittances of withholding taxes in 2021 are as follows:

	Total	
	Remittances	Balance
Withholding taxes on compensation and benefits	P182,229,250	P21,939,986
Final withholding tax on interest on deposits	32,094,765	2,486,611
Expanded withholding taxes	22,390,207	1,982,789
	P236,714,222	P26,409,386

Outstanding amount of withholding taxes are included in "Other liabilities" account in the statements of financial position.

#### **Deficiency Tax**

On March 16, 2015, the Bank received a Preliminary Assessment Notice (PAN) from the BIR, covering the taxable year 2011, amounting to P200.6 million, inclusive of penalties and interest. The said PAN pertains to the allocation of expenses under Revenue Regulations No. 4-2011 (RR 4-11).

In relation to RR 4-11, on April 6, 2015, several local banks and branches of foreign banks, including the Bank, filed a Petition for Declaratory Relief (with urgent application for the issuance of a Temporary Restraining Order and/or a Writ of Preliminary Injunction) with the Makati Regional Trial Court (RTC).

On April 27, 2015, the Makati RTC granted the application for a Writ of Preliminary Injunction and issued an Order stopping the BIR from enforcing, carrying-out, and implementing RR 4-11. The BIR moved for the reconsideration, but the same was denied. The case is now undergoing pre-trial conference which will eventually lead to trial stage proper. Pending these incidents, however, the court issued injunction against the BIR stays. Pre-trial conference was concluded in 2017, with Makati RTC directing the submission of legal memorandum. Both plaintiff and defendant complied with the court's directive. With the submission of the legal memoranda, Makati RTC has considered the case submitted for decision.

On June 26, 2018, our external counsel, ACCRA Law Office, received RTC-Makati's ruling which favoured the consortium banks and nullified the BIR regulation (RR 4-11) which then BIR Commissioner Henares issued and from where the tax assessments arose. In other words, the Court absolved the banks from their alleged tax liabilities. In its November 2018 report, ACCRA Law Office informed the consortium banks that BIR filed an appeal with the Supreme Court and ACCRA Law Office is now waiting for the Supreme Court's resolution whether it will reject/dismiss the appeal outright, or direct the consortium banks to file their Comment on this appeal before rendering its decision.

Acting on BIR's appeal, the Supreme Court issued its Resolution dated March 27, 2019 requiring the banks to submit their comment on BIR's petition. As required, our external counsel, ACCRA Law Office, submitted the Comment which opposed the BIR's appeal and prayed for the confirmation of RTC-Makati's ruling. Both BIR and the banks are now waiting for further orders or resolution from the Supreme Court.

On December 7, 2020, ACCRA Law Office received a Resolution from the Supreme Court which required the Office of the Solicitor General (OSG), the counsel of BIR, to file its Reply to the Comment which the banks filed earlier. It is expected that the OSG will be filing anytime soon the required Reply.

The Office of the Solicitor General (OSG), the counsel of BIR, filed its Consolidated Reply dated March 30, 2021. No new resolution or ruling yet from the Supreme Court as of this time.

#### 31. Sustainable Finance Framework

The Bank recognizes that monitoring of Environment and Social Risks shall be of high priority in the coming years given the Parent Bank initiatives and local regulatory requirements such as the BSP Circular 1085, *Sustainable Finance Framework*, and BSP Circular 1128's, *Environmental and Social Risk Management Framework*, directive for all financial institutions to develop sustainable finance policy framework and environmental and social risk management framework.

The Bank has launched its three-year sustainability transition plan in response to the abovementioned BSP Circulars. To this end, the Bank aims to embed sustainability principles including environment and social risk areas, into our corporate governance framework, risk management systems, and strategic objectives consistent with the size, risk profile, and complexity of our operations.

The transition plan was approved by the Board of Directors on December 17, 2020. A working group was set up to focus on the launch and implementation of the initiative. It is comprised of the Enterprise Risk Management Group, Institutional Banking Group, Retail Banking Group, Retail Credit Management Group, Institutional Credit Management Group, Human Resources and Administration Group, Finance Group, Information Technology Group, Information Security, and Internal Audit. The transition will be done in phases and will be fully implemented on or before the due date of May 15, 2023. The Bank has completed the risk appetite setting on July 31, 2021, applicability assessment on September 30, 2021 and the action plan on December 31, 2021. The implementation of the action plan will commence in January 2022 and will last until December 2022.

The Risk Governance Policy has been updated to include the roles and responsibilities and policies on Environment and Social Risks of the Parent Bank have been adapted to the local setting. The other policies, guidelines and manuals impacted by the Circulars will also be updated in 2022.

Environmental, Social and Governance (ESG) considerations will be included in the stress testing exercise starting 2023 upon completion of the transition plan implementation.

<sup>&</sup>lt;sup>1</sup> - At the regular meeting of the BOD held on June 23, 2015, the BOD approved the restriction of the full amount of retained earnings for the following purposes:

i.) to comply with minimum capital requirement set forth under BSP Circular No. 854.
ii.) to comply with the requirements of the ICAAP pursuant to BSP Circular No. 639; and
iii.) to provide for buffer in preparation for BASEL III requirements

## SCHEDULES REQUIRED BY ANNEX 68-J DECEMBER 31, 2021

Philippine Securities and Exchange Commission (SEC) issued the Revised Securities Regulation Code Rule (SRC) 68. It prescribed the additional information and schedule requirements for issuers of securities to the public.

Below are the additional information and schedules required by the Revised SRC Rule 68. These are presented for purposes of filing with the SEC and is not required part of the basic financial statements.

Schedule A: Financial Assets

Schedule B: Amounts Receivable from Directors, Officers, Employees, Related

Parties and Principal Stockholders (Other than Related Parties)

Schedule C: Amounts Receivable from Related Parties which are eliminated

during the consolidation of financial statements

Schedule D: Long-Term Debt

Schedule E: Indebtedness to Related Parties (Long-Term Loans from Related

Companies)

Schedule F: Guarantees of Securities of Other Issuers

Schedule G: Capital Stock

# SCHEDULE A - FINANCIAL ASSETS DECEMBER 31, 2021

## **Financial Assets**

Below is the detailed schedule of financial assets in equity and debt securities of the Bank as of December 31, 2021:

153.5%

141.1%

## Profitability Ratios

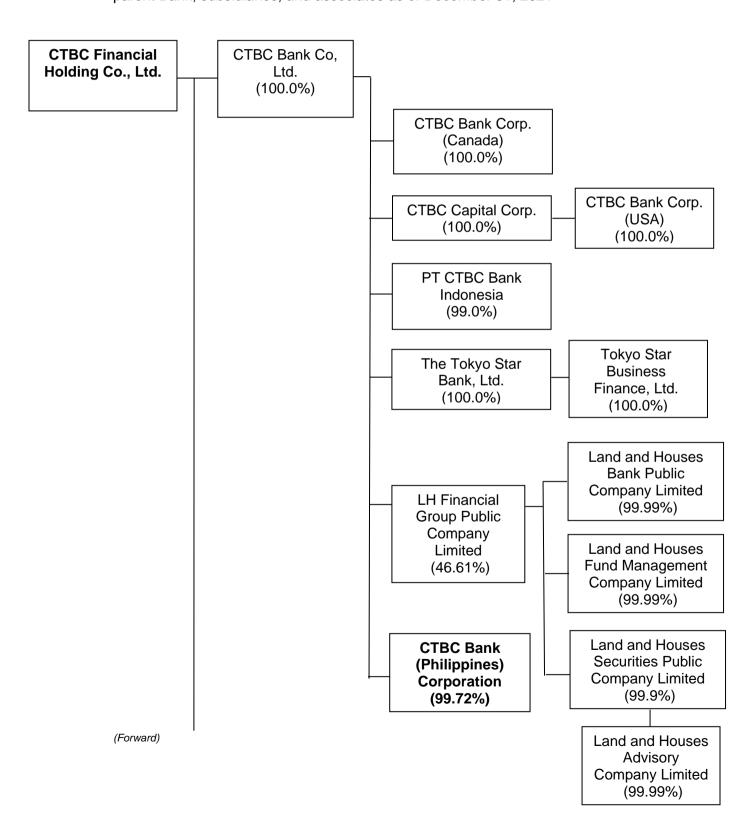

The ratios for the years 2021 and 2020 are as follows:

	2021	2020
Net income Average total equity <sup>2</sup>	P11,458,814 10,789,079,157	P186,378,835 10,147,651,063
Return on average equity	0.1%	1.8%
Net income Average total assets <sup>2</sup>	P11,458,814 52,179,344,940	P186,378,835 53,559,217,955
Return on average assets	0.0%	0.3%
Net interest income Average interest earning assets <sup>2</sup>	P 2,389,095,722 46,598,264,039	P2,520,481,927 47,836,566,232
Net interest margin on average earning assets	5.1%	5.3%

Net liquid assets consist of cash, due from BSP, due from other banks, interbank loans, securities held for trade and available for sale less derivatives liabilities and interbank borrowings.
 Average balances were determined as the average of the current and previous calendar balances of the respective statements of financial position accounts.

## RELATIONSHIP MAP DECEMBER 31, 2021

Below is a map showing the relationship between and among the Group and its ultimate parent Bank, subsidiaries, and associates as of December 31, 2021

Amendment to PFRS 7, Disclosure: Offsetting Financial Assets and Financial Liabilities

These amendments require an entity to disclose information about rights of set-off and related arrangements (such as collateral agreements). The new disclosures are required for all recognized financial instruments that are set off in accordance with PAS 32, *Financial Instruments: Presentation.* These disclosures also apply to recognized financial instruments that are subject to an enforceable master netting arrangements of 'similar agreement,' irrespective of whether they are set-off in accordance with PAS 32. The amendments require entities to disclose, in a tabular format unless another format is more appropriate, the following minimum quantitative information. This is presented separately for financial assets and financial liabilities recognized at the end of the reporting period:

- a. Gross amounts of those recognized financial assets and recognized financial liabilities;
- b. Amounts that are set off in accordance with the criteria in PAS 32 when determining the net amounts presented in the statements of financial position;
- c. Net amounts presented in the statements of financial position;
- d. Amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in (b) above, including:
  - Amounts related to recognized financial instruments that do not meet some or all of the offsetting criteria in PAS 32;
  - Amounts related to financial collateral (including cash collateral); and
- e. Net amount after deducting the amounts in (d) from the amounts in (c) above.

Pursuant to the amendments to PFRS 7 requiring the Bank to disclose information about rights to offset and related arrangements, the Bank's financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements as of December 31, 2021 and 2020 are as follows (in millions):

_			20:	21		
	Gross Amounts of	Gross Amounts of Recognized Financial Liabilities Offset in the	Net Amounts of Financial Assets Presented in the	the Statements	Related Amounts not Offset in the Statements of Financial Position

### E. Treasury

### 1. Foreign Exchange

- FX Spot address buy/sell foreign exchange needs of the clients.
- FX Deliverable Forward (DF) An FX DF is a contract between the client and CTBC Bank, in which client either have the obligation to buy the underlying currency from the Bank or to sell it to the Bank at a future date at a rate agreed at present (forward rate).
- FX Non-Deliverable Forward (NDF) As with FX DF, FX NDF is a contract between the client and CTBC Bank, in which client either have the obligation to buy the underlying currency from the Bank or to sell it to the Bank at a future date at a rate agreed at present (forward rate). Unlike the FX DF, the FX NDF only settles the difference between the onshore official fixing rate and the FX NDF rate at contract forward date. Client either pay to or receive from the Bank the difference depending on the onshore fixing rate at forward date. Client could then buy or sell the same currency in the onshore spot market to fulfill the physical currency requirement. In effect, client are buying or selling the onshore currency at the offshore FX NDF contract rate.
- FX Options (FXO) An FXO is a derivative contract between a buyer and a
  seller that gives the buyer of the contract the right, but not the obligation, to buy
  (call) or to sell (put) a specified amount of one currency against another
  currency at a specified rate on a specified date. Under this contract, the buyer
  pays a premium while the seller receives a premium.

#### 2. Peso Fixed Income

- Treasury Bills (T-Bills) Treasury Bills are short-term negotiable and transferable debt instruments of the National Government issued by the Bureau of Treasury.
- **Fixed Rate Treasury Notes** Fixed Rate Treasury Notes (FXTNs) are medium to long-term negotiable and transferable debt instruments of the National Government issued by the Bureau of Treasury.
- Retail Treasury Bonds Retail Treasury Bonds (RTBs) are medium to longterm negotiable and transferable debt instrument of the National Government issued by the Bureau of Treasury.
- **Global Peso Note** Global Peso Notes are issued by the Republic of the Philippines to provide the market with a Bond that capitalizes on the strength

of the PhP against USD. These are direct, unconditional obligations of the Republic of the Philippines to pay the prevailing USD equivalent of the nominal PhP amount from the computed semi-annual coupon interest and bullet principal. They are effectively PhP-denominated Bonds with settlement in USD at the prevailing USD / PhP rate.

• **Peso Corporate Bond -** Peso Corporate Bonds are medium to long-term negotiable and transferable debt instruments issued by a Corporation.

  - Sun Life Philippine Stock Index Feeder Fund a peso denominated equity Unit Investment Trust Fund in the form of a feeder fund that aims to to achieve for its participants investment returns that track the performance of the Philippine Stock Exchange Index (PSEi) by investing in a diversified portfolio of stocks comprising the PSEi in the same weights as the index, to the extent practicable. The target fund is Sun Life Prosperity Philippine Stock Index Fund, Inc., an open-end investment company duly registered with the Securities and Exchange Commission.

- 2. Investment Management suitable for clients who want a flexible fund management set-up wherein various asset types can be mixed in a professionally managed portfolio. As an Investment Manager, the Bank's Trust and Investment Services Department (TISD) develops and applies investment strategies that are suitable to and in line with the client's requirements.
- 3. Retirement Fund Management With a Retirement/Pension/Provident Fund set up for your company, you can look forward to a systematic payment of determinable financial benefits to eligible employees either in lump sum upon his retirement / separation from the company or over a period of years after retirement. The benefits to be received are fixed or pre-determined, and the funding of the plan to meet the retirement benefits and costs are actuarially estimated.

# 4. Other Fiduciary Services

- Escrow Agency may be used for the smooth and impartial facilitation of a certain transaction between two parties, most commonly during the buying or selling of assets.
- Mortgage Trust Indenture a service provided by the Bank's Trust and Investments Services Department (TISD) wherein it is appointed as a Trustee that acts as an impartial intermediary between a company and its creditors in the administration of properties securing the company's loans.

#### ANNEX 4: CORPORATE GOVERNANCE

# **Corporate Governance Structure and Practices**

Board oversight on good governance of the Bank is very essential for the stability and success of the institution. As such, part of the implementation of the governance structure, designated board committees ensures that their respective oversight covers all areas how the risks, the business and controls are effectively monitored and efficiently managed.

Good Corporate Governance is the foundation of safe and sound banking operations and a reflection of the collective values and competence of the board of directors and senior management team. It embodies the principles of fairness, accountability and transparency thus promoting the protection of the rights of all stakeholders and as stated in the Bank's Vision and Mission and Code of Ethics.

The Board is primarily responsible for the governance of the Bank. The Bank's financial condition, results of operations, current and potential level of risk exposures and the quality of the control environment are the ultimate responsibility of the board of directors. As such, Board Governance is the deciding component and a crucial part in the functions of the institution. Good governance ensures that objectives are realized, resources are well-managed, and the interests of the stakeholders are protected and reflected in the decisions and oversight on the effective implementation of the governance standards and principles.

# **Selection Process for the Board and Senior Management**

For the Directors position, the NRG Committee acknowledges that CTBC Bank, as a subsidiary, the parent bank and stakeholders have the right to nominate board members and/or approve their selection. Notwithstanding that the Board, within its power shall ensure that members selected for the board are qualified. This include the review of the minimum criteria below:

- 1. Possess the knowledge, skills, experience and particularly in the case of non-executive directors, independence of mind given their responsibilities on the board and in the light of the Bank's business and risk profile;
- 2. Have a record of integrity and good repute
- 3. Have sufficient time to fully carry out their responsibilities and
- 4. Have the ability to promote a smooth interaction between board members
- 5. Have no conflicts of interests that may impede their ability to perform their duties independently and objectively and subject them to undue influence from other persons (such as management or other shareholders, past or present positions held or personal, professional or other members of the board or management or with other entities within the group).

The Nomination Process is conducted by the NRG Committee, which identifies and nominates candidates after taking into account the criteria provided. This process is usually performed during regular or special board meeting in cases of appointment, replacement or resignation of incumbent directors or officers and election during Annual Stockholders' Meeting. For Officers' Selection Process, CTBC-PH HRAG shall have the policy for reference.

# **Board's Overall Responsibility**

It shall be the Board's responsibility to foster the long-term success of the Bank and secure its sustained competitiveness in a manner consistent with its fiduciary responsibility, which it shall exercise in the best interest of the Bank, its shareholders and other stakeholders. The Board shall conduct itself with utmost honesty and integrity in the discharge of its duties, functions and responsibilities.

The Board of Directors is comprised of individuals with mixed and varied expertise and collectively reaches independent and sound decisions. They ensure that directors who are members of the board committees have the expertise and experience in providing sound displaying the required "independence" as well as ensuring that there is no conflict of interests.

# Role and Contribution of Executive, Non-Executive and Independent Directors and of the Chairman of the Board

## **Chairman of the Board**

The Chairman of the Board of Directors shall provide leadership in the Board of Directors. He shall ensure effective functioning of the Board of Directors, including maintaining a relationship of trust with members of the Board of Directors.

Following are the responsibilities:

- 1) Ensure that the meeting agenda focuses on strategic matters including discussion on risk appetites, and key governance concerns;
- 2) Ensure a sound decision-making process;
- Encourage and promote critical discussion;
- Ensure that dissenting views can be expressed and discussed within the decisionmaking process;
- 5) Ensure that members of the board of directors receive accurate, timely and relevant information;
- 6) Ensure the conduct of proper orientation for first-time directors and provide training opportunities for all directors; and
- 7) Ensure conduct of performance evaluation of the board of directors at least once a year.
- 8) Ensure that the meetings of the Board are held in accordance with the by-laws or as the Chair may deem necessary;

9) Supervise the preparation of the agenda of the meeting in coordination with the

Corporate Secretary, taking into consideration the suggestions of the CEO, Management and the Directors, and;

10) Maintain qualitative and timely lines of communication and information between the Board and Management.

#### **Chief Executive Officer**

The CEO shall be the overall-in-charge for the management of the business and affairs of the Bank governed by the strategic direction and risk appetite approved by the Board of Directors. He shall be primarily accountable to the Board of Directors in championing the desired conduct and behavior, implementing strategies, and in promoting the long-term interest of the Bank.

One of the critical duties and responsibilities of the Board of Directors is the selection of the Chief Executive Officer (CEO) and the members of the management team.

Members of the Management Team are primarily tasked to:

- 1) Oversee the implementation of approved business plans and strategies and management of the Bank's day to day operations;
- 2) Translate to their performance the fitness and propriety of the management on effectively achieving the Bank's objectives;
- 3) Cascade the tone of governance and culture of control within the Bank;
- 4) Ensure that the reports and information package submitted by the management to the board also reflect the quality and extent of its performance;
- 5) Involve in the development of strategies and in monitoring achieving of the business plans;
- 6) Effectively monitor adherence to the policies and procedures and promptness of actions to address the deficiencies and weaknesses noted;
- 7) Plans provided to retain competent staff and attract new employees who believe and adhere to the values of the organization and inform the board on a timely basis of the Bank's operating performance as well as the development in the business environment;
- 8) Responsible for the implementation and consistent adherence by all personnel to the policies approved by the board of directors in relation to controls, independent oversight and checks and balances systems, ensuring among others that:
  - a. Financial statements are prepared in accordance with the accounting standards on the prescribed financial reporting framework. Documentation sufficient to support the financial statements is maintained. This responsibility includes ensuring that the external auditor who audits and reports on the financial statements has complete and unhindered access to, and is provided with, all necessary information that can materially affect them and, consequently, the auditor's report on them, to the extent allowed by law. Management also has the responsibility to provide all information to regulatory agencies that are entitled to such information by law or regulation.
  - b. Management is responsible for maintaining, monitoring and evaluating the adequacy and effectiveness of the internal control system on an ongoing basis, and for reporting on the effectiveness and sustainability of the FIs risk management and control procedures and infrastructure. In fulfilling its duties and responsibilities,

management should take all necessary measures to ensure that there is continuous, adequate and effective internal audit process.

9) Effective oversight on the Bank's disclosure practices.

# **Board Structure and Composition**

The Board of Directors of CTBC Bank (Philippines) Corp. is consists of eight (8) members, composed of Executives, Non-Executives and Independent Directors as set forth in the Articles of Incorporation and By-Laws of the Bank.

The members of the Board shall be selected from a broad pool of qualified candidates. Non-Executive Directors who shall include independent directors, shall comprise at least majority of the board of directors to promote the independent oversight of management by the board of directors. Three (3) members of the board of directors shall be independent directors. The duties and responsibilities of the directors are embedded in the Bank's Corporate Governance Manual.

Executive Director (ED) is a director who has the executive responsibility and performs work related to the operations of the Bank's operations.

Non-Executive Director (NED) refers to those who are not part of the day to day management of the Bank's operations.

# **Board Composition & its Members**

Board Composition as of 31 Dec 2021	Type of Directorships	The Principal Stockholder Represented if Nominee	The Number of Years Served as Director (September 1995- December 2021)	Number of direct and indirect shares held	Percentage of Shares Held to Total Outstanding Shares of the Bank

William B. Go	Director		26	53	0%
Oliver D. Jimeno	Director		2	1	0%
Li-Hsuan Juan	Director		1	1	0%
Jui-Cheng Huang	Director		191 days (appointed 6/24/2021)	1	0%
Alexander A. Patricio	Independent Director		3	1	0%
Stephen D. Sy	Independent Director		2	1	0%
			191 days		
Luis Y. Benitez, Jr.	Independent Director		(appointed 6/24/2021)	1	0%

#### **Board Qualification**

# **Qualifications of the Chairperson of the Board of Directors**

To promote checks and balances, the Chairperson of the Board of Directors shall be a non-executive director or an independent director and must not have served as CEO of the Bank within the past three (3) years. The positions of the Chairperson and the CEO shall not be held by one (1) person. In exceptional cases where the position of Chairperson of the Board of Directors and CEO is allowed to be held by one (1) person as approved by the Monetary Board, a lead independent director shall be appointed.

#### **Qualifications of Directors**

A director shall have the following minimum qualifications:

1) He must be fit and proper for the position of a director.

In determining whether a person is fit and proper for the position of a director, the following matters must be considered: integrity/probity, physical/mental fitness; relevant education/financial literacy/training; possession of competencies relevant to the job, such as knowledge and experience, skills, diligence and independence of mind; and sufficiency of time to fully carry out responsibilities.

In assessing a director's integrity/probity, consideration shall be given to the director's market reputation, observed conduct and behavior, as well as his ability to continuously comply with company policies and applicable laws and regulations, including market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

An elected director has the burden to prove that he possesses all the foregoing minimum qualifications and none of the cases mentioned under Section 138 (Persons disqualified to become directors).

A director shall submit to the Bangko Sentral the required certifications and other documentary proof of such qualifications using Appendix 101 as guide within twenty (20) Banking days from the date of election. Non-submission of complete documentary requirements or their equivalent within the prescribed period shall be construed as his failure to establish his qualifications for the position and results in his removal from the board of directors.

The Bangko Sentral shall also consider its own records in determining the qualifications of a director.

The members of the Board of Directors shall possess the foregoing qualifications in addition to those required or prescribed under R.A. No. 8791 and other applicable laws and regulations.

He must have attended a Seminar on Corporate Governance for Board of Directors.

A director shall submit to the Bangko Sentral a Certification of Compliance in attending the Seminar on Corporate Governance for first-time directors as documentary proof of such compliance: Provided, that the following persons are included in the list below exempted from complying with the aforementioned requirement:

- Filipino citizens with recognized stature, influence and reputation in the Banking community and whose business practices stand as testimonies to good corporate governance;
- Distinguished Filipino and foreign nationals who served as senior officials in central Banks and/or financial regulatory agencies, including former Monetary Board members; or
- c. Former Chief Justices and Associate Justices of the Philippine Supreme Court: Provided, further, that this exemption shall not apply to the annual training requirements for the members of the board of directors.

# Changes in the Board of Directors - CORSEC

(Refer to SEC Report 17-A, page 6)

# **List of Executive Officer & Senior Management**

#### **Executive Officers**

The following are the Bank's executive officers/senior management and Mancom:

**OLIVER D. JIMENO**, Filipino, holds a Master's and Bachelor's degree in Business Administration from the University of the Philippines. He was appointed as President and CEO of CTBC Bank (Philippines) Corp. on December 02, 2019. Mr. Jimeno has been with the Bank since December 1999, having served as Head of Treasury's Domestic Desk in 1999 and Head of the Liquidity and Balance Sheet Management Desk in 2005, before eventually being appointed as the Bank's Treasurer in 2009. Prior to joining CTBC Bank Philippines, he was a Swap Trader at PCIBank and a Trust Marketing Officer at Citytrust. Mr. Jimeno is 50 years old.

**NENGSHIH WANG**, a.k.a. Arthur Wang, Taiwanese, joined CTBC Bank (Philippines) Corp. as Executive Vice President and Deputy Chief Executive Officer on July 24, 2019. He was previously with Sydney Representative Office of CTBC Bank Co. Ltd where he was Chief Representative. Prior to his assignment in Australia, Arthur held several positions at CTBC Bank Co. Ltd., most recently as SVP and Head of SME Marketing Department. He also brings in extensive experience in Debt Capital Markets from his position as Director of ABN AMRO Bank N.V. (Taipei Branch). Arthur holds a Business Administration degree in Transportation and Communication Management from National Cheng Kung University as well as a Master's degree in Business Administration from University of Wisconsin-Madison. He is 55 years old.

ERIBERTO LUIS S. ELIZAGA, Filipino, earned his AB Economics degree from the Ateneo De Manila University. He is Executive Vice President and Head of Institutional Banking Group. His career in the banking industry spans over 30 years. Prior to joining CTBC Bank, he was the Corporate Banking Head of Philippine Bank of Communications (2015) and most recently, East West Banking Corporation (2018). Before joining PBCOM, Luis spent 15 years of his career with Security Bank during which time he held numerous senior leadership roles. He likewise had stints with Standard Chartered Bank (1996), Union Bank of the Philippines (1993) and Philippine Commercial International Bank (1987). He is 57 years old.

JEREVEN B. ADRIANO, Filipino, earned his Bachelor of Science in Entrepreneurial Management degree from Polytechnic University of the Philippines. He re-joined CTBC Bank Philippines on September 4, 2020 as First Vice President and Head of Information Technology Group. He has more than 25 years of working experience from different banking institutions. His banking career started when he joined Metropolitan Bank and Trust Company (1995), followed by his stint with MBTC Technology Inc. (2002). He was assigned in various roles of increasing responsibility from Business Analyst to Senior Business Analyst and eventually Department Head. He joined Maybank Philippines Inc. where he served as the IT Lead for Community Financial Services Regional Programs (2012) and Business Analysis and Support Department Head (2014). In 2016, he joined PNB Savings Bank as Information Technology Division Head. Prior to joining CTBC Bank in 2020, he was the Deputy Information Technology

Group Head and Applications Development and Support Division Head of Philippine National Bank. He is 49 years old.

**LOLITO RAMON A. CERRER, JR.**, Filipino, earned his AB Philosophy degree from the Ateneo De Manila University. He is Senior Vice President and Consumer Finance Sales Head. Prior to joining CTBC Bank, he was the Head of Personal Loans of Security Bank, a role he performed for five years. He likewise had stints at Philippine Savings Bank, APEX Distributors Inc., Metrovet Philippines, Century Canning Corporation, Universal Food Corporation and Philippines Commercial International Bank. At the early part of his career, Jun taught philosophy at the Holy Apostles Senior Seminary. He is 59 years old.

JUSTINE BENEDICT G. DELA ROSA, Filipino, acquired his AB Economics degree and BS Management of Financial Institutions degree from De La Salle University. He is Senior Vice President and Head of Treasury Group. His career in banking started in 1997 when he was selected to be part of Solid Bank's Officer Development Program. Upon completion of the program, he chose to start a career in Treasury as a Liquidity Trader. In his more than 18 years with CTBC Bank, he has quickly moved up the corporate ladder and has assumed positions of increasing responsibility. From being a Department Head of Trading Desk in 2006, Mr. Dela Rosa was appointed as Treasury Group Head last December 02, 2019. He is 47 years old.

MARIA ALICIA C. MARASIGAN, Filipino, earned her Bachelor's Degree in Commerce from St. Scholastica's College Manila and her Master's Degree in Business Administration from the Ateneo De Manila University. She joined CTBC Bank in 2021 as Senior Vice President and Head of the Banking Operations Group. Her banking career started when she joined Philippine Savings Bank as Credit Analyst. After her 10-year career with Philippine Savings Bank, she moved to Planters Development Bank in 2003 where her last role was Corporate Salary Loan Unit Head. From 2007 to 2012, she was with Premiere Bank (acquired by Security Bank) as Corporate Salary Loan Department Head and later on as Senior Assistant Vice President and Seafarers Loan Team Head. In 2014, she served as Transformation and Strategy Head of Maybank Philippines, Inc. and later on assumed the Central Operations Group Head position before joining CTBC Bank. Ms. Marasigan is 48 years old.

REMO ROMULO M. GARROVILLO, JR., Filipino, holds an AB Economics degree from Ateneo de Manila University. He is Senior Vice President and Head of Retail Banking Group. He joined CTBC Bank on December 09, 2014 as Head of Global Transaction and Other Banking Channels followed by his appointment as full-fledged Retail Banking Group Head effective July 25, 2019. Prior to CTBC Bank, he was Director of Merchant Acquisition of Globe Telecom. He started his banking career at Union Bank of the Philippines in 1999, initially as Customer Service Officer and later on as Cash Solutions Manager. In 2003, he joined Philippine National Bank (PNB) as Assistant Vice President and Head of its e-Business Solutions Division. After his three year stint with PNB, he moved to East West Banking Corporation in 2006 where he was Head of the Product Development and Marketing Support Division. In 2007, he joined Rizal Commercial Banking Corporation (RCBC) as Assistant Vice President of Channel Management and Product Development. He left RCBC as Senior Vice President and Head of Global Transactions Services. Mr. Garrovillo is 42 years old.

MICHAEL C. ALBOTRA, Filipino, holds a degree in Bachelor of Arts Major in Economics from University of Asia and the Pacific. He is Senior Vice President and Head of Top Tier Department under Institutional Banking Group. Prior to joining the CTBC Bank in 2021, he was Senior Vice President and Co-Head of Corporate Banking Department of Mizuho Bank, LTD. He also had stints with HSBC Philippines and HSBC Savings Bank (Phil) Inc. as Vice President and Corporate and Commercial Banking Head. In 2008, he joined United Coconut Planters Bank as Assistant Vice President and Senior Relationship Manager under Corporate Wholesale Banking Group. Previous to this position in United Coconut Planters Bank, he served Bank of Commerce from 2000 to 2008 as Unit Head and later on appointed as Assistant Vice of Private Banking Group. He also worked for almost 2 years at Urban Bank as Marketing Associate which started his banking profession and soon after promoted to Marketing Officer. Mr. Albotra is 44 years old.

RAFAEL V. RUFINO III, Filipino, holds a degree in Commerce from De La Salle University. Mr. Rufino was first introduced to the banking profession in 1991 when he joined 1st E-Bank initially as an Account Analyst and later on as an e-Business Banking Unit Head. He spent the next 11 years with 1st E-Bank before joining CTBC Bank in 2003. At CTBC, Mr. Rufino further expanded and solidified his knowledge of the credit process as a result of his being assigned in various roles of increasing responsibility from Account Officer to Credit Officer to Credit Control Department Head and eventually Group Head. He is currently Senior Vice President and the Chief Risk Officer of the Bank. He is 53 years old.

JIMMY ARSENIO Y. SAMONTE, Filipino, obtained his Bachelor's degree in Commerce, Major in Accountancy (*cum laude*) from the University of Santo Tomas and is a Certified Public Accountant. Jimmy also attended the Banking Intermediate Industry Training School at the Center for Professional Education of Arthur Andersen and Co. in Illinois, USA. He is Senior Vice President and Head of Internal Audit. He also served as the Bank's Compliance Officer from 2000 to 2001. Prior to joining the Bank, he was Audit Manager of the Financial Services Group of Sycip, Gorres, Velayo & Co. (SGV & Co.), a member firm of Ernst & Young Global Limited. He has been with the Bank since October 1998. He is 52 years old.

MARY ANNE G. BERNAL, Filipino, obtained her Bachelor's Degree in Economics from University of Sto. Tomas. She was first exposed to the banking industry when she joined China Banking Corporation as Account Analyst in 1993 and later on in her career assumed a supervisory role. After her 9-year stint with China Banking Corporation, she moved to CTBC Bank in 2002. In her more than 18 years with CTBC Bank, she has consistently moved up the corporate ladder and assumed positions of higher responsibility. From being a Credit Officer to Liquidity Officer in 2009, she currently holds the position of Senior Vice President and Head of Liquidity and Balance Sheet Department under Treasury Group. Ms. Bernal is 48 years old.

**ANDREW A. FALCON**, Filipino, is a Certified Public Accountant. He earned his Bachelor's degree in Business Administration and Accountancy from University of the Philippines. He joined CTBC Bank as Vice President and Head of Financial Control Department in June 2014. After steering the department for more than three years, he was appointed Officer-in-Charge of Finance and Corporate Affairs Group in October 2017. He was promoted to First Vice President and full-fledged Group Head in January 2018. Prior to joining the Bank, Mr. Falcon had stints in SGV and Co., Globe Telecom, Inc., Philippine Batteries Inc., Philippine Savings Bank and the latest of which was with FedEx as Controller. He is 40 years old.

JAYZEL A. MARCIAL, Filipino, joined CTBC Bank (Philippines) Corp. as First Vice President and Retail Credit Management Group Head on March 04, 2019. Prior to joining CTBC Bank in 2019, Jayzel was connected with RCBC Savings Bank, where she was the Head of Credit Risk Management since 2013. Having started her banking career at Citytrust Banking Corporation as Credit Officer Trainee, she steadily moved up to positions of increasing leadership and responsibility. With over 20 years of combined experience in various areas of credit from policy formulation and management, credit operations and control, credit analytics and scorecard management, Jayzel is a seasoned risk manager. Jayzel likewise had employment stints with several local and multinational banks such as Standard Chartered Bank, Citibank N.A. Phils, BDO, and Chinatrust. Jayzel was educated at St. Scholastica's College where she majored in Mass Communications. She is 50 years old.

**PEI-TZU TSAI**, a.k.a. Patty Tsai, Taiwanese, joined CTBC Bank (Philippines) Corp. as First Vice President (FVP) and Institutional Credit Management Group Head on December 27, 2021. She earned her Bachelor's degree in Economics, minor in Philosophy from National Taiwan University. She brings extensive experience of 15 years from different banking institutions such as ABN Amro Bank, Royal Bank of Scotland and ANZ Bank and gaining adept knowledge on relationship management in various industries and large scale accounts and credit risk management. Before her assignment in the country, she was a Credit Officer of Global Institutional Credit Risk Management Division at CTBC Bank Co. Ltd. Ms. Tsai is 41 years old.

ROLANDO V. VICERRA, Filipino, earned his degree of Bachelor of Arts in Philosophy from University of the Philippines and Juris Doctor from Ateneo De Manila University. Before he was appointed as the Legal Department Head on September 17, 2021, and Corporate Secretary on March 03, 2022, he served the Bank as the Litigation Lawyer for 15 years. Prior to joining CTBC Bank Philippines, he was a Legal Counsel and Head of Replevin Team at International Exchange Bank, Litigation Lawyer at Union Bank, Associate Lawyer of Quasha Ancheta Peña and Nolasco Law Offices and Court Attorney V of the Supreme Court of the Philippines. He is 54 years old.

**MELANY C. EVANGELISTA,** Filipino, holds a Bachelor of Arts in Journalism (*cum laude*) degree from Polytechnic University of the Philippines and obtained units in Master in Business Administration from Ateneo de Manila University. She has been with the Bank for almost 14 years and currently the Vice President and Human Resource and Administration Group Head. She has gained extensive knowledge and experience as a human resource practitioner ranging from recruitment, career management and employee relations, compensation and benefits, and training and communication in her 28 years of working experience. Before joining CTBC Bank, Melany was with Security Bank Corp. and Robinsons Bank for an aggregate 7 years. She is 48 years old.

**RUTH O. PINGOL,** Filipino, earned her Bachelor of Arts (AB) and Bachelor of Secondary Education (BSE) Major in English from Philippine Normal University. She completed her Certificate Course in Strategic Compliance for the Banking Industry from De La Salle University. She received the BSP Monetary Board Confirmation on 27 May 2020 as the Bank's Chief Compliance Officer and Vice President. Ms. Pingol has 14 years of work experience as a Compliance Officer. She joined CTBC Bank in 11 July 2011 and prior to joining CTBC Bank, she was a Compliance Officer of Philippine Savings Bank (PS Bank) from 2005 to 2011. Previous to this position, she worked as a Fraud Analyst of Bank of the Philippine Islands (BPI) from 2001 to 2005. She is 45 years old.

**GERARDO V. BIEN,** Filipino, holds a Bachelor of Science in Business Administration degree from Aquinas University (now known as University of Santo Tomas-Legazpi). He is an Assistant Vice President and Trust Officer of the Bank. Gerry is a seasoned banker and Trust professional, having a total work experience of 22 years in the industry gained from two banks. Before joining CTBC Bank in June 2011, Gerry worked at United Coconut Planters Bank and Standard Chartered Bank. He is 61 years old.

**THERESE MARIE A. MARIN**, Filipino, obtained her AB Communication Arts degree from De La Salle University. She is First Vice President and Head of Marketing Communications and Services Department. Her extensive marketing and communications experience started in 1994 with Security Bank Corporation where she was Advertising and Publications Supervisor. She worked with International Exchange Bank (iBank) for 10 years where her last role was as Marketing Communications Officer. She joined CTBC Bank as Marketing Services Head in 2007. She is 49 years old.

#### **Performance Assessment Program**

#### **Directors**

#### **Governance Self-Rating System**

The Board is responsible to annually assess the effectiveness of the Board, Board Committees and each Director's contribution.

All Directors participate in the evaluation and each Director reviews the performance of the Board as a as a body, as an individual director, the Chairman of the Board, the Chief Executive Officer and Board Committees. The assessments are derived from the Board of Directors and Directors' Duties and Responsibilities stated in the Corporate Governance Manual and in the respective Board Committee Charters. The results of the evaluation are used constructively by the Nomination, Remuneration and Governance Committee to discuss improvements with the Board and to provide developmental feedback to individual Directors.

#### **Self-Assessment Forms**

- 1) General Evaluation of the Board
- 2) Individual Self-Assessment by Directors
- 3) Qualitative Self-Assessment
- 4) Evaluation of the Board Chairman
- 5) Evaluation of the Chief Executive Officer
- 6) Board Committee Assessments
  - Executive Committee Assessment (ExCom)
  - Nomination & Remuneration Governance Committee (NRGC)
  - ➤ Audit Committee (Audit Com)

#### **Senior Management**

More than a traditional vehicle for measuring performance, the Bank's Performance Appraisal program serves as a vital feedback mechanism for drawing out strengths and pinpointing areas of development. It is meant to ensure performance of employees is at par with the standards set by the Bank, and to provide a platform for constructive dialogue between supervisors and subordinates with the objective of enhancing performance and identifying the potentials of employees. The results of Performance Appraisal are used in Management's decisions aligned with the Bank's Rewards Program (i.e. Promotion, Merit Increase, Profit Sharing Bonus and Performance Bonus).

# **Orientation and Education Program**

#### **Directors Continuing Education**

The Bank ensures that the Directors are updated and informed of the latest regulations which are material reference in their functions. The Bank has a Directors Training Plan that provides the program for the continuing education which includes orientation, training programs applicable for their respective roles as directors and members of the board committees and continuing regulatory updates for the members of the Board. New Directors undergo the Corporate Governance and AML Seminars / Trainings Likewise, the Bank's Articles of Incorporation and Amended By-Laws, Manual of Corporate Governance, and other policies are made available to the Directors for their reference.

# **Senior Management Continuing Education**

The Bank's New Talent Orientation Program (NTOP) is designed to support newly hired officers and staff as they begin their journey with CTBC Bank. It orients new talents on a wide range of topics from the Bank's history, company policies, performance appraisal, compensation and benefits, rewards programs, safety and security, core values and corporate image among other things.

The Bank's Training Program helps to provide technical, behavioral and personal development to its officers and staff. Supervising Officers play a key role in identifying the training and developmental needs of their subordinates through an exercise called Training Needs Analysis. Depending on the developmental needs of employees, the Bank may provide in-house workshops and/or arrange attendance to external training programs.

# **Retirement and Succession Policy**

#### **Directors**

The Nomination, Remuneration and Governance Committee reviews and evaluates the qualifications of all persons nominated to the Board as well as those nominated to other positions requiring the appointment of the Board. Successions and nominations to the Board are pursuant to the Bank's Amended By-laws, the General Banking Act of 2000, Securities and Regulations Code and implementing rules and regulations, and SEC and BSP regulations. For senior management and other positions requiring leadership qualities including key executive positions, the Bank has a succession policy where internal candidates are identified for future vacancies. Potential successors from internal candidates are identified in consultation with the President and CEO and the Board. Ultimately, the Bank aims to achieve a good mix of fresh talents and qualified candidates from the potential successors, in consonance with the business and strategic directions of the Bank.

There is no retirement age for Directors as the Bank believes that it benefits in retaining Directors whose wisdom and experience increases through the years, enabling them to continually provide valuable contributions to the Bank. Independent Directors are subject to the term limits of nine (9) years pursuant to BSP Circular Letter 2016 – 073 Advisory on the Term Limits for Independent Directors and SEC Memorandum Circular No. 4 Series of 2017.

# **Senior Management**

An employee who has reached sixty years old with at least five years of service with the Bank may retire from the Bank and be eligible for retirement benefits. Consistent with the law, the Bank observes a mandatory retirement age of 65. A qualified employee may be entitled to as low as 75% or as high as 175% of his Plan Salary depending on the years of credited service at the time of the retirement. Moreover, the retirement benefit of an employee who has rendered at least ten years of credited service and is at least age fifty shall be tax exempt in accordance with Republic Act No. 4917.

The Bank's Management Succession Plan aims to identify and develop potential successors of employees occupying key management positions in the organization. The Bank's Human Resource and Administration Group plays a key role as it coordinates with Senior Management to identify critical positions in the organization and evaluate the potential successors to the incumbents in terms of their level of readiness. Potential successors are prepared to assume bigger roles through various training and development programs and interventions as well as exposure to senior management interactions. The Succession Plan is approved by the Board on an annual basis.

# **Remuneration Policy**

#### **Compensation of Directors or Trustees**

In the absence of any provision in the by-laws fixing their compensation, the directors or trustees shall not receive any compensation in their capacity as such, except for reasonable per diems: Provided however, that the stockholders representing at least the majority of the outstanding capital stock or majority of the members may grant directors or trustees with compensation and approve the amount thereof at a regular or special meeting.

In no case shall the total yearly compensation of directors exceed ten (10%) percent of the net income before income tax of the corporation during the preceding year.

Directors or trustees shall not participate in the determination of their own per diems or compensation.

Corporations, such as the Bank, vested with public interest shall submit to their stockholders and the Commission, an annual report of the total compensation of each of their directors or trustees.

#### **Compensation of Bank Employees**

The Board of Directors shall approve remuneration and other incentives policy that is appropriate and consistent with the Bank's operating and risk culture, long-term business and risk appetite, performance and control environment. The policy shall cover all employees and should be designed to encourage good performance that supports the interest of the bank and its stakeholders. It shall be aligned with prudent risk taking and explicitly discourage excessive risk taking as defined by internal policies.

The NRGC shall monitor and review the remuneration and other incentives policy including plans, processes and outcomes, at least annually, to ensure that it operates and achieves the objectives as intended.

#### **Remuneration Policy for Senior Management**

The Bank's remuneration philosophy is to ensure that its employees are properly compensated through a salary, benefits and incentives program that is competitive in the industry. It provides salaries that are fair and commensurate to the position and functional responsibility of its employees. Salaries and benefits are reviewed annually vis-à-vis other banks, so that retention of talents is strengthened. Merit increases and promotional increases are provided to performers in line with the Bank's performance-oriented culture. Moreover, the Bank complies with all statutory requirements of the Labor Code of the Philippines (e.g. minimum wage, leaves, 13th month pay, government contributions, etc.), and in most cases, provides more than what the law requires.

Over and above compensation and benefits, the Bank offers profit sharing and performance bonuses to deserving employees who perform at par with Management's expectations. Incentives are also given to those with sales and revenue-generating functions, to provide additional motivation for them to surpass their business goals.

#### **Policies and Procedures on Related Party Transactions**

The Bank has established a formal policy on Related Party Transactions. The RPT Policy is regularly updated and approved by the Board and where the procedures from different units of the Bank are cross-referenced to. It identifies, evaluates and captures relevant transactions that may present risks on potential abuse in terms of related party transactions taking into account the related standards in observing arms - length, dealings and subjecting transactions to effective system of checks and balances, approval, reporting and disclosure process.

For good corporate governance and employing safe and sound banking practice, the need to restrict lending and other transactions to a Related Party are embodied in the documents in order to prevent potential abuses, avoid conflict of interest and protect the interest of the stakeholders. The Bank has an established system of record of the names of Bank's DOSRI (Directors, Officers, Stockholders and Related Interests) and Related Parties.

This shall also include the Parent Bank's list of names of its Related Parties via system. The Bank identifies and determines whether there is a direct or indirect or on behalf of third parties that have financial interest in any transaction or matters affecting the Bank. In case of personal interest in the transaction, said directors or officers shall abstain from the discussion, approval and management of the said transaction or matters.

While the Bank, neither part of a local conglomerate nor directed by BSP to create Related Party Transaction Committee, has established a clear delegation of roles and responsibilities of the Board of Directors and Senior Management.

On nature, terms and conditions, original and outstanding individual / aggregate balances, including off balance sheet commitments, the Bank's RPT Policy is used as reference to determine the Materiality Thresholds and Excluded Transactions, Internal Limits for Internal and Aggregate Exposures. This process is continuously monitored and enhanced to accommodate and align with the latest relevant regulatory requirements from local regulators and Parent Bank rules in the actual adoption of the procedures. Other important requirements include the Whistle Blowing Mechanism, Restitution of Losses and other remedies for abusive RPTs and reportorial requirements and disclosure are likewise given emphasis.

#### **Self-Assessment Function**

#### **INTERNAL AUDIT**

Internal audit is an independent, objective assurance and consulting function established by the bank to examine and evaluate the effectiveness of internal control, risk management and governance systems and processes. The internal audit function both assess and complement operational management, risk management, compliance and other control functions. In this respect, internal audit is conducted in frequencies commensurate with the assessed levels of risk in specific banking areas.

The Bank has a permanent internal audit function that is accountable to the Board of Directors through the Audit Committee.

While management is primarily responsible for maintaining a sound internal control system in the bank, the internal auditors assist the Bank's management by examining and evaluating the adequacy and effectiveness of controls, commensurate with the extent of the potential exposure/risk in the various segments of the entity's operations.

#### **COMPLIANCE**

Compliance Risk Management System of the Bank is designed to specifically identify and mitigate risks that may erode the Bank's franchise value, such as, risks of legal or regulatory sanctions, material financial loss, or loss to reputation that the Bank may suffer as a result

of its failure to comply with laws, rules, related self-regulatory organization standards, and codes of conduct applicable to its activities. Said risk may also arise from failure to manage conflict of interest, treat customers fairly, or effectively manage risks arising from money laundering and terrorist financing activities.

It is an integral part of the culture and risk governance framework of the Bank and in this respect, it shall be the responsibility and shared accountability of all personnel, officers and the board of directors.

The Bank's Compliance Department is independent in its function and facilitates the effective management of Compliance Risk.

In ensuring oversight and monitoring of Compliance Risks, the Compliance Department through its Chief Compliance Officer, aims to mitigate both risk areas through identification of the roles and responsibilities of Compliance within the line, operating and business units of the Bank and its resolution in cases of possible breaches.

The Compliance Program of the Bank provides for the clear and documented guideline that defined the Compliance structure, its functions, roles and responsibilities. In ensuring that these risks are monitored and mitigated, a comprehensive compliance system has been established to ensure that integrity and adherence in the regulatory requirements as well as in the accuracy and timeliness of reporting requirements of the Bank.

It likewise defined a constructive working relationship between the Bank and the Regulators by having an open and clear communication line as well as appropriate monitoring and tracking until resolution of possible noted breaches ensuring safe and sound banking operations is upheld within the institution.

#### **Dividend Policy**

(Refer to SEC Report 17-A, page 17)

# **Corporate Social Responsibility Initiatives**

As with its parent bank CTBC Bank Taiwan, and its other overseas subsidiaries who have been helping COVID-19 relief efforts around the world, CTBC Bank Philippines in Y2021 has provided funding to the Philippine General Hospital Medical Foundation, Inc. (PGHMFI) for the purchase of an Advance Life Support Ambulance for use of the Department of Emergency Medicine of the Philippine General Hospital (PGH). The PGH has been chosen by the Bank as the beneficiary of its ambulance donation given that it is the biggest COVID-19 referral hospital in the country, serving more than 600,000 patients annually, 98% of whom are indigent. The brand new ambulance will help PGH to transport critically-ill patients and provide emergency first response care for them while reroute to the emergency room. In the previous year, the Bank has also supported two government hospitals, namely: The Philippine Children's Medical Center and the National Children's Hospital through donations of protective equipment and disinfection supplies for use of hospital workers. Pediatric

patients of these hospitals also receive personal health and safety gears, learning kits, and grocery items.

#### **Consumer Protection Practices**

Role and responsibility of the Board and Senior Management for the development of consumer protection strategy and establishment of an effective oversight over the bank's consumer protection programs:

#### a. Board of Directors

The Board shall be primarily responsible for approving and overseeing the implementation of the Bank's Consumer Protection Risk Management System (CPRMS).

#### b. Senior Management

The Senior Management shall be responsible for ensuring that the practices of the Bank are aligned with the approved consumer protection policies and risk management system and consistently displayed throughout the Bank's place of business particularly across all business units that deal directly with consumers.

The Consumer Protection Risk Management System (CPRMS) forms part of the Bank's Enterprise-Wide Risk Management System. This is in compliance with the requirements of the Circular 857, as amended by Circular 1048 on Guidelines and Procedures Governing the Consumer Assistance and Management System of BSP-Supervised Financial Institutions. A unit in the Customer Care Department was created to serve as the central complaint handling department in the Bank and the central recipient of all clients' complaints, requests and other concerns and Customer Management Portal (CMP) is the system used as a tool.

Operational and Reputational Risk Management Department (ORRMD) reports directly to the Operations Committee of Management and Risk Management Committee of the Board. This aims to monitor, evaluate the overall complaints, requests and other concerns of the Bank's clients.

Compliance Department has established the Consumer Protection Compliance Program. The manual comprises the Roles and Responsibilities of the Board of Directors, Senior Management and concerned units/groups as well as the principles of the Bank's General Consumer Protection Standards.

#### ANNEX 6: RISK MANAGEMENT SYSTEM & STRUCTURE

#### Bank's Risk Philosophy

The Bank operates according to its established risk philosophy, where the Board is responsible for approving, reviewing, supervising, and overseeing the Bank's risk strategy, policies, appetite, limits, warning triggers, and thresholds. Following the Board's instruction, the Bank's senior management team and various risk management committees set up independent risk management functions and make sure the risks are being properly understood, controlled and managed, in addition to the risk processes which must be clearly aligned with the Bank's business strategies.

This risk philosophy serves as basis for the establishment of its risk management system.

## **Bank's Risk Appetite**

Along with the business of taking risks, the Bank operates according to its established risk philosophy, where the Board is responsible for approving, reviewing, supervising and overseeing the Bank's risk strategy, risk policies, risk appetite, risk limits and thresholds. Following the Board's instructions, the Bank's Senior Management team and various risk management committees set up independent risk management functions and make sure the risks are being properly understood, controlled and managed, in addition to the risk processes which must be clearly aligned with the Bank's business strategies. To ensure the Bank's strategies and operations are in line with the Board's policy, performance against risk appetite, limits, warning triggers and thresholds are measured and reported to senior management and/or Board regularly throughout the year. The aim is to protect the Bank against unforeseen losses that could arise from taking risk beyond the Bank's risk appetite, so as to achieve the ultimate goal of maximizing shareholder values. However, if breaching of appetite or limit occurs under certain circumstances, the risk management team should seek approval from Senior Management and/or Board, and to ensure appropriate action may be taken.

The Bank defines Risk Appetite as the level of risk the Bank chooses to take in pursuit of its vision and business objectives. The Bank aligns its risk appetite with the Parent Bank's vision to become one of the best managed banks in the world, building both customer and shareholder values.

With this global mission and vision, the Bank intends to build and expand its businesses and ensure that it meets its business objectives. Part of the Bank strategy is to maximize its operating efficiency, expand its business scope, strengthen its manpower quality and as well as its asset quality. To achieve the purposes mentioned, the Bank sets its risk appetite in consideration of all the relevant risks and connects it to its overall business vision and objectives.

There are four dimensions with which the risk appetite can be developed: Earnings Target (e.g. Return on Equity, Return on Asset), Risk Capacity (e.g. Capital Adequacy Ratio or CAR), Internal Constraints (e.g. RWA to Total Assets), and External Constraints (e.g. Credit Rating). The Bank decided to use Pillar II CAR as its main indicator of its risk appetite on a bank wide basis. The calculation of CAR can be easily linked with the other risk areas. Like most banks, CAR is

disclosed by other banks in their published statement of condition and can be easily compared among peer banks. Moreover, CAR can also be linked with the business plans of the Bank by calculating it based on the Bank's budget.

#### **Risk Management Committee**

In the foregoing discussion, the Board organized the Risk Management Committee to ensure that the Bank is able to manage its risk-taking activities so that it can position itself for better opportunities.

The RMC is responsible for the development and oversight of the Bank's Risk Management Program. It provides the general direction and defines the risk philosophy of the Bank.

The RMC oversees the system of limits/thresholds on discretionary authority that the Board delegates to management, who will ensure that the system remains effective, that the limits/thresholds are observed and that immediate corrective actions are taken whenever warning triggers are set-off and/or limits/thresholds are breached.

The RMC shall review and approve the Bank's Internal Capital Adequacy Assessment Process.

This also includes the review of the Bank's Risk Capital Framework (credit, market, liquidity and operational risks), including significant inputs and assumptions.

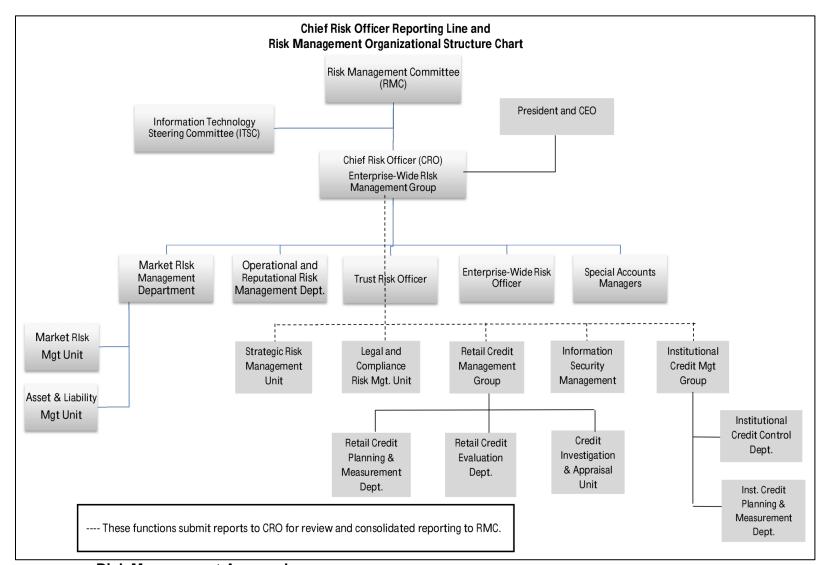

The Committee, which meets bimonthly or at any other time when it is deemed necessary, shall be composed of at least three (3) members of the Board of Directors, majority of whom shall be independent directors, including the chairperson. The presence of the majority or more than 50% of the member of the Committee in any meeting shall constitute a quorum. The RMC chairperson shall not be the chairperson of the board of directors, or any other board-level committee. The members shall possess a range of expertise as well as adequate knowledge of the institution's risk exposures to be able to develop appropriate strategies for preventing losses and minimizing the impact of losses when they occur. It shall oversee the system of limits to discretionary authority that the board delegates to management, ensure that the system remains effective, that the limits are observed and that immediate corrective actions are taken whenever limits are breached. The Bank's risk management units and the Chief Risk Officer (CRO) shall communicate formally and informally to the RMC any material information relative to the discharge of its function.

The RMC, shall, where appropriate, have access to external expert advice, particularly in relation to proposed strategic transactions, such as mergers and acquisitions.

#### **Risk Management Reporting**

The Chief Risk Officer (CRO) reports directly to the RMC on the bank's risk profile, risk exposures, risk trends, key risk indicators and specific risk management issues that would need resolution from top management. The CRO is responsible in overseeing the risk management function and support the BOD in developing the risk appetite and risk appetite statements and translating it to risk limits and thresholds structure. The CRO also ensures that risk management policies, processes and systems remains sufficiently robust, effective and risk-taking activities are

commensurate with the returns on capital, within the bank's risk appetite, and fully supports strategic objectives of the Bank. The CRO is supported by the following risk groups and units as shown in the succeeding organization chart, which covers the different risk areas monitored by the CRO.

# **Risk Management Approach**

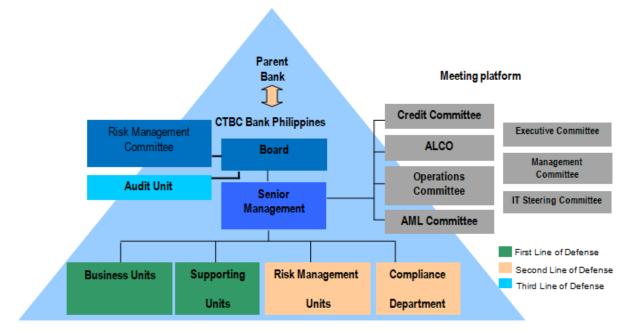

The following principles summarize the Bank's overall approach to risk management:

- The BOD provides the overall direction and supervision of the Bank's risk management;
- The key risks faced by the Bank both financial and non-financial are managed by appropriate functional levels within the Bank;
- The risk management functions are independent from the businesses

and provide check-and-balance for risk taking units; and

Risk management involves managing the balance between risk and reward, to enable the Bank to fulfill its commitment to protect shareholder interest, as well as deliver value to the banking public, and comply with relevant regulations.

Risk Management is a shared responsibility for all related units of the Bank. The Bank employs the three lines of defense as illustrated below:

Risk management process is done via four steps: (1) *Risk Identification* – involves selecting the method for risk identification and describing the characteristics of risks; (2) *Risk Measurement* – refers to the establishing/maintenance of tools or methods to measure risk and identifying the responsible units that will ensure the effectiveness or appropriateness of the risk measurement tools or methods; (3) *Risk monitoring* – pertains to the setting up of assessment frequency, reviewing of risk status, and proposing and implementing of action plans; and (4) *Risk Reporting* – includes clearly defining the reporting mechanism, necessary content and relevant assessment mechanism.

#### **ANNEX 7: AMLA GOVERNANCE & CULTURE**

CTBC Bank (Philippines) Corp. is committed to assist the government in the fight against Money Laundering (ML), Countering Terrorist and Proliferation Financing by operating an effective risk-based ML/CTPF prevention and detection framework. In doing so, the Bank's aim is to actively manage and mitigate compliance, business, reputational, legal and concentration risks arising from ML/CTPF activities within and across the entire institution.

The Bank has established the Money Laundering and Terrorist Financing Prevention Program (MTPP). This manual provides for the regulatory reference, guidelines and practices, as well as internal implementation to (1) help ensure that risks associated with money-laundering such as counterparty, reputation, operational, and compliance risks are identified, assessed, monitored, mitigated and controlled, and (2) to further employ an effective implementation of the Anti-Money Laundering and Countering of Terrorism and Proliferation Financing laws and regulations such that the Bank shall not be used as a vehicle to legitimize proceeds of unlawful activity.

The Bank's MTPP sets forth the following:

- To provide relevant updated provisions and guidelines of the Anti-Money Laundering Act, it's implementing Rules and the Updated AML Rules and Regulations of the Bangko Sentral ng Pilipinas (BSP), Anti-Money Laundering Council (AMLC) and Global AML/CFT Policy of the parent bank.
- To align and/or establish specific policies and procedures with the requirements of AML in ensuring that the Bank complies with its responsibilities, that is the (1) Conduct of Know Your Client (KYC) and Customer Due Diligence (CDD) procedures, (2) Record retention and (3) Reporting of AML Reports (Covered Transaction Reports (CTR) and Suspicious Transaction Reports (STR)) to Anti-Money Laundering Council (AMLC).
- To give clear appreciation of the Bank's roles and the responsibilities of the Board of Directors, Senior Management, Bank officers and employees in ensuring compliance with the Anti-Money Laundering Act and Countering Terrorist Financing rules and regulations.

- The Bank, its stockholders, directors, officers and staff consider it their collective duty to deliver services to the Bank's customers in a manner that is socially acceptable and within the requirements of law. The Bank understands its role in preventing the proceeds of any illegal activity from being used in money laundering activities, and in detecting covered/ suspicious transactions, as defined under the AMLA.
- The Bank has the right to refuse the opening of an account and offering of banking facilities
  to prospective customers who have been identified as being engaged in money laundering
  and terrorism financing activities. This includes the right to close existing accounts that
  were found to be utilized for these activities.
- 3. All business and operating units shall cooperate and provide assistance to the appropriate supervising authority/ies in money laundering investigations and prosecution of cases, when filed in a competent court. Supervising authority/ies refers to the Bangko Sentral ng Pilipinas (BSP), the Securities and Exchange Commission ("SEC", "Commission"), and the Insurance Commission (IC).
- 4. Board of Directors and Senior Management shall ensure strong support of all programs to be established for the prevention and detection of money laundering activities. It shall conduct an annual information-training program about the latest developments in money laundering and its prevention/detection techniques. The Bank shall ensure inclusion of anti-money laundering training in the initial training programs offered to all new hires, including contractual and probationary employees. AML and CFTPF trainings should be specific to particular classes of employees and their job responsibilities. It is likewise the Bank's responsibility to monitor and ensure that personnel from outsourced services (particularly those in marketing and those having dealings with clients requiring knowledge of KYC policies and procedures) have adequate, effective and updated AML training.
- 5. The prevention of money laundering practices from entering the organization shall be based on the following principles:

#### • Ethical Conduct

The Bank shall ensure that business is conducted in conformity with high ethical standards in order to protect its safety and soundness as well as the integrity of the national banking and financial system.

#### Compliance with Laws

The Bank shall comply fully with the rules and regulations and existing laws aimed at combating money laundering and terrorist financing by making sure that officers and employees are aware of their respective responsibilities and carry them out in accordance with superior and principled culture of compliance. Prudence should be observed so that service is not provided where there is a good reason to believe that transactions are associated with money laundering activities and terrorist financing and acts.

\_\_\_\_\_

#### • Risk Management System

The Bank shall adopt and effectively implement a sound AML and terrorist financing risk management system that identifies, assesses, monitors and controls risks associated with these activities.

#### Know Your Customer (KYC)

The Bank shall endeavor to know sufficiently its customer at all times and obtain competent evidence of the customer's identity and have effective procedures for verifying the bona fide identity of new customers. The Bank shall ensure that the financially or socially disadvantaged are not denied access to financial services while at the same time prevent suspicious individuals or entities from opening or maintaining an account or transacting with the Bank by himself or otherwise.

#### Know Your Employee (KYE)

The Bank adopts an adequate Know Your Employee process in screening and recruitment, aligned with the BSP and AMLC regulations as stated in the Bank's internal policy Recruitment and Screening Policy by Human Resources and Administrative Group (HRAG).

#### Cooperation with Law Enforcement Agencies

The Bank shall fully cooperate with the Anti-Terrorism Council and Anti-Money Laundering Council (AMLC) for the effective implementation and enforcement of the AMLA, as amended, and its Revised Implementing Rules and Regulations (RIRR), and with law enforcement agencies within the legal constraints relating to customer confidentiality.

This includes taking appropriate measures allowed by law if there are reasonable grounds for suspecting money laundering.

#### Policies, Procedures and Training

The Bank shall adopt policies consistent with the principles set out in appropriate guidelines and ensure that staff, wherever located, are informed of these policies and adequately trained in matters covered herein. To promote adherence to these principles, the Bank shall implement specific procedures for customer identification, record keeping and retention of transaction documents and reporting of covered and suspicious transactions.

#### ANNEX 8: AUDIT COMMITTEE ACCOMPLISHMENT REPORT

#### Accomplishments

- 1. Conducted six committee meetings in 2021 and covered the periodic Internal Audit, Compliance, external audit and regulatory reports as follows:
  - February 24, 2021
  - April 13, 2021
  - June 25, 2021
  - August 26, 2021
  - October 28, 2021
  - December 16, 2021
- 2. Reviewed the Bank's 2020 audited financial statements as certified by RG Manabat & Co. including the financial highlights, results of audit procedures conducted on the bank's classification, measurement and impairment of financial instruments, revenue recognition, valuation of non-financial assets (ROPA), taxation, leases, employee benefits, and compliance with AML, related party transactions, accrual of other liabilities, provisions and contingencies, disclosures and information required under BSP Circular 1074 and preliminary list of management letter comments. Endorsed the 2020 audited financial statements to the Board for approval of the shareholders and reviewed the bank's management representation letter issued to the external auditor.
- 3. Reviewed the bank's performance evaluation results on RG Manabat & Co., including the areas for improvement, relative to their examination of the bank's 2020 financial statements.
- 4. Selected and appointed RG Manabat & Co. as the Bank's 2021 external auditor, including review and approval of the audit engagement contract, and oversee the audit engagement and deliverables relative to their examination of the Bank's audited financial statements as of December 31, 2021.
- 5. Reviewed the audit plan of RG Manabat & Co. relative to their examination of the Bank's 2021 financial statements including the audit approach on revenue recognition, impairment, classification and measurement of financial instruments, and high level cybersecurity controls testing.
- 6. Reviewed all reports issued by Internal Audit, including the root cause analysis of key findings, Parent Bank auditors and Compliance.

\_\_\_\_\_

- 7. Closely monitored the status of Audit Committee directives to bank management and tracked status of outstanding internal audit, Parent Bank and BSP findings.
- 8. Closely supervised the Bank's internal audit function which contributed to Internal Audit's 2021 rating of "Satisfactory" (the highest rating in the 4-tier rating system) from the Parent Bank.
- 9. Reviewed Internal Audit's annual audit plan, risk assessment methodology and overview of its bankwide risk assessment evaluation.
- 10. Closely supervised the Bank's compliance function including review of the annual Compliance Department plan, AML plan, Compliance and AML training plans and independent compliance testing plan.
- 11. Key risk areas and issues identified by Internal Audit were elevated to the Board of Directors or endorsed to management for immediate and effective resolution of these issues.
- 12. Provided various recommendations to bank management for further improvement of the bank's internal control and risk management.
- 13. Regularly reviewed the updates on AML statistics on alerts, covered (CTR) and suspicious transaction reports (STR), various AML related projects and activities.
- 14. Reviewed the AML Institutional Risk Assessment reports and the results of SGV & Co.'s independent assessment of the bank's AML name screening process.
- 15. Reviewed and endorsed/approved the following updated charters, frameworks, manuals and policies:
  - a. Internal Audit Policy Manual
  - b. AML Committee Charter
  - c. Compliance Committee Charter
  - d. Compliance Charter
  - e. Money Laundering and Terrorist Financing Prevention Program
  - f. Online Gaming and Casino-Related Business (OGB) Framework
  - g. Designated Non-Financial Business and Professions (DNFBPs) Framework
  - h. Related Party Transaction (RPT) Policy
  - i. Volcker Rule Policy
  - j. Compliance Policy
  - k. Incident Handling and Reporting Policy
  - I. Unit Compliance & Risk Officers and Sub-UCROs Guideline
  - m. Compliance Testing and Risk Assessment Manual
  - n. FATCA Policy

- o. Associated Person Policy
- p. Consumer Protection Compliance Program
- q. Guideline on Employee Travel to Taiwan
- 16. The Committee Chairman regularly met separately with the Internal Audit Head and Compliance Officer during the year.
- 17. Below is the meeting attendance record of the Committee members for 2021.

Committee Members	No. of Meetings Held	No. of Meetings Attended
Luis Y. Benitez, Jr.	4	4
Alexander A. Patricio	6	6
Juan Li-Hsuan	6	6
Edwin B. Villanueva	2	2

#### **ANNEX 9: INFORMATION ON SUSTAINABLE FINANCE**

The bank recognizes that monitoring of Environment and Social (E&S) Risks shall be of high priority in the coming years given the Parent Bank initiatives and local regulatory requirements such as the BSP Circular 1085 and BSP Circular 1128's directive for all Financial Institutions (FIs) to develop sustainable finance policy framework and environmental and social risk management (ESRM) framework.

In response to the BSP Circulars, the Bank has launched its Three-Year Sustainability Transition Plan. To this end, the Bank aims to embed sustainability principles including environment and social risk areas, into our corporate governance framework, risk management systems, and strategic objectives consistent with the size, risk profile, and complexity of our operations.

The transition plan was approved by the Board of Directors on December 17, 2020. A working group was set up to focus on the launch and implementation of the initiative. It is comprised of the Enterprise Risk Management Group, Institutional Banking Group, Retail Banking Group, Retail Credit Management Group, Institutional Credit Management Group, Human Resources and Admin Group, Finance Group, Information Technology Group, Information Security, and Internal Audit. The transition will be done in phases and will be fully implemented on or before the due date of May 15, 2023. The bank has completed the risk appetite setting on July 31, 2021, applicability assessment on September 30, 2021 and the action plan on December 31, 2021. The implementation of the action plan will commence in January 2022 and will last until December 2022.

The Risk Governance Policy has been updated to include the roles and responsibilities and policies on E&S of the Parent Bank have been adapted to the local setting. The other policies, guidelines and manuals impacted by the Circulars will also be updated in 2022.

ESG considerations will be included in the stress testing exercise starting 2023 upon completion of the transition plan implementation.

### ANNEX 10: CAPITAL STRUCTURE AND CAPITAL ADEQUACY

The Bank's capital adequacy ratio (CAR) as of December 31, 2021 is at 26.920%. This is a above the minimum CAR requirement of 10%. The CAR is expressed as a percentage of qualifying capital to risk-weighted assets.

The total qualifying capital of the Bank consists of Tier 1 (core) and Tier 2 (supplementary) capital. Tier 1 comprise Common Equity Tier 1 (CET1), made up of common stock, additional paid-in capital and surplus, and other comprehensive income, such as unrealized gain/loss and cumulative foreign currency translation adjustment. CET1 is adjusted further by deducting the treasury shares, any unsecured DOSRI and deferred tax asset. On the other hand, Tier 2 capital comprises mainly general loan loss provisions. As of year-end, total Tier 1 and 2 capital, amount to Php9,937.589MM and Php328.315MM, respectively.

Total Risk Weighted Assets (RWA) are calculated using the standardized approach for credit & market risk, while basic indicator approach was used for operational risk. Total RWA under the Pillar I is Php38,134.730MM. Breakdown is indicated in the table below.

To compute for CET1 ratio, Tier 1, and the capital adequacy ratio of the Bank, the relevant qualifying capital is divided over the total RWA. Details as follows:

The Capital Adequacy Ratio, as of December 31, 2021

Nature of Item	Calculation	Amount In Millions PHP	
A. Qualifying Capital			
Tier 1 Capital	T1= CET1 + AT1	9,937.589	
Common Equity Tier 1 Capital	CET1	9,937.589	See Breakdown
Additional Tier 1 Capital	AT1	0.000	See Breakdown
Tier 2 Capital	T2	328.315	See Breakdown
Total Qualifying Capital (QC)	T1 + T2	10,265.904	
B. Total Risk Weighted Assets			Minimum Capital Requirement
Total Credit Risk-Weighted Assets	CRWA	32,693.486	3,269.349

<sup>1/</sup> Risk weight used is based on the external credit assessment institutions like Standard & Poor's, Moody's and Fitch's credit rating.

#### **B.** Qualitative Information

Credit risk is the risk that one party to a financial transaction will fail to honor an obligation and cause the Bank to incur a financial loss. Credit risk arises primarily from the Bank's corporate and consumer loans (customer credit risk) and investment securities (issuer credit risk). Assessment of credit risk varies based on the types of the loan or financial transaction. For consumer loans, credit risk is measured at a portfolio level. However, identification of risk is determined on customer segment performance to derive risk-ranking determinants that constitute the formulation of the credit application scorecard. To ensure consistency in the identification of credit risk, scorecard performance is reviewed monthly to assess its efficiency in its risk determination function.

Credit risk management will be discussed in two parts:

- 1. Credit Risk covering Corporate Loans managed and controlled by Institutional Credit Management Group (ICMG).
- 2. Credit Risk covering Retail Loans managed and controlled by Retail Credit Management Group (RCMG).

#### **CREDIT RISK COVERING CORPORATE LOANS**

## I. Strategic & Processes

ICMG manages the credit risk arising from the Bank's corporate loan business. It formulates credit policies and guidelines based on regulatory standards and the Bank's own risk appetite. Likewise, it ensures that the management of credit in the corporate loan portfolio is in compliance to all credit policies and guidelines.

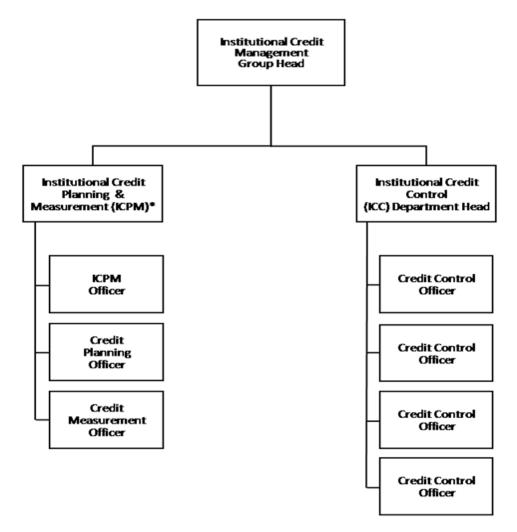

Each credit proposal undergoes an evaluation process in order to determine its acceptability. The evaluation process involves the identification of credit risks after having assessed key factors including, target market/industry, management, appropriateness of credit facilities, terms and conditions, financial performance and condition, collateral and others.

The credit risk identification framework also consists of an internal risk rating system that has a blend of both quantitative and qualitative factors. The Obligor's risk rating ranges from ORR 0 to 17, with ORR 0 being the lowest credit risk and 14 to 17 representing the classified accounts (Especially Mentioned to Loss).

Sample table of the ORR is as follows:

	or the Orrivis a	
Category	ORR	Moody's Equivalent Grades
	0	Applicable to only the central government, central Bank and their agencies of the Republic of China and sovereign states with S&P medium- and long-term ratings at AA- or higher, or multilateral development banks with risk weights at 0% approved by the Basel Committee on Banking Supervision.

Ξ	13	Caa1 ~ Ca
Watch-List Grade	14	
des	15	
Default Grades	16	
Defe	17	

## II. Structures and Organization

The main responsibilities of the Institutional Credit Management Group are as follows:

- Formulates credit policies and guidelines for the institutional banking business, and oversees the effectiveness and administration of these;
- Establish the parameters for credit risk and concentration, and review compliance with such limits;
- Evaluate, endorse or approve credit proposals originating from IBG;
- Review the quality of the Bank's institutional banking portfolio;
- · Review the adequacy of allowance for loan losses; and
- Provide guidance to management on credit risks and credit-related issues.

#### III. Scope & Nature of Risk Reporting and Measurement Systems

Loan Review Report (LRR) / Early Warning 1(a) and (b), 2 and 3 (EW1 (a) and (b), EW2 and EW3) / Account Planning Reports

One of the Bank's risk monitoring exercises is its semi-annual review of corporate accounts via the Loan Review Report (LRR). Exempted from this are accounts fully-secured by cash or government securities, accounts whose sole credit facility with the Bank is fully secured by unconditional and irrevocable Sovereign Guarantee or under a specific credit/product program, watch-list (EW2/EW3) or classified accounts (Loans Especially Mentioned, Substandard, Doubtful, and Loss), and banks with uncommitted lines. The LRR, accomplished six (6) months after approval date, covers the borrower's relationship with the Bank, updated financial performance, repayment capability, identification of major risks, outlook, etc. It also assesses account classification and ORR. If deterioration in credit is identified, either Institutional Banking Group (IBG) or ICMG have the discretion to include it in any of the Early Warning (EW) buckets, which calls for the submission of a Notification report, quarterly or more frequent LRR (for EW1(a) accounts), and Account Planning reports (for EW1(b), EW2 and EW3 accounts). If deemed appropriate, EW2 and EW3 accounts may be transferred to Asset Recovery Management Department (ARMD) for handling. Apart from these, the Relationship Manager (RM) is required to provide updates during Credit Committee meetings.

IBG RM or ARMD Special Accounts Officer (depending on the classified account owner) and Litigation Head of Legal Department are also required to report to the Credit Committee the status of the classified accounts once a month for an EW account. Depending on the outstanding exposure of an EW1(b)/EW2/EW3 account, the IBG RM regularly prepares the Account Planning reports for approval either of SCO, Credit Committee or Executive Committee. The Account Planning report covers the loan details of the account including the outstanding principal, loan loss provision, the action plan and present status of the account which includes the progress diary enumerating the series of events that took place covering the Account Planning period and financial/operation analysis. The same Account Planning report is referenced for the corresponding BSP classification.

Monthly classified accounts are also being prepared by Credit Administration Dept. (CAD) for senior management guidance covering the list of classified accounts and its corresponding loan loss provision.

As mentioned above, the credit risk identification framework also consists of an internal risk rating system that has a blend of both quantitative and qualitative factors. The Obligor's risk rating ranges from ORR 0 to 17, with ORR 0 being the lowest credit risk and 14 to 17 representing the classified accounts (Especially Mentioned to Loss).

#### IV. Strategies and Processes for Mitigating Risks

Apart from the evaluation process, certain lending and concentration limits and triggers have been established to further strengthen management of risk. These limits and triggers were based on both regulatory standards and the Bank's own risk appetite.

Internal Lending Limits

Limit of SINGLE BORROWER / GROUP (Total Credit Exposure)

- Single Borrower/Group Limit shall not exceed 100% of SBL (SBL= 25% of CTBC Bank (Phils.) net worth;
- The Single Group definition will be based on BSP's regulation;
- The Total Credit Exposure includes contingent liabilities.

Limit of Real Estate Loans (Total Loan Portfolio).

- Shall not exceed 20% of the total loan portfolio, net of interbank loans receivable (IBLR);
- Real Estate Industry classification will be based on BSP's regulation on Real Estate Loans.

Limit of Industries (Total Net Worth or Unimpaired Capital)

• The limit ceiling for combined industries under "Monitored Risk" category shall be one hundred percent (100%) of the Bank's Net Worth.

#### Notes:

- a. For those conglomerate groups which covers several industries, industry distribution will be proportioned based on the revenue contribution from each industry subject to Head of Institutional Credit Control Department's (ICCD) approval.
- b. Bank Money Market lending to be excluded from IBG loan portfolio.
- c. Industry classification shall be based on the nature of business of the obligor/borrower. However, for individual obligors, industry classification shall be based on the purpose of the loan.
- d. Industry Classification will be based on Philippine Standard Industrial Classification (PSIC) 2009 edition.
- e. Government Agencies, credit secured by Republic of the Philippines (ROP) or 100% owned by the Government, credit secured by cash deposit, shall be excluded from the limit.

# Limit of Top 10 Borrowers (IBG Portfolio)

- Shall not exceed 60% of the Total IBG Credit Exposure, net of InterBank Loans Receivable (IBLR).
- Any specific loan exposure of the Top 10 Borrowers which are fully secured by cash deposits, ROP Bonds, or unconditionally guaranteed by Republic of the Philippines (ROP) shall be excluded from the total loan exposure.

# The Monitoring Mechanism

## Warning Trigger

Set up warning trigger (90% of the Limit Ceiling) for Single Borrower/Group, Real Estate Loans (RELs), Industries under "Monitored Risk" Category, and for Top 10 Borrowers. Once triggered/breached, appropriate actions must be acted upon by the concerned units.

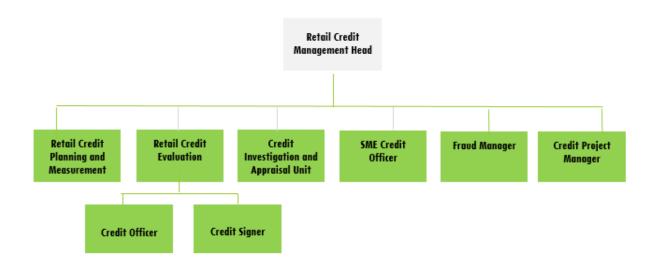

#### **CREDIT RISK COVERING RETAIL LOANS**

#### I. Strategies & Processes

RCMG manages the credit risk arising from the Bank's retail loan businesses. It formulates credit policies based on various portfolio analyses, and is responsible for optimizing the risk-reward relationship of the Personal Loans, Mortgage Loans, and Small and Medium Enterprise (SME) Loans portfolios. Likewise, it ensures that the management of credit risk in the retail loan portfolios are in compliance to all credit policies and regulatory standards.

RCMG also manages the credit risk assessment and acceptance processes to safeguard the credit quality of the retail loan portfolio. It monitors and analyses various risk features and trends of the retail loan portfolio, identifies risk drivers and formulates risk mitigation strategies, accordingly. Results of these regular portfolio reviews are reported to the management team, RMC (Risk Management Committee) and, ultimately, to the BOD.

#### II. Structure & Organization

The following are the core responsibilities of Retail Credit Management Group as follows:

- a. Review the quality of the Bank's credit portfolio and the factors affecting the portfolio behavior.
- b. Formulate credit policies and oversee the effectiveness, implementation, and administration of these policies.
- c. Evaluate the adequacy of allowance for loan losses.
- d. Establish the credit risk limit parameters and asset concentration and review compliance with such limits.
- e. Provide oversight of management and guidance to the BOD on retail credit risks and credit-related issues.
- f. Manage risk assessment and control in processing retail loan applications.
- g. Conduct credit investigation and appraisal.

RCMG is composed of two departments and one unit to carry out its mandate of managing retail credit risk. In addition, the SME Credit Officer, Retail Credit Project Manager and Fraud Manager directly reports to RCMG Head for functional oversight of credit retail system requirements, fraud management as well as credit evaluation and approval of SME loans.

#### Retail Credit Planning and Measurement Department (RCPMD)

Reviews and formulates credit policies based on empirical data and sound analyses covering existing portfolios as well as test programs. Policy changes are likewise instituted as a result of supporting new business initiatives, and as a response to changes in market behavior, as well as changes in regulatory conditions. The team is also responsible in generating various risk measurement and monitoring tools such as, but not limited to, monthly asset quality reports and RMC reports, as well as managing scorecard implementation, monitoring and review.

#### Retail Credit Evaluation Department (RCED)

Handles risk identification, assessment and control in retail loan application processing covering pre-screening, verification, evaluation and decision in granting loans to eligible borrowers in the most efficient way possible. Likewise, RCED ensures that changes in policies as it relate to the credit process are implemented, accordingly

#### **Credit Investigation and Appraisal Unit (CIAU)**

Responsible for credit investigation and appraisal. The team observes the CI code of ethics in information validation and data gathering activities to establish the credit worthiness of applicants and customers in the Bank. It is guided by internal policies and generally accepted appraisal principles and techniques in determining collateral value.

#### III. Scope & Nature of Risk Reporting and Measurement Systems

Retail Credit regularly conducts a portfolio performance review of its retail loan products covering loan origination, account maintenance and account closures. In addition, various portfolio analyses at various levels of granularity are performed to identify the most significant factor/s of defaulting loans, as well as factor/s that lead/s to better portfolio quality.

#### **Risk Reporting**

For product and portfolio performance monitoring, review and analysis, the reports are summarized below:

- 1. Retail Credit Risk Portfolio Review is a tracking of the retail loan portfolio's critical risk indicators on a monthly basis, which includes non-performing loans, delinquency ratios, charge-offs, recoveries, aging flows, portfolio delinquency performance by various segment cuts, scorecard MIS, as well as through-the-door analyses and credit process MIS such as approval rate, reject rate, deviation approval etc.
- 2. Based on the foregoing, RMC reports are produced and presented to the members of the committee every 2 months. This report contains statistical and analytical data on portfolio growth, portfolio mix, portfolio asset quality indicators as well as through the door information on loan origination and loan portfolio profile.

#### **Measurement Systems**

For Personal Loan (Public) product, customized application scorecard and behavior scorecard are adopted to evaluate the eligibility and repayment capacity of new applicants and existing customers respectively. For Personal Loan (Corporate) and Mortgage Loan product, the defined product guidelines and procedures are implemented to measure the repayment ability of applicants. For SME product, CSR (Credit Score Rating) and ORR (Obligor's Risk Rate) are used to determine the acceptability of a loan application depending on the risk level and exposure of the business entity.

# IV. Strategies and Processes for Mitigating Risks

Risk Strategy is performed via a program lending approach for the retail loan business. Set credit parameters for risk acceptance and portfolio limits are established and followed to ensure process efficiency and credit portfolio quality in the course of the credit approval process.

Existing approval authorities are sanctioned based on qualification, competence and capacity. The approving authority hierarchy follows the core credit policy of the parent bank, such that credit delegation is defined functionally by credit officer and senior credit officer levels, by amounts and by risk level per product program/guideline.

The credit approval process for the three retail loan products is summarized as table below:

Process	Personal Loan (Public)	Personal Loan (Corporate)	Mortgage Loan	SME Loan
Pre-screening	Y	Y	Υ	Y
Duplicate Check	Y	Y	Υ	Y
Policy Check	Y	Y	Y	Y
Credit Scorecard	Y	N	N	Y
Credit Verification	Y	Y	Υ	Y
Appraisal	N	N	Υ	Y
Deviation Review	Y	Y	Υ	Y
Approval / Reject	Y	Y	Y	Y

#### **ANNEX 12: MARKET RISK**

## I. Quantitative Information, as of December 31, 2021

ltem	Nature of Item	Amounts in P0.000 Million
A.	Using Standardized Approach	
A.1	Interest Rate Exposures	235.447
A.2	Equity Exposures	
A.3	Foreign Exchange Exposures	244.131
A.4	Options	0.000
A.5	Sub-total (Sum of A.1 to A.4)	479.578
B.	Using Internal Models Approach	
C.	TOTAL MARKET RISK-WEIGHTED ASSETS	479.578

#### II. Qualitative Information

#### I. Strategies & Processes

The Bank's market risk exposures arise from either trading or non-trading portfolios:

- The trading portfolio includes positions arising from trading activities, which aim at benefiting from short-term price movements, such as proprietary trading and market making.
- The non-trading portfolio includes positions not held for the purpose of earning shortterm capital gains.

The Market Risk Management Policy and Asset and Liability Management Policy are the cornerstone of risk management of trading and non-trading purpose activities in the Bank. These policies are developed to establish risk management mechanisms, to facilitate the communication about risk management within the Bank and to provide proper management of risk exposure in accordance with the risk appetite of the Bank.

II. Structure & Organization

- The Board is the highest authority and bears the primary responsibility of market risk management. The Board develops the strategy and culture of market risk management through regular review and approved of risk policies, market risk appetite, limits, and controls, and oversight of market risk profile of the Bank.
- The RMC supervises the compliance and accomplishment of the policies and provides guidance on the market risk management mechanism based on the culture developed by the Board.
- CRO, who is independent from executive functions, business line and operations functions, provides independent oversight function on risk management.
- Market Risk Management Department (MRMD) performs the second line of defense by
  designing and executing appropriate risk identification, measurement, monitoring,
  controlling and reporting. In addition, MRMD, in close coordination with relevant banking
  units, develops and regularly review the market risk management policy and relevant
  procedures to provide an applicable guideline of Market risk management.

### III. Scope & Nature of Risk Reporting and Measurement Systems

Market risk is the risk that the Bank's earnings or capital or its ability to meet business objectives will be adversely affected by changes in the level, volatility or correlation of market risk factors, such as interest rates (including credit spread), foreign exchange, equities and commodities. The market liquidity of these types of instruments is also covered. The Bank's market risk originates from its holdings in its foreign exchange instruments, debt securities and derivatives.

MRMD define appropriate and consistent market risk measurement methodologies in line with the business characteristics and risk sources to properly evaluate the primary market risk exposures. The measurement results shall be applied to daily management and shall serve as a foundation for market risk planning, monitoring, and controlling. The most common measurements include:

#### a. Value at Risk (VaR)

Value at Risk measures the maximum potential loss under a particular confidence interval and a given holding period. VaR is used to express the risk appetite of the Bank. The VaR model has been developed as an independent and reliable quantitative technique for internal risk management purpose.

#### b. Stress Testing

Stress testing is a risk management technique used to reveal particular vulnerability of the Bank to a given set of stressed circumstances. The stress scenario might include an extreme or large movement of risk factors, volatilities and/or correlations. Stress testing is used as a supplement to the VaR analysis to capture the tail risk and to fulfil supervisory examination requirement.

#### c. Factor Sensitivity

Factor sensitivity is measured to monitor the cross-product exposures within each risk type, including but not limited to foreign exchange, interest rate and equity.

- ✓ PVBP, the change in fair value as the yield curve parallel shifts up by 0.01% (1bp), is used to measure interest rate risk exposures of the Bank's trading portfolios.
- ✓ FX Delta, the change in net present value as the foreign exchange rate moves up by one unit (100%), is used to measure foreign exchange risk exposure of the Bank's trading portfolios.

MRMD shall submit the market risk management information to the highest ranking risk management executive and relevant senior executives on a daily basis. Likewise, MRMD conduct a periodic reporting of integrated market risk profile to the RMC and to the Board to evaluate risk concentration and capacity of the Bank and to form necessary risk strategy.

## IV. Strategies and Processes for Mitigating Risks

To manage the exposures within the bank's risk appetite, the Bank may reduce the exposure or apply hedging measures upon internal approval to mitigate the overall level of risks of portfolio. This might include but not limited to:

- Adjust risk appetite Reduce limits to preclude extension of trading losses such as reducing VaR limits, MTD MAT etc.;
- Adjust monitoring frequency Adjust monitoring frequency in case of intraday volatility surge;
- Take hedging strategies Mitigate risk exposure by using hedging instrument such as NDF or FX option to bring down foreign exposure and IRS or CDS to lessen interest rate exposure.

ANNEX 13: OPERATIONAL RISK

#### A. Quantitative Information

OPERATIONAL RISK Under Stressed Scenario	In Million PHP
OF ERATIONAL RISK officer Stressed Scenario	2021
Total Residual Risk*	109.09
TOTAL CAPITAL CHARGE	136.36
OPRISK WEIGHTED ASSET Scenario Based	1,363.62
OPRISK WEIGHTED ASSET Based on BIA	4,961.67
FINAL OPRWA BASED ON BIA	4,961.67
(The higher b/n the Scenario based or the BIA)	4,961.67

Event Type	TOTAL PER EVENT TYPE			
(per Basel)	Gross Risk Exposure (In Million PHP)	Residual Risk Exposure (In Million PHP)

ADJUSTED CAPITAL CHARGE		136.36		
OPRISK WEIGHTED ASSET Scenario Based		1,363.62		
OPRISK WEIGHTED ASSET Based on BIA		4,961.67		

#### **B.** Qualitative Information

# I. Strategies & Processes

To ensure that all operational risks of the different Business and Operating Units are reported and properly managed, the Bank promotes the Operational Risk Process Cycle to have a periodic risk process assessment.

The Bank's Operational Risk Process is illustrated as follows:

The Bank requires all operating units, on a monthly basis, to formulate and use key risk indicators which represent standard measures that would indicate effectiveness of operational risk management activities.

Example of typical risk indicators are:

- Outstanding and prior audit findings not sufficiency addressed.
- Frauds and losses/attempts.
- Control weaknesses.
- Reconciling Item.
- IT failure.
- People problem/turnover.
- Others.

Historical losses / risk events are collected to help assess current risk measure being adopted.

#### **Risk Monitoring Tools**

- Key Risk Indicators (KRIs) Key Risk Indicators (KRI's) are an important detection (and sometimes preventative) control over risk. Key Risk Indicators comprise three main types: proactive, prospective (leading) and reactive (lagging).
  - a. Proactive indicators measure performance against planned levels of preventative risk management activities. Examples include training (e.g. average training hours per staff member), risk self-assessments (number completed, coverage, depth of staff involvement), stress testing (number completed, coverage), and controls testing and re-performance (number completed, frequency, coverage).
  - b. Prospective indicators measure business or environmental activities or characteristics that may or are likely to result in risk events increasing in frequency or impact. An adverse movement in a prospective indicator is a warning sign, and should result in increased supervisory controls or strengthened primary preventive controls. Examples of prospective indicators are numbers of system change requests, product launches, and prospective staff turnover.
  - c. Reactive indicators measure actual losses and Risk Events. Examples are system outages, fraud losses, and data entry errors.
- Incident Management The objectives of incident management processes are the following:
  - a. Assess the impact on appetite / tolerance
  - b. Identify the root cause of the loss
  - c. Identify process improvement opportunities
  - d. Reduce losses
  - e. Business learning

Responsibility for Risk Event reviews shall rest with the risk owner, being the manager responsible for the process or product.

Responsibility for oversight of the Risk Event review process rests with ORRMD (the outcomes of which may require reporting to the Operations Committee). This responsibility includes:

- a. Notifying the appropriate BSP department within 10 calendar days from date of discovery, of any operational risk event that may result in significant losses, activation of business continuity plan, or any material change in business and operating environment. Reporting is coursed through the Compliance Department.
- b. Establishing parameters defining which events require a loss review to be undertaken. These parameters require Operational Risk Committee approval.

In compliance to MORB Section 146 on Operational Risk Management pertaining to the reporting of major operational risk incidents to the Bangko Sentral ng Pilipinas (BSP), ORRMD shall facilitate the submission of prescribed report to the appropriate BSP department within the prescribed timeline. An incident is deemed reportable to the BSP as major operational risk incident if it involves actual or potential loss of PhP10M upon assessment at the time the incident was reported to ORRMD. Reassessment may be conducted should there be additional material information from the involved BU that were not provided and/or available at the time of initial reporting of the incident. Required BSP Report shall then be prepared and submitted within the prescribed timeline with the date of confirmation of additional information as date of reckoning. Note that this excludes reporting of information security incidents which is being handled by the Information Security Office (ISO) and major IT incidents which is being handled by the Information Technology Group (ITG).

#### Review

Business unit risk profiles will be reviewed and assessed at least an annual basis across the entire business. The basis of the assessment will include reference to:

- Changes in business operations including new products
- Emerging or changing risks
- Compliance monitoring activities
- Risk Event reporting
- Loss data
- Audit reviews internal and external

Senior Management are required to provide an attestation by approving their BU risk profile following annual review. This attestation will verify that the risk profile for their business unit has been properly reviewed and updated accordingly. Attestation can be in electronic format such as email approval.

Business risk profiles may be reviewed on a more frequent basis for a particular business unit if deemed appropriate due to changes or new developments.

#### **Key Risk Identification and Assessment**

This step involves the review of existing business processes, products and services for the purpose of identifying vulnerabilities and assessing the extent of damage that can happen should breaches occur.

The Bank uses Key Risk Indicators (KRI) to establish appropriate threshold and alert levels to track operational risk exposure over time and act as early warning signals in the prevention of risk event.

This process is formulated for each unit to adhere the following effectively:

- 1. Review of existing organizational structure, and clear identification of each function
- 2. Identification of critical core processes of each area/function
- 3. Identification of vulnerabilities in the function in terms of:
  - People Risk
  - Process Risk
  - System Risk
  - Event Risk
  - Business Risk

In accordance to the RCA Framework, KRIs are to be formulated for each of the identified key risks of a Group or Department. Identified key risk indicators shall be formally documented through the use of the Annual Risk Assessment (ARA) Report – WS C – Key Control Mechanism

KRIs and their corresponding standards/thresholds shall be reviewed on an annual basis, coinciding with the Risk and Control Assessment (RCA) exercise. Revisions to the KRIs and their thresholds shall be approved by the corresponding department head.

#### II. Structure & Organization

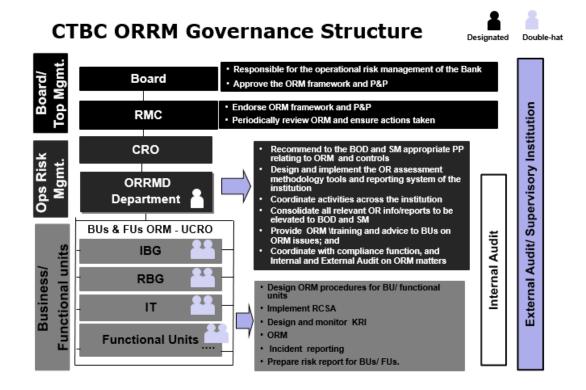

CTBC Bank Philippines has established a framework of roles and responsibilities consistent with the generally recognized principles of sound Operational Risk Management practice. Ultimate responsibility for the appropriate management of Operational Risk rests with the CTBC Bank Philippines Board of Directors (BOD). The BOD established the Risk Management Committee (RMC) which is responsible for the development and oversight of the Bank's risk management program and for the provision of general direction and risk philosophy of the Bank.

On a management level, the Operations Committee was established to monitor and discuss operational risk issues of the Bank. The principal purpose of the Committee is to deal with the risk issues identified by the Business Units and control Functions of the Bank.

The business or functional units are the first line of risk management defense. As such, they have the day-to-day responsibility and accountability of executing processes and controls to ensure that Bank risks are managed well and kept within acceptable levels.

As second line of risk defence, Operational and Reputational Risk Management Function is responsible for establishing, overseeing and supporting CTBC's Operational Risk Management ("ORM") framework. Among its key responsibilities include policy recommendation, coordination of risk activities, design ORM methodologies, tools, and reporting system, and monitoring and reporting of incidents.

The Internal Audit Function is an essential part of the risk management system that takes the lead in the ongoing monitoring of the internal control process and providing an independent assessment of system integrity.

#### III. Scope & Nature of Risk Reporting and Measurement Systems

Operational and Reputational Risk Management Department (ORRMD) aims for an environment with sound risk management. In order to achieve this, ORRMD shall make use of various operational risk assessment tools in identifying, measuring, and understanding the operational risks inherent to the bank. The tools shall also help ORRMD establish the operational risk universe of the bank which may be used as basis in developing and implementing the necessary controls to mitigate the risks. Proper monitoring of the risks will also be done to determine the effectiveness of controls and actions taken.

ORRMD ensures that all information provided by the units through the risk assessment tools will be verified and accurately recorded in the operational risk templates.

The following are the ORM activities with corresponding assessment tools to facilitate the conduct of said activities:

- 1. Outsourcing Risk Assessment Kit is used to facilitate conduct of outsourcing risk assessment prior to engaging/re-engaging new and existing service providers.
- 2. Outsourcing Key Control Self-Assessment (OKCSA) template is used in conducting the annual self-assessment of business and functional units on the effectiveness of their implementation of key controls for outsourcing risk.
- 3. CTBC Bank Philippines implements the Risk and Control Assessment (RCA) Framework to effectively manage its operational risk. In the RCA, process risks and internal control activities are identified, examined, and assessed, providing reasonable assurance that the organization's business objectives will be met. The RCA Framework is composed of 3 main activities namely:
  - Annual Risk Assessment (ARA) refers to the process of identifying and assessing key risks to be faced by the Bank in the upcoming year and mapping key controls and/or indicators for each identified key risk.
  - Management Control Assessment (MCA) refers to the year-long process
    of assessing the effectiveness of key control through self-inspection,
    monitoring trend/s of risk indicators, and taking action on any identified
    vulnerability or gap.
  - Business Risk, Compliance, and Control (BRCC) Forum refers to the integrated review on internal controls across first, second, and third lines of defense. Its main objective is to enable Senior Management to supervise the overall status of key risk trend, weakness in controls, and correction on major events and audit issues.
- 4. Key Risk Indicator (KRI) template is used to record and monitor Parent Bank required KRIs. Parent Bank (PB) Key Risk Indicators (KRIs) are a set of indicators prescribed by the Parent Bank for CTBC Bank Philippines to measure and provide corresponding report on a monthly basis.
- Operational Risk Self-Assessment (ORSA) and Reputational Risk Self-Assessment (RRSA).
- 6. Incident Reporting Template and Database.
- 7. Loss Limits for Operational Risk Categories.
- 8. Risk acceptance may be prepared and submitted for approval for operational risks and/or reputational risk incidents that have been thoroughly assessed by the owning business unit to have potential loss that is not great enough to warrant spending money and resources to avoid it.
- 9. Internal Audit Monthly Report.
- 10. All business units that propose either new or redesigned bank product shall conduct an operational risk assessment. This is to ensure all risks are appropriately identified, assessed, mitigated, and reported for major product modifications or for new channel or product development (including any associated changes to processes and systems are required).

Results of operational risk assessment and monitoring activities may be reported to the Operations Committee during its monthly sessions and to the Risk Management Committee during its bi-monthly meetings. **Stress Testing** – The Bank utilizes the scenario based survey which is sometimes motivated by recent events which seek to assess the resilience of the Bank and the financial system to an exceptional but plausible scenario.

# IV. Strategies and Processes for Mitigating Risk

The process of risk mitigation is embedded within the risk management process as well as in the incident management process which is described as follows:

- a. In the risk management process, upon identification of a risk, business and operational units are required to identify existing controls and assess their effectiveness. Depending on the risk rating assigned, business and functional units decide on an action plan to remediate the risk. Persons or units responsible and target completion dates are determined for each action plan to facilitate monitoring.
- b. In the incident management process, when root cause of the incident is identified, two action plans are drafted by the business or functional unit. One action plan is aimed at immediately addressing the incident and stopping further damage. The other one is a preventive action plan to avoid similar events from occurring again.

The following are the risk mitigation strategies adopted by business and functional units of the Bank. Risk mitigation to be employed shall be dependent on the risk assessment conducted.

Strategy	Description	Examples
Mitigate	Reduces the probability of a risk and/or the impact that results from the occurrence of a risk     Aims at the implementation of controls that reduces the effects of risk occurrences, while not completely alleviating them	Standardised processes     Formalised exception handling     Collaboration, checks, and balances
Avoid	<ul> <li>Eliminates the probability of a specific risk before it materializes</li> <li>Normally realized by trading the risk for other risks that are less threatening or easier to deal with</li> </ul>	Process redesign     Discontinuance of a product or service offering
Transfer	Also called risk sharing     Shifts risks or the consequences caused by the risk from one party to another	Process outsourcing     Purchase of insurance policies
Accept	<ul> <li>Adapts to the unavoidability of the risk</li> <li>A risk contingency plan is required in this strategy</li> </ul>	Adaption of regulatory requirements

#### **Annex 14: OTHER PILLAR II RISKS**

# A. Quantitative Information, as of December 31, 2021

Under the Pillar II, internal capital adequacy assessment of the Bank considers other risks inherent to the Bank like the interest rate risk in the banking books, compliance risk, and reputational risk and liquidity risks. The same is disclosed in the Internal Capital Adequacy Assessment Process Document (ICAAP) of the Bank which is updated yearly.

# Results of the quantification show the following risk weighted assets (RWA):

Risk Type	RWA (In Millions PHP)	REMARKS
Liquidity	0	No capital charge is required on account of sound liquidity management and more than sufficient contingency funding.
IRRBB	1,605	Based on Economic Value of Equity (EVE) Approach
Compliance	23	Based on Complaince Risk Self- Assessment Survey
Reputational	146	Based on Reputation Risk Self- Assessment Survey
Legal	313	Based on Legal Risk Self- Assessment Survey
TOTAL RWA	2,086	

#### **ANNEX 15: LIQUIDITY RISK**

#### A. Quantitative Information, as of December 31, 2021

		2M MCO		(160)	(44)
		7D MCO	(40)		130
	Consolidated	1M MCO	(60)		123
		2M MCO	(60)		109

#### **B.** Qualitative Information

#### I. Strategies & Processes

Liquidity risk is defined as the current and prospective risk to earnings or capital arising from the Bank's inability to meet its obligations when they come due with incurring of unacceptable losses or costs. The qualitative risk appetite of the Bank is defined as constantly maintaining a balanced asset and liability structure, diversifying funding sources, establishing stable deposit base and prudently arranging cash flows to ensure the Bank is capable of sustaining business growth and meet its obligations under normal and stressed liquidity scenarios. Base on this, the Bank set quantitative liquidity limits as a tool for authorizing and controlling specific forms of liquidity risk taken by the Bank to ensure liquidity risk exposure is consistent with the risk appetite of the Bank.

The most often seen limits are:

1. Short-term borrowing: This is to limit the Bank on unnecessary and/or excessive reliance on short term unstable funds source from other financial institutions. Such limit

is established by taking into account external liquidity conditions, asset and liability structure, credit facilities granted to us and peer banks' liquidity status.

2. Maximum cumulated outflow (MCO): Limits are set on short-term cash flow gaps in order to prevent excessive mismatch of cash flows in varying tenors between cash inflow and outflow (e.g., over dependence on short-term funds to finance long-term assets, which may cause liquidity risk). The establishment of MCO limits should take gap structure, deposit stability, deposit rollover ratio and the Bank's borrowing flexibility into consideration.

When the annual business planning and budgeting discussion commences, the review of risk appetite and tolerance should be processed synchronously. Liquidity and Balance Sheet Management Department will make the limit proposals in accordance with the current year's limit framework. Market Risk Management Department (MRMD) will provide limit recommendations after taking into account risk tolerance, exposure, risk-reward trade-offs, if necessary, and then consult with the Parent Bank. These limits are updated annually and are subject to the review and approval of the Board of Directors or other delegated authorities.

#### II. Structure & Organization

- The Board of Directors is responsible for approving policy of asset and liability management to establish the control framework and culture which could incorporate the risk appetite of the Bank into control mechanisms.
- The Risk Management Committee is a Board-level committee. It is in charge in the implementation of risk management policies and strategies approved by the Board and evaluate the magnitude, direction and distribution of risks across the Bank.
- The ALCO is a management-level committee established under the Chief Executive Officer (CEO), which aims to devise the asset-liability strategy of the Bank while evaluating the market situation.
  - The Liquidity and Balance Sheet Management Department effectively manages interest rate and liquidity risks, and acts as the Bank's sole "window" that borrows and lends funds from/ to external parties such as interbank counterparties, BSP etc., The Liquidity and Balance Sheet Management Department also ensure continuing alignment of overall liquidity and interest rate exposures with the Bank's risk appetite based on market conditions and the Bank's balance sheet structure. Furthermore, the Liquidity and Balance Sheet Management Department shall develop and maintain the operation of the FTP mechanism, make stable profits within approved interest rate limits and shall adjust its positions in accordance with ALCO decisions.
- MRMD is responsible in overseeing liquidity risk. MRMD is independent of the risk-taking unit and in charge of formulating Asset and Liability Management Policy and establishing implementation guidelines; developing the methods of identification, measurement,

monitoring and reporting of risk; and, studying asset and liability management related risk developments and challenges.

#### III. Scope & Nature of Risk Reporting and Measurement Systems

There are two types of liquidity risk: funding liquidity risk and market liquidity risk. Funding liquidity risk refers to the risk of inability to obtain funds at a reasonable cost within a reasonable timeframe to meet the financial obligations. Market liquidity risk arises when a specific asset cannot be sold for cash at a reasonable price within a reasonable timeframe. As it may have impact on funding liquidity risk, market liquidity risk must be factored in when assessing funding liquidity risk.

There is cost associated with the level of liquidity. Liquidity risk management aims to satisfy funding needs and maximize profits by allocating assets and liabilities in the most cost effective way within the approved risk tolerance.

All on- and off-balance sheet transactions are under the scope of liquidity risk management as they all affect the Bank's liquidity status.

In risk measurement, Liquidity risk is often quantified by a combination of various indicators. The most common indicators include:

- Loan to deposit ratio: This ratio indicates fund shortage or surplus.
- Maturity gap analysis: Analyzing maturity mismatch will help understand cash flow gap by time bucket. Liquidity risk could be measured by this analysis together with an assessment of the Bank's funding capacity.
- Liquidity Coverage Ratio (LCR): Measured in accordance with governing BSP circulars. The LCR level is being compared against the Bank's internal threshold and monitored and reported on a daily basis.
- Net Stable Funding Ratio (NSFR): Similar with LCR, NSFR is being measured in accordance with governing BSP circulars. The NSFR level is likewise being compared against the Bank's internal threshold and monitored and reported on a daily basis.

MRMD is responsible to continuously develop appropriate liquidity-related indicators and monitoring frequencies based on the characteristics and complexity of assets and liabilities. The overall liquidity risk may not be reflected by single risk indicator. MRMD takes all relevant indicators into account when assessing liquidity risk.

# IV. Strategies and Processes for Mitigating Risks

The liquidity risk limits are monitored on a monthly basis. MRMD is responsible for independently monitoring the business units' compliance with the established limit framework, as well as disseminating monthly liquidity gap report and advisory summary to ALCO, RMC for senior management's review.

When the liquidity exposure exceeds the established limits, after the excess is confirmed, MRMD shall notify the unit allocated with the limit and the designated limit authority of such limit. Upon receipt of the notification, the unit that is allocated with the limit shall no longer transact to increase exposure. This limit breaching unit must be joined by the MRMD to analyze the causes and impacts of the excess, and draft an action plan addressing the issues. MRMD will submit the analysis and proposal to the limit authority for approval. The business unit involved and Liquidity and Balance Sheet Management Department will adjust positions in accordance with approved decisions. The excess shall be reported to the senior management and/or BOD for appropriate remedial actions.

The Bank applies a liquidity risk management strategy of maintaining sufficient cash and marketable securities, ensuring the availability of funding through an adequate amount of committed credit facilities and having the ability to close out market positions. In addition to its core deposit base, the Bank maintains a portfolio of marketable assets that can be readily liquidated in the event of an unforeseen interruption of cash flows. Additional funding may be secured from the inter-bank market by tapping the Bank's credit facilities.

Regular stress-testing is also performed. This includes identification of the Bank's assets which can be readily liquidated in case of massive withdrawals and adoption of different deposit run-off rates.

# **Liquidity Coverage Ratio Disclosure for 2021**

Lowest	0.59	-3.69	-83.19	-89.56	

## I. Strategies & Processes

The Bank's risk appetite and tolerance are set by its set of interest rate risk limits. IRRBB risk limits are tools for authorizing and controlling specific forms of interest rate risk taken by the Bank to ensure interest rate risk exposure in banking book is consistent with the risk appetite of the Bank.

The Liquidity and Balance Sheet Management Department will make the limit proposals. MRMD will make limit recommendations taking into account risk tolerance, exposure, risk-reward trade-offs and their proposals. These limits are updated annually and are subject to the review and approval of the Board of Directors or other delegated authorities.

# II. Structure & Organization

- The Board of Directors is responsible for approving policy of asset and liability management to establish the control framework and culture which could incorporate the risk appetite of the Bank into control mechanisms.
- The Risk Management Committee is a Board-level committee. It is in charge of: implementation of risk management policies and strategies as approved by the Board; and, evaluation of the magnitude, direction and distribution of risks across the Bank.
- The ALCO is a management-level committee established under the Chief Executive Officer (CEO), which aims to devise the asset-liability strategy of the Bank while evaluating the market situation.
- The Liquidity and Balance Sheet Management Department effectively manages excess liquidity of the bank, and acts as the Bank's sole "window" that borrows and lends funds from / to external parties such as interbank counterparties, BSP etc,. The Liquidity and Balance Sheet Management Department also ensure continuing alignment of overall liquidity and interest rate exposures with the Bank's risk appetite based on market conditions and the Bank's balance sheet structure. Furthermore, the Funding Management Unit shall develop and maintain the operation of the FTP mechanism.
- Market Risk Management Department (MRMD) is responsible in overseeing the
  interest rate risk in the banking book. MRMD is independent of the risk-taking unit and
  in charge of formulating Asset and Liability Management Policy and establishing
  implementation guidelines as needed; developing the methods of identification,
  measurement, monitoring and reporting of risk and pushing for the implementation;
  and, studying asset and liability management related issues.

#### III. Scope & Nature of Risk Reporting and Measurement Systems

Interest rate risk refers to the impact on the Bank's profits or on economic value of non-trading purpose<sup>1</sup> assets, liabilities and derivatives when interest rates change.

Interest rate risk management aims to keep interest rate exposures within the Bank's risk appetite through the establishment of authorities, responsibilities and management procedures. It provides guide to adjusting asset and liability structures in anticipation of interest rate changes so that the Bank's profit can be maximized.

Interest rate risk stems from different sensitivity of assets and liabilities to interest rate change. The sensitivity of all on- and off-balance sheet items to interest rate movements must be duly examined when assessing interest rate risk.

Interest rate risk may be measured by the following tools:

#### 1. Repricing Gap Report:

This report measures the repricing gap between asset and liability by various time buckets in order to understand interest rate mismatches on a monthly basis.

The Repricing Gap Report considers rate-sensitive assets and liabilities such as due from other banks, interbank loans receivable, debt investment securities, loans and receivables, deposit liabilities and bills payable, and equity. For those rate-sensitive assets and liabilities with no available repricing dates, the repricing assumption is based on the two years historical repricing behavior. The longest repricing maturity assigned to non-maturity deposits is the checking and demand deposit products of the Bank. The repricing assumption is a function of estimated decay rate, established cap on core deposit, and established cap on repricing tenor.

The assumptions on interest rate sensitive assets (RSA) and liabilities (RSL) are as follows:

<sup>&</sup>lt;sup>1</sup>Non-trading purpose refers to a position not built for the purpose of earning capital gains

## 2. Risk Sensitivity:

This measures the impact of 1 basis point change in interest rate on net interest income (NII) and that on economic value of equity (EVE). The analysis of such impact on NII (1bp $\Delta$ NII) focuses on changes in interest income and expense within a year hence, a short-term perspective. The analysis of such impact on EVE (1bp $\Delta$ EVE) is of a long-term perspective as it focuses on changes of economic value which will become net interest income received every year later on.

#### 3. Stress Test:

Stress test evaluates the appropriateness of exposure of the Bank under some stressed conditions. Stress test methodologies and results shall be submitted to ALCO to comprehend the Bank's interest rate risk profile.

The above risk measurement may generate different results while adopting different methodologies and assumptions. MRMD is responsible to develop the measurement, monitoring frequency, and parameters by taking into account their respective characteristics/ complexity of assets and liabilities and methodologies used.

The following table provided additional information on the impact on economic value of equity under assumed upward or downward rate shocks scenarios as of December 31, 2021.

# IV. Strategies & Processes for Mitigating Risks

The interest rate risk limit shall be reviewed annually in accordance to the annual business strategy and budgeting planning to ensure the effectiveness.

The interest rate risk limits are monitored on monthly or daily basis (FVOCI and HTC securities). MRMD is responsible for independently monitoring the business units' compliance with the established limit framework, as well as distributing monthly repricing gap report and advisory summary submit to ALCO, RMC and BOD for review periodically.

If the extremely event occurs and risks arise, risk mitigation or remedial measures might be taken. This might include but not limited to:

- Take hedging strategies Mitigate risk exposure by using hedging instrument such as IRS to lessen interest rate exposure in banking book
- Interest rate forecast and balance sheet planning adjust balance sheet to adjust repricing gap on the basis of forecast of short term and long term interest rate.

#### **ANNEX 17: COMPLIANCE RISK**

Compliance Risk Management System of the Bank is designed to specifically identify and mitigate risks that may erode the Bank's franchise value, such as, risks of legal or regulatory sanctions, material financial loss, or loss to reputation that the Bank may suffer as a result of its failure to comply with laws, rules, related self-regulatory organization standards, and codes of conduct applicable to its activities. Said risk may also arise from failure to manage conflict of interest, treat customers fairly, or effectively manage risks arising from money laundering and terrorist financing activities.

It is an integral part of the culture and risk governance framework of the Bank and in this respect, it shall be the responsibility and shared accountability of all personnel, officers and the board of directors.

The Bank's Compliance Department is independent in its function.

## I. Strategies & Processes for Monitoring and Mitigating Risks

The Compliance Department oversees the implementation of the Bank's Compliance function aims to mitigate the Compliance Risk through clear identification of the roles and responsibilities of Compliance within the line, operating and business units of the Bank and its resolution in cases of possible breaches as well as the establishment of structures as baseline in setting the controls.

The Compliance Program of the Bank defined the Compliance structure, its functions, roles and responsibilities. In ensuring that Compliance Risk is monitored and mitigated, a comprehensive compliance system has been established to ensure that integrity and adherence in the regulatory requirements as well as in the accuracy and timeliness of reporting requirements of the Bank. A constructive working relationship between the Bank and the Regulators by having an open and clear communication line as well as appropriate monitoring and tracking until resolution of possible noted breaches ensuring safe and sound banking operations is upheld within the institution.

#### II. Scope & Nature of Risk Reporting and Measurement Systems

Compliance Department is an independent unit reporting directly to the Board of Directors through the Audit Committee for Compliance matters and to Nomination and Remuneration Committee for the Governance Functions. Administratively, Compliance Department is under the Office of the President.

Further, monitoring and Independent Compliance Testing are established to have a risk based, quantitative and qualitative review of the Bank's compliance to the regulatory requirements.

# III. Structure & Organization

As of December 2021, Compliance Department has two (2) Units, namely: General Compliance Unit and Anti-Money Laundering (AML) Unit. Their respective functions are embodied in the Bank's Compliance Charter and Compliance Manual.

Internally, Unit Compliance & Risk Officers (UCRO) and Sub-UCROs designated by their respective group heads, are embedded compliance officers of their groups and report to the Compliance Department on Compliance and AML matters.

#### **ANNEX 18: REPUTATIONAL RISK**

#### I. Strategies & Processes

## **Reputational Risk Management Process**

Reputational Risk is the risk or its likelihood that negative information, public opinion or publicity, regarding an institution and its business practices will lead to loss or reduction of revenue and /or decline in its customer base, and/or costly litigation.

At CTBC Bank (Philippines), reputational risk is among the identified risks, which the Bank may be exposed to. Possible public embarrassment, erosion of trust from the customers, adverse impact on the revenue, are among the potential concerns of customers to continue doing business with the Bank.

The following describes the reputational risk management process of CTBC Bank Philippines.

- CTBC Bank Philippines established a Reputational Risk Management Policy which
  is a document that covers the general policies to be observed in the proper
  management of Reputational Risks of CTBC Bank Philippines. This will help the
  Bank to identify, assess, control and mitigate possible reputational risks.
- 2. Identification, Assessment, Management and Control To facilitate the identification, assessment, and management of reputational risks, CTBC Bank established a self-risk assessment mechanism, subject to regular review to assess its effectiveness and appropriateness. Such risk assessment mechanisms are the Risk and Control Assessment (discussed under Annex 6 Operational Risk) and the Reputational Risk Self-Assessment (RRSA). The RRSA is a quarterly exercise that allows various units, departments and groups of the Bank to identify and report their respective reputational risks. Consolidation and evaluation of the survey results are done by the Operational and Reputational Risk Management Department (ORRMD). During the scenario analysis, external data are analyzed taking into account institution-specific business environment and internal control factors which will include historical and plausible risk events that may happen to the Bank. The scenario-based testing approach combines quantitative data and qualitative data in the analysis process. Results of the RRSA are reported to Management as part of regular ICAAP updates in the Risk Management Committee (RMC).
- 3. Monitoring and Reporting
  - In order to monitor and control reputational risk, early warning indicators of any changes to reputational risk shall be analyzed and evaluated for improvement, and reported to Management if necessary.
  - The information of internal reputational events and the result of the self-risk assessment shall be regularly analyzed for monitoring, management, and control of reputational risk.
  - The identification and assessment and the result of monitoring, management and control of reputational risk shall be regularly reported to Management so as to enable him to grasp the status of reputational risk and to take the

\_\_\_\_\_\_

necessary action.

- In order to mitigate the loss of reputational risk, set-off and minimizing solution shall be positively pursued and implemented only after the assessment of cost effectiveness.
- 4. Communications and Disclosures With regard to the reputation events, personnel, financial or business related information, the Bank shall communicate regularly with the outsiders in a clear, honest, transparent and timely manner by way of a disclosure, announcement or press release/statement. This will help in preventing a communication vacuum and in alleviating or minimizing any damage to the Bank's reputation.
- 5. Independent Review and Audit CTBC Bank shall ensure that independent reviews and audits, whether as a review dedicated to reputational risk or as part of a wider review of risk management, are conducted regularly so as to provide assurance and confidence that controls and actions to manage risks affecting reputation are operating as intended.
- 6. Incident Handling CTBC Bank employs an incident management process for identifying, reporting, and mitigation of reputational risk incidents. The same process is used for the management of operational risk events. A reputational risk loss database is maintained by ORRMD to manage and track said events.

## **Crisis Management**

CTBC Bank established a crisis management framework that provides guidance and direction to the Bank's management and staff when dealing with crisis. Key elements of the framework include approach, scope, crisis management plans, preparations and action checklists, contact lists, and draft spiels and press statements.

#### Stress Testing

Working towards an effective quantification process, the team made use of the template of the RRSA survey as part of CTBC's risk assessment process. Plausible as well as stressed situations were worked on, in the identification of the reputational risks. After identifying the major reputational risk events per risk classification, Business and Functional Units determine and assess maximum loss exposures. The capital charge resulting from the RRSA shall be considered as the stressed figures. The scenarios itself provided by the Business and Functional Units are already stressed based on expert judgment, perceived risks and existing controls.

#### II. Structure & Organization

CTBC Bank Philippines has established a framework of roles and responsibilities consistent with the generally recognized principles of sound Operational Risk Management practice, under which framework reputational risk falls. Ultimate responsibility for the appropriate management of Reputational Risk rests with the CTBC Bank Philippines Board of Directors (BOD). The BOD established the Risk Management Committee (RMC) which is responsible for the development and oversight of the Bank's

risk management program and for the provision of general direction and risk philosophy of the Bank.

On a management level, the Operations Committee was established to monitor and discuss operational and reputational risk issues of the Bank. The principal purpose of the Committee is to deal with the risk issues identified by the Business Units and control Functions of the Bank.

The business or functional units are the first line of risk management defense. As such, they have the day-to-day responsibility and accountability of executing processes and controls to ensure that Bank risks are managed well and kept within acceptable levels.

As second line of risk defense, Operational and Reputational Risk Management Function is responsible for establishing, overseeing and supporting CTBC's Operational Risk Management ("ORM") and Reputational Risk Management (RRM) framework. Among its key responsibilities include policy recommendation, coordination of risk activities, design ORM and RRM methodologies, tools, and reporting system, and monitoring and reporting of incidents.

The Internal Audit Function is an essential part of the risk management system that takes the lead in the ongoing monitoring of the internal control process and providing an independent assessment of system integrity.

#### CTBC ORRM Governance Structure Double-hat Responsible for the operational risk management of the Bank Board Approve the ORM framework and P&P Endorse ORM framework and P&P External Audit/ Supervisory Institution RMC Periodically review ORM and ensure actions taken CRO Recommend to the BOD and SM appropriate PP relating to ORM and controls Design and implement the OR assessment methodology tools and reporting system of the institution ORRMD Department Coordinate activities across the institution Consolidate all relevant OR info/reports to be elevated to BOD and SM BUs & FUs ORM - UCRO Provide ORM \training and advice to BUs on nternal Audit ORM issues; and unctional units **IBG** Coordinate with compliance function, and Internal and External Audit on ORM matters Business/ **RBG** Design ORM procedures for BU/ functional units IT Implement RCSA Design and monitor KRI ORM **Functional Units** Incident reporting Prepare risk report for BUs/ FUs.

## III. Scope & Nature of Risk Reporting and Measurement Systems

## **Monitoring and Reporting**

In order to monitor and control reputational risk, early warning indicators of any changes to reputational risk shall be analyzed and evaluated for improvement, and reported to the CEO if necessary.

ORRMD with the assistance of other functional and business units shall regularly monitor scenarios that may impact on reputational events through market environment reports, social and political trends, and asset development reports, among others. MCSD will likewise monitor local media reports for possible reputational events. Such obtained information shall be forwarded by business units and MCSD to the ORRMD to be reported to Management.

Key results and findings from reputational risk management activities are reported in the Operations Committee and in the Risk Management Committee as part of regular reporting to Management.

## IV. Strategies and Processes for Mitigating Risks

For an effective reputational risk monitoring and management infrastructure, CTBC Bank Philippines strongly supports the compilation of reputational events, including the corrective action from the various business, operational and support groups. This is an integral component of the management and monitoring of the implementation of the corrective action and continuous preventive position of the Bank. This forms part of the functional coverage of the ORRMD of the Bank.

To cover areas and reputational events which are assessed to be difficult to handle or costly to eliminate, special handling is needed. Together with the ORRMD, the Marketing Communications and Services Department (MCSD), with the guidance from the Top Management, will assist in addressing issues that require PR handling. Client correspondences and standard spiel, media interviews, press statements if not emanating from MCSD shall be pre-cleared with MCSD.

To preclude damage to the Bank's name or to institute damage control for harm already done, action plans and strategies have to be continually revisited. This will ensure appropriateness of the action and strategies to the situation at hand.

#### **ANNEX 19: STRATEGIC RISK**

Strategic risk is the risk that the current and prospective impact on earnings or capital arising from adverse business decisions, improper implementation of decisions or lack of responsiveness to industry changes. This definition gives importance to business planning, where business decisions and its implementation are derived from.

The strategic risk of the Bank is a function of the compatibility of its strategic goals, the quality of carrying out its implementation, building the infrastructure to meet such goals.

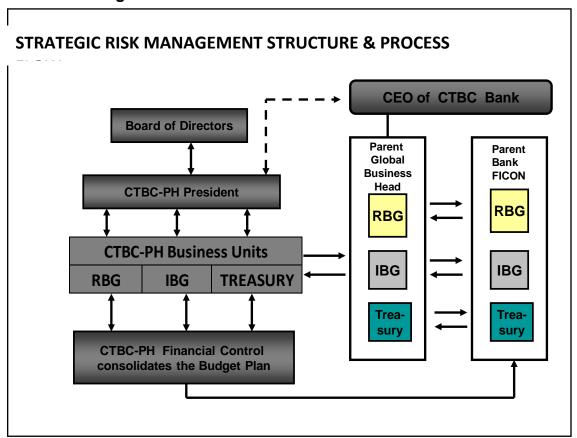

#### I. Strategies & Processes

Strategic risk management begins with the business planning. Business plans of the Bank establishes the strategies and priorities of the Bank. CTBC in preparing and drawing up its business plans considers prevailing macro-economic environment indicators, lists down external opportunities and threats for each business segment, re-evaluate its internal strengths and weaknesses, analyses the competition against other local and foreign banks and thereafter issues out the overall country strategy.

The overall country strategy is drilled down to the business segments, e.g. Institutional Banking Group, Treasury Group, Retail Banking Group. Annually, these business segments draw up a business plan that is endorsed for approval by the Global Business Heads.

After the formulation of the business plan, the Bank will then subject the budget plan to stress testing by scenario planning. Scenario planning is an advance stress testing that derives alternative future plausible and extreme scenarios from the analysis of business plans. Scenario planning allows the Bank to make strategic adjustments for the future, if needed. The Bank determines the scenarios that could adversely affect earnings and these are identified through scenario planning. These scenarios are linked to the changes in net income through variance analysis between the budget vs actual income statement.

## II. Structure & Organization

The strategic risk management function is being handled by the Finance Group (Accounting Department and Financial Control Services Department/ FCSD) of the Bank with support from the business units and other functional departments such as Human Resources (HR), and Information Technology (IT) departments.

FICON performs the regular financial reporting and discussions with relevant business units, the CEO and the BOD. They handle the consolidation of the Bank's budget plan from the different business segments which are reported to both the local and global management.

Accounting Department/FCSD subjects this budget plan to a stress testing and allocates a capital charge for strategic risk in the quantification of the budget capital adequacy ratio.

Business Units re-evaluates its internal strengths and weaknesses and analyze the competition in the industry and thereafter crafts out the business strategy and plans.

Business Units & the Finance Group have a matrix reporting to their global counterpart in the Parent Bank, where the global counterpart ensures business strategies and plans of the Bank is aligned with the business objectives of the Parent Bank subject to the approval of the CEO of CTBC Bank.

### III. Scope & Nature of Risk Reporting and Measurement Systems

As part of setting the strategic goals of the Bank, capital planning and funding needs will be a major part of the supporting processes in drawing up the strategic plans for the next five years. Management information system (MIS) reports such as product profitability reports, customer specific marketing plans whether for a new customer or expanding existing business relationships based on customer profitability analysis will be in place thru information extracted from data warehouse systems. Finally, independent reviews and audits will be conducted at least annually by internal or external audit to ensure effectiveness and integrity of the strategic risk management framework of the Bank.

With the close and meticulous supervision/monitoring of Parent Bank on the progress of meeting the Bank's strategic goals, append below is the frequency of meetings & reporting, the nature of the reports, the reviewing authority and the evaluation and feedback process that has been put into place:

Quarterly business meetings and performance review (thru telecon) – Local Institutional Banking (IBG) Head with Global IBG Head, local Treasury Head with Global Treasury Head in Parent Bank; Reports presented shows financial results and management overview customer metrics information, market sentiment and competitors' new products. In addition, actual month-to-date (MTD) results are compared to the preceding two months, actual year-to-date (YTD) results compared to the YTD results for the same period last year. Likewise, YTD actual are compared against full year budget. Year on year growth and Budget achievement are also presented.

Local Board meeting is held every two (2) months, and the latest financial results are shown. In the Board meeting, the action plans of each business group to meet the budget or catch up (in case actual results are falling behind budget) with the budget are likewise presented and scrutinized by the Board Director members.

# IV. Strategies and Processes for Mitigating Risks

When strategic adjustments need to be done, proper alignment of internal resources and processes will be made as well to ensure that all change issues and interdependencies between processes across departments be managed to accomplish these adjustments. HR will provide the training and development programs, while management succession plan will be part of the supporting processes in the achievement of the Bank's strategic goals.

Likewise, IT will develop new application systems to support new products and other new business initiatives. It will also have to enhance/customize existing systems to eliminate manual processing and thereby improve operational efficiency.

Success or failure of strategy depends on the Bank's resources, capability to implement the strategic goals and the ability to effectively monitor and control the progress of implementation. With the set-up of reporting structure, strategic issues are promptly identified and reported to the local CEO and then to the matrix reporting authority at Parent Bank.

## **ANNEX 20: LEGAL RISK**

#### I. Quantitative Information

Legal risks belong to non-quantifiable risks that are not subject to specific numerical measurements but likewise require similar management attention. While unpredictable, non-quantifiable risks may cause severe impact on the Bank's statements of income. These risks are mitigated by developing a strong control culture, an organizational structure that is risk-aware, and an effective internal control system that continually monitors and updates processes and procedures.

Legal risks include the potential for the Bank to suffer a financial loss due to non-existent, incomplete, incorrect and/or unenforceable documentation used by the Bank to protect and enforce its rights under contracts and obligations. This risk is closely related to credit risk as it most often involves legal problems with counterparties to the Bank' transactions. It is also closely related to other non-quantifiable risks that have to be assessed: fiduciary, reputational risk and regulatory risk.

A legal review process is the primary control mechanism for legal risks and shall be part of every product program or process of the Bank. The review aims to validate the existence, propriety and enforceability of documents, and verify the capacity and authority of counterparties and customers to enter into transactions. The Bank's Legal Department is the primary unit assigned to identify, assess, manage and monitor the Bank's legal risk.

#### II. Qualitative Information

Legal risks include the potential for the Bank to suffer a financial loss due to non-existent, incomplete, incorrect and unenforceable documentation used by the Bank to protect and enforce its rights under contracts and obligations. It also includes the possibility or potential for financial loss arising from the uncertainty of the legal proceedings. It is considered as one of non-quantifiable risks not subject to specific numerical measurements, albeit in terms of litigation once a case is filed for whatever reason and nature the bank is exposed to possible adverse judgment, as well as legal expenses.

Legal risks, while belonging to non-quantifiable risks, require management's attention. Although unpredictable, non-quantifiable risk may cause severe impact on the Bank's profit and loss. These risks are mitigated by developing a strong "control culture" and an organizational structure that is risk-aware and with effective internal control system that continually monitors and updates processes and procedures. This risk is closely related to credit risk as it most often involves legal problems with counterparties to bank's transactions. Also, it is likewise related to other non-quantifiable risks that have to be assessed, such as fiduciary, reputational risk and regulatory risk which are equally managed by responsible departments in the bank.

# A. Strategies and Processes

The Bank's legal risk management framework seeks to ensure that there is an effective process in place to manage legal risk across the Bank. Legal risk management is integral to all aspects of Bank's transactions and activities that is why it is a shared responsibility not only by the Board of Directors, Committee members, but also by the functional units and of every bank officer through the observance of appropriate controls and monitoring. The Board of Directors and the President have the prime responsibility to establish a risk culture and risk management organization that incorporates risk processes as an essential part of the Bank's and the Trust and Investment Services Division's (TISD) strategic plans.

The Board-constituted Committees which are the (i) Executive Committee, (ii) Nomination and Remuneration and Governance Committee, (iii) Audit and Compliance Committee, (iv) Risk Management Committee and (v) Trust Committee, assume risk management responsibilities stated in the institution's By-Laws, delegated by the Board and those required by the law and regulatory bodies. The Bank's senior management committees which are the Management Committee, Credit Committee, Asset and Liability Committee, Human Resource Committee, and Information Technology Steering Committee, are responsible for the creation and oversight of the Bank's risk policies. These committees are actively involved in planning, approving, reviewing and assessing all risks involved.

## B. Structure and organization of the Legal Department

The Legal Department which plays a very crucial support role in the bank's business is headed by a Legal Department Head, complemented by a Litigation Unit Head, a Documentation Officer, a paralegal and a department secretary. From time to time and as the need arises, the Legal Department engages a lawyer coming from the pool of its accredited external counsels to help and assist in the fulfilment of its documentation function. Legal Department has open reporting channel to the Office of the President (OTP), but remains independent. OTP exercises administrative control over Legal Department in terms of approval of leaves, requisition of supplies, among others, which are all governed by existing policies.

Too, aside from documentation, litigation of cases for or against the Bank, rendering opinions and oversight function on matters referred to the Bank's external counsel, the Legal Department performs corporate secretarial work and renders legal services to functional units.

## C. Scope and Nature of Risk Reporting and Measurement System

The main objective of the department is to see to it that the institution observes the applicable laws, rules and regulations such that no violations thereof will unduly impede or interfere with its banking operations. The Legal Department also sees to it that all agreements of the Bank with its customers and other third parties afford the fullest legal protection to the Bank, and set forth in clear, unambiguous language, not susceptible to conflicts in interpretation, the obligation of the parties. In this manner, in the event of a claim, action or suit, brought by or against the Bank, the risk of loss resulting from a decision or judgment adverse to the Bank will be minimized. The Head of the Legal Department also acts as an adviser to the top management and the Board of

Directors. To ensure that the Bank receive optimum legal advice, the Head of the Legal Department must not be restricted in expressing independent legal judgment on any matter referred for consultation.

In compliance with BSP recommendations, Legal Department through its Litigation Unit, prepares a Legal Risk Report for ICAAP wherein risk exposure of the Bank on claims or cases is identified, monitored and assessed. Cases included in the report are those suits instituted against the Bank as these legal actions were primarily lodged to exact payment for damages or supposed causes of action, including bank initiated criminal cases against erring employees since the Bank still spends for the professional fees of its chosen handling external counsels.

To determine the risk exposure of the Bank on litigated claims or cases, Legal Department uses the formula wherein the principal amount involve in every case or claim is multiplied by the percentage of the probable result or probability of losing. Probable result, meantime, is based on the most intelligible assessment of the handling lawyer of the case under consideration after taking into account different factors that affect the outcome of the case or litigation.

Apart from the Legal Risk Report for ICAAP, the Legal Department prepares and submits a monthly litigation report which it provides to the functional units, to Compliance Department and to Operational and Reputational Risk Management Department. Monthly, the Legal Department also submits to its counterpart in Parent Bank Taipei a Monthly Report - Litigation. Likewise, every other month the Legal Department submits its Items in Litigation ("ITL") report to the Board of Directors while its risk report on cases filed against the bank is submitted to the Risk Committee. On a quarterly basis, the Legal Department also submits Potential Litigation Report and, on annual basis, the Labor Disputes, Criminal Cases & Significant Litigation Report to Parent Bank.

#### D. Strategies and Processes for Mitigating Risks

To mitigate risks, product manual and guidelines are reviewed by Legal Department. Such review form part of the bank's internal processes before such manuals or guidelines are finally approved. Contracts or agreements for service providers or other third parties are similarly endorsed by the functional units for review by the Legal Department to check whether the bank's rights and interests are protected, as well as to ensure that mandated provisions or requirements by the regulatory bodies or agencies are included.

Functional units also seek the necessary legal opinion from the Department to cover legal risks of bank transactions being handled by the unit. While the functional units, upon proper approval, may engage external counsel, the Department sees to it that the external counsel is fully apprised of the transaction and the needs of the referring functional unit are fully addressed by the legal opinion/services sought.

The Legal Department also exercises oversight function over the handling of bank cases by accredited external counsels. To ensure that these external counsels will provide and exert their utmost skills in litigation, the Department conducts an annual performance review and communicates to concerned external counsel the need to improve, if any. Surprise attendance in hearings of the external counsels is conducted by Legal Department's Litigation Unit to gain accurate insight on how the bank cases are being handled by the external counsel. Other strategies which the Legal Department applies are set out in its Legal Risk Manual.
